"PARTY IS THE MADNESS OF MANY FOR THE GAIN OF A FEW."

Established April 6, 1877. Number 5

MADOC, HASTINGS COUNTY, ONTARIO, FEBRUARY 4th, 1931

Single Copy, Five Cents.

RECALLED TO BELLEVILLE

Mr. Gordon Blue, who has been connected with the Dominion Store in Madoc, has been recalled to Belleville and takes charge of the uptown Dominion store in the city.

ANNOUNCEMENT

The following announcement is taken from the Blenheim News-Tribune:

Mr. and Mrs. James McPherson, of South Harwich, announce the engagement of their daughter, Irene Elizabeth, to Mr. Carl Francis Tumilty, son of Mrs. A. V. Tumilty, and the late Mr. Tumilty, of Madoc, Ontario. The marriage will take place early in February.

GIVES UP POST

W. H. Nugent, High County Constable, resigned from that position in a letter forwarded to the council and the Commissioner of Provincial Police from the Province will appoint a high constable in his place, taking the control of that office from the county council. This is in accordance with a statute passed by the Ontario Legislature and not complied with until this session of the County Council.

EARL BONTER HEADS HOLSTEIN BREEDERS

At a meeting of the Belleville District Holstein Breeder's Association held in Belleville on Thursday, the following officers were elected:

President, Earl Bonter, Carrying Place; 1st Vice, Rockell Parks, Napanee; 2nd Vice President, E. O. Butler, Brighton; Secretary-Treasurer, P. B. Nelson, Campbellford; Auditors Fred Hubbs, Bloomfield; A. Phillips, Belleville.

FELL DOWN CELLAR

Mrs. George Fox, of Burra, Prince Edward County, fell down cellar on Wednesday night. Mr. Fox had gone down cellar and Mrs. Fox went across the kitchen in the dark to the back door, not knowing the trap was up and stepped off on the top step, lost her balance and fell to the bottom, striking her head on a cement step at the bottom. Although she received a number of bumps and bruises, fortunately no bones were broken.

TO MARK FIRST SURVEYS

Kingston, Jan. 30.—Fraser Aylesworth, of Madoc, was in conference today with Mayor Wright in regard to the memorial it is proposed to erect in Kingston to mark the first surveys made in Canada. The matter is being undertaken by the Dominion and Ontario Land Surveyors' Associations, and it is expected that the proposal will receive the support of the Government. Mr. Aylesworth explained that the memorial will take the form of a cairn, and he has approved of the suggestion to have the memorial placed in the city park, just west of the Sir John Macdonald Monument.

PASTEURIZATION FOR BELLEVILLE

The first reading of the pasteurization by-law was given by the Belleville council Monday night and it will be forwarded to Toronto for approval by the Ministers of Health. The by-law will then be returned for two more readings and final passing. It does not necessarily follow that the by-law will be adopted as it is now constituted, as the council can make any changes they see fit when it is returned, but it will gain have to be sent to Toronto for approval. The discussion was as to whether the new measure should incorporate certified milk has not taken place in the council.

John Edward Callaghan, a native of Tyndinaga, but a resident of Campbellford for the past forty-five years, died early Monday morning of last week. He is survived by his wife, two sons and four daughters. Prior to his death, Mr. Callaghan was in the best of health and had been employed near Madoc.

The money you will save by reading the ads of local merchants in the Madoc Review will pay the subscription price of this paper many times over.

C. S. M., D. MCKENZIE, GREAT WAR VETERAN HAS LARGE FUNERAL

After an illness of several months, and for which he underwent an operation in Kingston General Hospital in August, death came to Duncan McKenzie at his home in Madoc on the morning of January 25th. The deceased was born in Scotland and came to Canada, accompanied by his wife and two children in the year 1910.

Since coming he has resided in Madoc and for several years prior to his death he was in the employ of the Gillespie Talc Company. The late Duncan McKenzie was a veteran of the Great War, going overseas as a member of the 155th Battalion. Since 1919 he was Company Sergeant-Major of "B" Company of the Hastings and Prince Edward Regiment.

The funeral was held from his late residence on Tuesday, January 27th, at 2:30 p.m. The service at the house was in charge of Rev. T. G. Marshall, of St. Peter's Presbyterian church, of which church the deceased was a member. The Rev. Mr. Marshall took his text from the 16th Chapter of John and the 16th verse. He said that while these words were spoken by Jesus to his disciples yet they were true of all mortals. Life is only "a little while" and then we say "adieu" and journey to our eternal home. Speaking of the deceased, he said that we all might face death so bravely. Many people would have questioned the Power which was soon to separate him from his family who still needed his support and counsel and love. But Duncan did not. His whole attitude was, "Thy will be done." He was a good husband, a good father and a good churchman. He helped heart and soul in his church and he believed heart and soul in his Saviour. He believed in his church and so gave it his heartiest support. When a person lives his religion and dies his religion his eternity is assured. And that, our late brother and loved one did.

Following the service at the house the cortege consisted of members of "B" Company; the firing party made up of thirteen non-commissioned officers and men, all overseas comrades; the Royal Orange Lodge; the

Clements, for library, \$5; Ontario, for advertising, \$11.10; S. Kilpatrick, for wood, \$10.00; dog tags, \$10.91; Councilors' pay, \$17.50.—C'd.

Hagerman—Sarles—that Council adjourn until the first Monday in March at 10:30 a.m. or by call of the Reeve.—C'd.

S. J. Kilpatrick, T'p. Clerk

GRAFTON HOCKEY IS ON UPGRADE

Grafton's efficient hockey team owes much to C. B. Simmons, the C. N. R. Station agent, whose tireless and unselfish work has made possible much of its success.

Coming to Grafton in July from Madoc, Mr. Simmons was a stranger to everybody in the district, but with his winning manner soon made a host of friends and when the hockey season opened was well known in the neighbourhood. An ardent hockey enthusiast, he quickly foresaw the possibilities in the players who gathered to chase the puck nightly around the Grafton rink. Heretofore, Grafton has made but a poor showing in this sport, and were hesitating to form a team which they knew would be hopelessly outmatched, but Mr. Simmons, undaunted, picked out a number who showed the most talent, and immediately set to work to organize an invincible squad.

"Chic" Cochrane was chosen for goal, with Ralph Stutt and Walter Johnston on the defence, and Vance Pomeroy at centre, supported by Gerald Simmons and Jimmie McMahon. Lloyd Sabins, Ed. Lawless and Blacklock were named as substitutes.

Gerald Simmons, who is mentioned above, is of the Madoc high school the last two years and has been successful in his school work at Cobourg Collegiate to have a standing of 75.4 in his Christmas examinations and is eligible and plays on the Cobourg Collegiate Hockey Team, which has battled Port Hope and Brighton League to success and championship. The last game with Port Hope and Cobourg ended with a win for the Cobourg boys, 3-2.

HEART TROUBLE IS CAUSE OF DEATH

Toronto, Feb. 3.—Taken ill in his home early Thursday, Oscar M. Poucher, 44, stock broker, 170 Manor Park road, collapsed and died before medical aid could be summoned.

According to police of North Toronto, Mr. Poucher had been visiting friends. He and his wife had returned home quite late and Mr. Poucher went into the bathroom following what his wife believed to be acute indigestion. When he did not return for some time, Mrs. Poucher went to investigate and found him dying.

Dr. A. Ralph Wilkins was summoned but pronounced life extinct. An autopsy showed death due to heart trouble. An inquest will not be held.

Mr. Poucher was general manager of the Dominion Mining and Smelting Company. He is survived also by two daughters, Helene and Marie and three sisters, Mrs. E. T. Curtis, Toronto, Mrs. H. B. Feir, Haliburton, and Mrs. E. S. Maynes, Latta.

The late Mr. Poucher was a son of the late Daniel Poucher.

LOCAL AND PERSONAL

Mr. and Mrs. Wesley Hullin were in Toronto for a few days last week.

Mrs. W. Wood and son, Ralph, of Sidney have been visiting relatives in Madoc.

Mr. and Mrs. W. Holmes, of Sidney, spent a couple of days recently with relatives in Madoc.

Messrs. Chas. Derry, Bill Bateman and Durland Adams are in Oshawa this week for a few days.

Miss Jennie Thompson, of Queensboro was visiting her aunt, Mrs. Chas. Clark, in Tweed.

Mr. Wesley Huffman, of Belleville, spent a few days in town with his mother, Mrs. Geo. Huffman.

Rev. and Mrs. Ridgeway, of Stockdale, attended the Convention of the Standard church in Madoc last week.

Mr. Geo. Stringer, fish and game inspector, was in Frankford last week on business connected with the department.

Miss Lucella Wickens, of Murray Township, has been spending a few days with relatives in Madoc and Crookston.

Mr. and Mrs. Wm. Kelly, of Foxboro, Mr. and Mrs. Geo. Morgan, of Holloway, are visiting at the home of Mr. Wm. Kelly, of Madoc.

—2 New Perfection 2 burner Coal Oil Stoves, \$8.00 each; 6 3 burner N.P. Coal Oil Stoves, \$10 and \$12 each; 1 only 4 burner N.P. Coal Oil Stove, \$13; your choice of Ovens for \$3 at G. A. Rollins'.

MADOC WON TWO

Team	Won	Lost	Tie
Stirling	7	2	1
Madoc	7	3	1
Tweed	5	4	
Campbellford	2	7	
Frankford	1	6	1

MADOC 3, CAMPBELLFORD 2

3-2, in favour of Madoc, was the result of a fast, clean, thirty-minute overtime game, played in Campbellford on Friday night of last week. Campbellford opened the scoring in the first period when McKay, taking a pass from Whittom, coasted in on the Madoc net to beat Hullin. Campbellford kept this lead throughout the second period and until two minutes of the final bell, when Andrews and Barker broke through the visitor's line-up to beat Saunders for the tying goal.

In the first overtime period Madoc scored when McGuire went in after Barker's rebound. Campbellford tied the score in the last half of this period.

In the second period neither team were able to tally. Madoc's winning goal came in the last half of the last period when L'Heureux broke through the Campbellford defense and Johnston scored from his rebound.

STIRLING 2, MADOC 1

The locals went down to defeat on Monday night when the Stirling team defeated them 2-1. This was the third straight game that Stirling has taken from the Black and Whites this season. Owing to the condition of the ice, the game was one of the poorest seen here this year and with Stirling playing a time-killing game in the third period, the spectators were given everything but good hockey.

Stirling scored the only real goal of the game in the first period, when Little shot from the corner. In the second period the officials allowed them another when the puck struck the goal post. Madoc, not to be outdone, was allowed a goal by the referee after a shot by Henderson.

In the third period Madoc tried hard to score but could not break through the Stirling defense.

Puckering

On Wednesday night the Black and Whites won their seventh league game when they again defeated Campbellford on their own ice, 3-1.

Tweed lost to Frankford on Friday night, 4-3, but because the appointed referee failed to appear, the game will not be counted, if it effects Tweed's chances of getting in the play-off—something wrong?

Over half the schedule has been played. If Madoc does as well in the second half as in the first they are sure of a play-off position.

Frankford won their first league game on Wednesday night when they sprung the surprise of the season by defeating the leading Stirling team, 1-0.

CHILDREN DIE IN

FIRE AT NORLAND

Lindsay, Ont., Feb. 2nd.—Word of the deaths of two children in their burning home at Norland, north of Haliburton, last Friday, reached here today, in the brief report of Crown Attorney J. E. Anderson. Two children of Percy Donaldson, aged four and six years, were burned to death when fire of unknown origin destroyed their home whiles mother had gone shopping. Coroner D. E. White, of Fenton Falls, intimated that no inquest will be held.

250 CANADIANS

Buenos Aires, Feb. 3.—It was announced here today that a delegation of 250 Canadian business men and industrialists, headed by a delegate named by the Canadian Government, will arrive in Buenos Aires March 13 on board the liner Prince Robert. The Canadian visitors will stay here until March 23, visiting the British Trade Exhibition and the principal centres in Argentina.

THE LATE D.E.K. STEWART

The passing of D. E. K. Stewart removes one of the most noted pioneer citizens of Hastings County.

The late Mr. Stewart studied law in Chicago when a young man and devoted his spare time to the breeding and racing of blood horses, after which time he moved to Belleville, where he practised law and soon became interested in mining affairs of North Hastings.

For years he superintended the gold mines at Malone, also the Galena mines at Bannockburn, and the famous Diamond gold mines at Queensboro, besides having many valuable holdings of other minerals.

As a practical miner his knowledge was unlimited and many expert mineralogists and miners sought his advice on mining affairs.

He was an ardent master of the saddle horse and did all his early travelling on horseback as well as being a teacher of saddle riding to both horse and rider.

His sterling qualities were of the genuine Scotch type, always ready to help his fellow citizen in every walk of life.

In politics he was a staunch Conservative, a member of the Orange Order, also the Masonic Order in which he was a well skilled Royal Arch Mason. In religion he was a true Presbyterian, well versed in the ancient traditions of the church and a member of St. Peter's, Madoc.

We submit his daily prayer of his own composition.

JESUS DRAWING NEAR

Draw near to me, my Saviour, 'twixt the midnight and the dawn,
When darkness is the deepest, and the world is hushed in sleep,
Though thine angels are about me, I cannot do without Thee,
And it is with Jesus only that I can find my truest peace.

Draw near to me, my Saviour, when the world is all astray
With the rush of busy toilers and the little children's play;
In the very heart of labour, I would have Thee for my neighbour
And hand in hand along with Thee would walk the homeward way.

Draw near to me, my Saviour, in the golden hours of bliss,
When cups of earthly sweetness to my grateful lips are pressed
May still a waft from Heaven make pure the earthly heaven
And thus my earthly happiness with grace divine be blessed.

Draw near to me, my Saviour, when the lights are growing dim,
Be with me in the valley where thick the shadows fall
May I feel that Thou dost love me, Though the lightnings flash above me,

May I know the Friend whose faithfulness is still my all in all.
Draw near to me, my Saviour, when I to Thee draw near;
And listen to my earnest prayer that will not be denied.

May I know in sweet communion, how to dwell with Thee in union
And so with Jesus only, let me evermore abide.

Card of Thanks

The family of the late Mr. R. A. Rollins desire to thank their kind friends and neighbours for their many expressions of kindness and sympathy shown them in the recent sad bereavement, in the death of a beloved father, and also for the floral tributes.

TOWNSHIP COUNCIL

Council met on Monday, February 2nd, at 1 o'clock. All members were present. Minutes of last meeting were read and approved.

Nickle—Pigden—that Toronto Stamp and Stencil Works be paid \$12.17 for dog tags.—C'd.

The auditors' report was presented and read.

Reynolds—Nickle—that auditors' report be accepted and auditors paid: W. A. Blair, \$12.00 and Fred Campbell, \$8.00.—C'd.

Pigden—Miller—that Council go into committee of whole on by-laws with Reeve in chair.—C'd.

Colonization and road making machinery by-laws received their first and second readings and were ordered sent to Department of Northern Development.

By-laws appointing a weed inspector and authorizing borrowing of money to meet current expenses were finally passed. Wm. J. Holmes was appointed weed inspector.—C'd.

Pigden—Nickle—that Council adjourn to meet Monday, March 9th, at 1 o'clock.

Earl Burnside, T'p. Clerk

Mr. and Mrs. Russel Fox, of Malone, were in Madoc on Sunday.

HOCKEY!

Campbellford vs. Madoc
Tuesday, February 10th

Admission

35c. and 25c.

With the declaration that too much money was being spent on fads and frills, discussion in the York County Council struck a note which might well echo through the consciousness of the Toronto Board of Education. The members of that body sometimes seem animated by the desire attributed to suburban trustees, "to build a structure that would always remain the monument to them." The eloquent J.A. Watson, Editor of the printing

HERE AND THERE

This winter, which is now more than half gone, is reported as being the mildest in the last fifty years.

A special bulletin of the Ontario Safety League says: "Carelessness of smokers is the cause of most of the fires."

A small town in Simcoe County offers to give \$250 to anyone who will supply information that will lead to the establishment of an industry in the place. That shows how anxious other places are to secure factories.

Scarlet fever is assuming epidemic proportions in Orillia, where scarce a street but has several cases, and where most classes in local schools are decimated. Failure to obey quarantine regulations is blamed for spread of the disease.

The press has been informed that FEBRUARY 1st would be the last day of grace for motor car owners to secure their licenses for cars for the coming year and also permits. After this date there will be no warning, but a summons to appear in police court will be issued.

Ontario is not the only province where the burden of taxation is being severely felt. At a recent meeting in Duncan, B. C., a farmer declared that "The present system is like a bad improvement means a new tax is imposed for the landowner to pay. Ontario not go on."

FAMILIAR convincing signs of the "C" code in railway traffic by the bus and truck. Sir Henry Thornton recently admitted that the new development was costing the people's railways millions of dollars annually. Thus the taxpayer is paying at both ends, paying heavily for highways, paying exorbitantly for the right to drive a car, and paying deficits on his railways incurred by reason of trucks and busses which take the patronage from rail to pavement.—Simcoe Reformer.

The English papers report that the doctors are complaining of hard times because of "a slump in illness." One paper gives interesting explanations of this slump. Among them are the suggestions that the people whose illness is largely in their imagination cannot indulge the luxury of a doctor in hard times; that in hard times people eat and drink less and are therefore healthier and that people take better care of themselves when business is poor, having a greater fear of the results of illness. This same paper admits, however, that there has been a very general improvement in health by reason of a better hygienic and dietetic education.

"Canada will be producing all the butter she requires within two years and the question of importing butter from New Zealand and Australia will then no longer be one of prime importance to the dairy industry in this country. Dr. J. A. Ruddick, Secretary, recently made this important statement. It is high time that the Dominion became a butter exporting country, rather than an importing one. The low price of grain is having a stimulating effect on butter making in Canada. About 10,000,000 pounds more creamery butter was produced in the Dominion during 1930 than in 1929. 30,000,000 pounds, chiefly from New Zealand, were imported.

BRIDE ELECT IS TENDERED GIFTS

74 pleasant social event took place at the Oddfellows' Hall, Thomasburg, Wednesday last, when Miss Helen Blakely, daughter of Mr. and Mrs. Henry Blakely, was the guest of honor on the eve of her approaching marriage. The hall was well filled and many friends who had come to offer good wishes and present some gifts.

During the evening, Rev. J. W. Platt, pastor of the United Church, invited Miss Blakely to the platform when addresses were given and gifts presented. Miss Mildred Adams read the address on behalf of the community and Mr. Earl Bateman drew aside the curtain revealing the beautiful kitchen cabinet. The address from the Young People of the Church and her teacher and the members of the Sunday school class was read by Mr. C. Carter and the presentation of a Kenwood comforter and a rug was made on their behalf by Miss Doris Platt.

Miss Blakely was taken entirely by surprise and expressed her thanks and appreciations of the gifts. Lunch was then served by the ladies.

The following are the addresses:

Dear Helen:
We, your friends and neighbours, have gathered here this evening to spend a social hour with you prior to your leaving us and to express to you our wishes of good luck and happiness for the future.

It is the inevitable law of life that time brings change yet we know that this change, which means your removal from our community, will leave a void in your home, in the community and in the church.

We hope that the same cheerful spirit that has guided you through your business and social life here will be with you in your new home and we offer sincerest congratulations on your choice for a partner with whom to spend your wedded life.

You will be greatly missed from the Young People's Society and other branches of the church where you have always been so willing to help.

We feel that we cannot let you go without expressing in tangible form our love and best wishes for you, so we ask you to accept this kitchen cabinet and trust that it may ever remind you of your many friends in and around Thomasburg.

Our earnest prayers go with you that the God who guided you thus far will still be your guide in the future. We are sure you will be a happy Christian home that mean so much to this Canada of ours.

Signed on behalf of the Community, Margaret Elliott, Earl Bateman, Clayton Elliott, Fred Adams, Mildred Adams.

In the event of your coming marriage, we, the members of the Young People's Society and of the Sunday School class, wish to express our regret that you are leaving our community. We have always found you a genial and faithful worker in our Young People's work and Sunday School class. We will miss you but we hope that your future happiness will more than make up for our loss.

We beg you to accept this gift in token of our good will and sincere wishes for a happy married life.

Signed on behalf of the Y.P.S. and teacher and members of the class, Miss Goodfellow, Mrs. Carter.

WOOLER MAN HAS LEFT HIS HOME

Missing from home for over a month now, the family of Dan Hennessy, of Wooler, are anxiously trying to discover his whereabouts. The Hennessy family moved into Brighton two years ago from the farm where the missing man worked in an undertaking parlour. About a month ago the family moved back on the farm at Wooler and stated that Mr. Hennessy had been missing for two or three weeks.

The police at Brighton have been notified and are bending every effort to locate the missing man's whereabouts. His wife is living on the farm, as well as two unmarried children, the one a school teacher and one son. All the other children are married and have moved away.

CANADA'S ATLANTIC FISHERIES

On the Atlantic coast of Canada the cod and lobster fisheries nearly equal each other in importance, although the usual value of the production of cod is greater than the lobster. However, in 1929, the lobster fishery was second on the list of commercial fishes, with cod third and halibut fourth. Salmon, of course, as on the Pacific coast, headed the list.

If you have anything to sell, 305 Front Street Phone 168 or 1673 BELLEVILLE 10-171

PIE SOCIAL AT WELLMAN'S CORNERS

Rawdon, Jan. 31.—On Thursday evening, Jan. 29th, the members of L.O.L. No. 172 staged a pie social and their hall was filled to the doors for the occasion. Mr. Fred Thain, Worshipful Master, called the meeting to order and Rev. F. G. Jobin acted as chairman in his usual capable manner. The orchestra contributed several splendid selections which were heartily enjoyed. It was composed of Mr. and Mrs. Roy Eggleton, Stirling, Messrs. Ogle and Charlie De-voll, Mr. Raymond and Miss Ada Baker, of Madoc. The Misses Mildred and Annie Elliott, of Belthel, sang three lovely duets. Mrs. Percy MacMillan, of Mount Pleasant, contributed two readings, one humorous and one dramatic. The Misses Nina and Lucille Dracup sang two pretty duets. Little Miss Helen Thain gave a very nice recitation with her dolly, and this little girl promises to be a star in elocution in future days. Miss Olive McConnell, of Mount Pleasant, sang two lovely solos in her usual inimitable style. The Misses Lulu and Leatha Hoover each rendered a humorous reading which was well received by the audience. Mrs. Fred Thain and Miss Olive McConnell gave a pleasing duet. Miss Foster was the accompanist for the solos and duets and Mrs. Carl Clancy played for the opening number. "The Maple Leaf Forever." At the close of the programme, Mr. Fred Thain shook the box of tickets and Mrs. Bert Spencer drew the lucky number. Mrs. Raymond McConnell, of Mount Pleasant, won the library table and Mr. John Heagle, Wellman's, the fernery.

The members of the Lodge then served sandwiches, pie and coffee and the pies nicely disappeared in fast time. Congratulations are due to Worshipful Master and members for their splendid entertainment and they will be glad to be able to add one hundred and nineteen dollars and fifty five cents to the Treasury.

NOTICE TO CREDITORS

In the estate of Robert Alexander Rollins.

Creditors and others having claims against the estate of Robert Alexander Rollins, Esquire, who died at the Village of Madoc, in the County of Hastings on the 19th day of January, 1931, are notified to send to the undersigned solicitor for George Harris and William Rollins, the executors of his estate, before the 21st day of February, 1931, particulars of their claim in writing verified by statutory declaration, after which last date they will distribute the estate amongst the persons entitled thereto, having regard only to the claims of which they have then notice, and they shall not be liable for any part of the estate so distributed to any person of whose claim they had not notice at the time of such distribution.

SCHOOL BOY'S NOTE WAFTED TO SCOTLAND

Late in August, Reginald Batchelor, school pupil, Trenton, put a message in a bottle and deposited it in the Bay of Quinte. Last week he received a letter with a Dundee, Angus, Scotland postmark, with the following letter:

31 December, 1930.

Dear Maister Batchelor,

Ah wis doon by the waterside aye day and seen a wee bottle bobbin' up and doon in the sea. Ah got grips o' it and fund inside o' it yer note.

Syne ah thinks the mae sil, ah thinks all write tae this wee chappie, so here's the letter tae ye.

It's not lika day a litter comes frae America or Canada to Bonny Scotland in a bottle, ye ken!

Well, ah must awa an get on wie mae fishing.

ta—ta Sandy McPherson.

How this bottle got to Scotland is a mystery as it would have had to go through Lake Ontario, down the St. Lawrence River and across the ocean—all in five months.

A Trenton paper has the letter and claims the story to be true.

"TOM THUMB GOLF" AN ANCIENT GAME

Saint John, N. B., Jan. 31.—Miniature indoor golf was played more than thirty years ago, according to an account taken from a Saint John newspaper in 1897. The item appeared originally in a London journal of that year, and described a course laid out "from garret to cellar," with a saucer in a baby's crib, one of the sportiest holes.

The affair, which was characterized by one of the golfers as "the greatest fun imaginable," was held in an ordinary house, and played by a group of guests, at the instigation of the hostess when wet weather precluded golfing on a regular-sized course. One interesting shot was described:

"My ball was under a great four-poster bedstead in one of the rooms; and I had to crawl under and draw it out with my niblick. I could not see the door it was to go through, but Reggie said if I hit it against a certain sofa, which was stuffed with horsehair, the rebound might send it where I wanted it to go. So I tried it, and it was the most perfect success."

CUT WOOD ON AIR CAMP

With a desire to help the needy people in Trenton and vicinity, in the important matter of keeping their homes warm during the winter, and acting in co-operation with Mr. W. H. Ireland, M. P. P., and Mayor C. W. Lott, Mr. W. E. Tummon, M. P., has made arrangements for the cutting of a large quantity of second growth hardwood on Air Camp area, to provide firing for those unable to obtain it in the ordinary way. Mayor Lott, of Trenton, received a letter from the Deputy Minister of National Defence, Col. G. J. Desbarats, informing him that the Department was willing to have the trees cut off such area as would be designated by the Resident Engineer, Mr. W. B. Wilson, for distribution under the supervision of Mayor Lott, and the Chief of Police acting for the Relief Committee. It is understood that the wood be cut and brought into town, and piled on a lot, kindly provided by Mr. W. B. Powers, where it will be ready to supply any needy one with firing.

HEREDITARY QUALIFICATIONS?

Is there heredity in council service? One proof of it comes from Tudor and Cashel, where James Sprackett followed at some distance his father, George Sprackett as member of the municipal council. To add substantial evidence it need only be added that the latter has this year joined another council, the city council. That a family's members may have qualifications of mental and social adaptability to fit them for the office of representative will be admitted. But if there is not heredity shown in this place the question is then one for psychologists to solve.—Ontario Intelligencer.

SCHOOL REPORT

The following is the result of the January examinations in Flinton Continuation school.

Form III—Veronica Yanch, Lois Campbell, Violet Lloyd, Lionel Lloyd. Form II—Stafford Lessard, Doris Springer, Vivian Springer, Ina Champagne, Almonde Lessard, Harold Yanch.

Form I—Mildred Champayne, Grace Wagar, Kenneth Champayne, Edwin Yanch, Mary Lloyd.

M. C. Warren, Teacher.

REMINISCENCES

The following items have been taken from the file copies of the Review.

FIFTY YEARS AGO

February 1881

County Council—On motion, Mr. Thos. Eno, and Mr. E. D. O'Flynn were appointed auditors of Criminal Justice accounts. Mr. Pearce moved appointment of A. F. Wood as County auditor. Finance Com.—Messrs. O'Flynn, Gilmour, Vermilyea, Caskey and Faulkner. Mr. White called attention to the dilapidated condition of the Madoc bridge. Mr. O'Flynn said this bridge would do service for some years yet. On motion, salary of Warden was reduced to \$200.

Vankleek—Caskey—that \$100 be granted to bank gravel in county road through Keene's marsh, Madoc. Madoc Township only received about \$150 last year outside the gravel roads.

Dr. Wild, of Toronto, predicts the millennium to begin in 1935.

Annual meeting of County Orange Lodge was held on Tuesday in Queensboro. 200 representatives were present.

Rev. Hutton, of M. E. Church, announces his pulpit themes, "Victory and its reward," "1881 and impending catastrophes."

Shepard's Comedy Co. will appear in Masonic Hall for two evenings.

G. J. R. Freight Rates—The superintendents proved at their meeting that grain could be hauled from Madoc to Belleville and merchandise from Belleville to Madoc for 6½c per hundred weight, cheaper by rail than by team for the round trip.

Union Tea Meeting of Methodists and Episcopalians was held at Blakeley's school house on 26th inst. Proceeds, \$50.

Advertisements were inserted by Messrs. M. Maybee, John Robertson, O'Flynn and O'Hara, C. G. Wilson, Jacob Huff, Gray and MacGregor, D. Morrice, Sydney Ross and Co., D. C. Clarke, A. L. Saylor, Kerr and Walton, D. W. Wright, N. D. Peters, G. M. Brooks, Foster and Reid.

TWENTY-FIVE YEARS AGO

February 1906

A very pretty wedding took place on Wednesday last, January 24th, in St. Oswald's church, Millbridge, when Rosa M. Donaldson, daughter of Mr. Chas. Donaldson, of that place, was united in wedlock to Mr. Herman Burmeister, of Oxboro, Sask, by Rev. C. J. Young, of Madoc.

Wedding Anniversary—A very happy event took place on January 22nd, when Mr. and Mrs. J. S. Empey, of Madoc Township, celebrated the fortieth anniversary of their wedding. A large company was present from Thurlow, Plainfield, Stirling and Madoc. Mr. M. Maybee, of Madoc, entertained the guests by some favorite selections on the gramophone.

County Council—Robert Lancaster was elected Warden for 1906. The matter of building the House of Refuge was taken up. W. J. Moore was appointed High School trustee.

Mrs. Chas. Wellington has been visiting her sister at South Mountain for the past few weeks.

A number of cases of small pox are reported in Huntingdon township. 25 lbs. of Redpath Sugar for one dollar at W. Hudgins's.

Annual congregational meeting of St. Peter's Presbyterian church was held on January 17th. All the reports presented accounted for a total of \$3543.

Madoc's electric light plant has been one year in continuous operation. Manager Frank Smith informs us that the capability of the plant is such that after careful tests they can produce 1 h. p. for one hour on 3½ lbs. coal. It takes 45 lbs. of coal to run our street lights for one hour, and 3 lbs. of coal to run ten 16 C. P. lamps for one hour. Citizens are requested to be careful to turn out all lights not in use.

Sham Aron—This delightful Irish drama will be played by Madoc amateurs in the Masonic Hall on February 8th. Those who assume the various characters are:—E. Latimer, F. G. Cottle, W. J. Hill, P. J. Hoover, R. W. Lockhart, A. L. Connor, H. Wright, E. Pine, Miss A. Greem, Miss F. Stewart, and Miss L. Morrison.

FIFTEEN YEARS AGO

February 1916

The ancient custom which Hastings County Council has followed for 28 years of distributing the Wardenship to Liberals and Conservatives alternately in order to maintain harmony, was discarded on Tuesday. On a straight political division W. H. Nugent, Conservative, reeve of Wollaston, was elected Warden. The debate on the subject lasted an hour and a half.

The Central Fairs Association met this year in Madoc.

Madoc

OBITUARY

D. E. K. STEWART

David Elliott Kinnear Stewart, for many years a well-known lawyer in Madoc, passed away in the hospital in Kingston on January 30th. On Monday Mr. Stewart slipped and fell in the bathroom, injuring his head and due to his advanced years, little hope was held for recovery.

There was not a man in the northern part of the county of Hastings who was more keenly interested in mining development than was Mr. Stewart. He devoted practically all of his time in investigating properties and reputed properties in North Hastings.

Mr. Stewart was as well, a keen barrister. He practised law for forty years in the village of Madoc and for a short time in Chicago. He is survived by one son, Kinnear, in Arizona, a daughter, Mrs. Edward Cross, of Belleville, and another daughter, Miss Emily Stewart, of New York. At the time of his death he was seventy-eight years of age.

The deceased was born in Goderich, Ontario, the son of John Stewart and Caroline Kinnear.

MRS. R. S. BELSHAW

The many friends of the late Mrs. R. S. Belshaw were shocked to learn of her sudden demise at her late residence about a mile north of Stirling on the Campbellford road, on Saturday, in her 63rd year. Although the deceased had been an invalid for the past ten years, caused from paralytic stroke, she had been in her usual good spirits until the day before her death, when she developed pneumonia from which she failed to rally, passing away the next day.

The deceased, whose maiden name was Jane Ann Comerford, was born in Cannifton in May, 1868. When quite young she moved with her parents, John and Jeanette Comerford, to Eldorado at the time of the gold rush to that district. On July 17th, 1889, she was married to Mr. Belshaw and moved to his farm on the fourth concession of Rawdon, moving to the farm where she passed away twenty-eight years ago. She was a member of the Anglican church and, although an invalid for so many years, she was ever cheerful and endeavoured to make things bright for those around her. She is survived by her husband, two sons and one daughter, viz: Robert, of Madoc, and Roy and Pearl at home; also one sister, Mrs. George Empey, of Madoc. The funeral was held on Tuesday afternoon with Rev. A. L. Geen, of Belleville, in charge of the service. The remains were interred in Stirling cemetery. The pall bearers were Messrs. George and Buttimer Belshaw, brothers-in-law; Robert and Roy Belshaw, sons; Claude Belshaw and Jno. Empey, nephews.

Among those from out-of-town who attended the funeral were: Mr. Geo. Johnston and two daughters, Napanee; Mrs. Geo. Huffman, Mr. and Mrs. R. P. Wellman, Mrs. C. Moon, Mr. Robert Comerford, Madoc; and Mr. and Mrs. J. Empey, Belleville—Stirling News-Argus.

MRS. H. B. STOCK

Regrets were voiced when it was learned that Luella Curry, wife of Harry B. Stock, Belleville city treasurer, died in the Belleville General Hospital on January 29th, shortly after eleven o'clock. She underwent a serious operation late in the afternoon and, although it was successful and it was felt that she would recover, death came suddenly before she regained consciousness. She was taken ill some weeks ago and after

being a patient at Belleville General Hospital, was taken to Kingston, later returning to the city, where an operation was performed. The late Mrs. Stock had resided at 44 Victoria Avenue for the past twenty-five years and previous to that had resided in Sidney Township, Madoc village, Frankford and Hamilton. She was born in Sidney Township 44 years ago, a daughter of the late Samuel and Mary Curry, and received her education in Madoc and Belleville.

The late Mrs. Stock was exceedingly popular, her cheerful disposition and kindness towards others gaining her many friends. Her demise at this time was particularly untimely as is it but a few months since her father, the late Samuel Curry, passed away.

Besides her sorrowing husband, she leaves two children, John Samuel and Elizabeth Ann, both at home. A brother, Fred Curry, is a merchant in Madoc village. Mrs. Stock was a member of St. Andrew's Presbyterian church and was a member of the Ladies' Aid of that church.

She was formerly a member of the choir of John Street church and was prominent in local choral circles.

The funeral was held from her late home on Monday afternoon with interment in Belleville cemetery.

Scores of friends offered their last tributes to the late Mrs. H. B. Stock, whose funeral took place from her former home, 44 Victoria Avenue. Relatives and acquaintances were present from Hamilton, Toronto, Montreal, Madoc, Peterboro, and Picton. Service was conducted at the home by the Rev. J. A. Seymour, M. A., S.T.D., pastor of St. Andrew's Presbyterian Church, of which the late Mrs. Stock was a member. In very eloquent terms he referred to her splendid qualities which endeared her to hundreds of friends. The casket was banked with floral tributes which indicated the very high esteem in which the deceased was held.

Members of the Agricultural Board, the City Council and other organizations attended in large numbers while six civic officials, colleagues of Mrs. Stock's husband, acted as pall bearers. They were Messrs. T. E. Ketcheson, assessor, Fred Chamberlain, auditor, Alfred Holmes, city clerk, Chas. Mott, city engineer, W. H. Harden, gas manager, and T. E. Austin, waterworks supt. Interment was made in Belleville cemetery where Rev. Mr. Marshall, of Madoc Presbyterian church, assisted Dr. Seymour with the services.

OLDEST WEEKLY
NEWSPAPER

The Brockville Recorder on January 16th, 1931, celebrated its 110th birthday and is the sole survivor of all its Upper Canada contemporaries of one hundred and ten years ago. The first issue of the Brockville Recorder appeared on January 10th, 1821, and was the sole newspaper appearing at that time between Kingston and Montreal. It is today regularly making its appearance from week to week under identically the same title as that which it bore when the forms of the first issue were put on the hand-press in its first office. It has never missed an issue and it alone survives all the weekly newspapers that were being published 110 years ago. Long may the Recorder continue in its wonderful record. The Recorder is published by The Recorder Publishing Co., of Brockville, with Rt. Hon. George P. Graham, L. L. D. President.

What Came
Of a Sketch

By EDWARD T. STEWART

Ryerson was an American boy who went to Florence, Italy, to study art. The stories of some of these American youths' efforts to get an art education half a century ago are almost incredible. Ryerson paid his expenses to Italy and lived there a year on \$350.

One day when he was eating his usual dinner of macaroni—with no entrees—a cheap restaurant, costing him a couple of cents in our money, a man took a seat at a table opposite him, whose appearance seemed to offer a striking subject for a picture. He was shabbily dressed, a conical hat, moustache turned up, a pointed beard was suggestive of Mephistopheles. Ryerson asked him if he would object to his making a sketch of him. The man consented, and the artist, opening a portfolio he had with him, took out pencil and paper and went to work. The model was an Englishman, and they conversed during the sitting.

Ryerson possessed a gift for catching likenesses, important in that day when there was no cheap way of getting the face of a Daguerre half duly invented his process. A sketch was made that was an excellent reproduction of the man's features, including a scar over the right eye. Ryerson regretted that he could not pay for the sitting, but the man declared that, being poor himself, he could appreciate the other's feelings. However, he expended a lira in a litre of wine, which he invited Ryerson to share with him. He seemed, however, to be a misanthropic person, and Ryerson judged that he had met with some misfortune or had been treated unjustly. At any rate, his disposition had evidently been soured. He made an impression on the artist, and after they parted Ryerson could not get him out of his mind, and the sketch kept the impression alive.

Ryerson engaged passage to America by way of Genoa, and while waiting for the ship to sail put up at a hotel where the guests were mostly English and Americans. In the reading room he picked up an English paper and while scanning it his eye caught an advertisement for information of Cecil Manchester, formerly by a description which tallied with Ryerson's model. A reward of £200 was offered for information that would lead to the party's discovery.

Ryerson was so impressed with the belief that the two were identical that he was tempted to cancel his passage at Genoa and go by way of London. His story of his meeting with the man he had sketched might furnish a clue to his discovery. But to go by London would be more expensive. He tossed a coin to decide whether or not he should take his chances of profit by going to London, and London won.

Counting up his available funds, he found that he could get to London, but if he received no acquisition there he would be short of his passage money. Again he flipped the coin to determine if he should take this added chance. Again the risk won.

A few days later Ryerson stepped into the office of the London paper that had contained the ad. and told his story.

"Have you the sketch?" he was asked. He at once produced it and was offered any price he would ask for its use. It was surely a likeness of the party sought for and the only likeness extant. Its publication would be of great help in finding the original. Ryerson told them that they could have the picture for any price they chose to pay, and they drew a check for a hundred pounds.

So far, so good. If the sketch led to finding the original Ryerson would receive the £200 reward in addition, in all \$1,500.

The likeness was published all over the continent, especially in Italy, and finally met the eye of its original who had found a position as croupier at the casino in Lucerne. He at once opened a correspondence with the London paper.

The story of Cecil Manchester, second son of a British nobleman, is a voluminous one in itself, far too long to be given in this episode in the life of an American artist. He had unwittingly got mixed up with rascals and had shared their disgrace. He had jumped a bail bond and become a wanderer, his family having turned against him and not even knowing his whereabouts. Then he had been exonerated, and all returned to England, where the father had been killed for him by his father, who was rich.

Ryerson was in great luck. He was regarded as the connecting link between Cecil Manchester and his family, who had wronged him, and both were anxious to pour out favors upon the artist whose marvelous likeness had secured the wanderer's return. Having been paid the reward, he was invited to the man's residence in Devonshire, where he was housed and dined to both his heart's and his stomach's content. An offer of another year's study in Italy was made him on an allowance of £500. But Ryerson was an American gentleman, though a struggling artist, and declined to accept the offer. However, the principal reason for his declining it was that he made a Manchester and took him back with him to America, where he achieved a reputation and wealth as a portrait painter.

WOMEN LARGEST
BUYERS OF FURS

If the fur goods industry in Canada depended on mere men, it would be insignificant, but as the ladies are very personally interested in furs, the industry is in the major class.

Official reports just issued by the Canadian Bureau of Statistics shows the total production of fur goods in Canada in 1929 had a value of \$17,944,726 of which fur coats for women accounted for \$12,255,855, while coats for men were valued at only \$250,710 the former representing 65 per cent. of the total output. The average factory price for women's fur coats in 1929 was \$159, compared with \$77 for men's coats. Fur stoles, scarfs and what-nots were valued at \$1,527,597. Robes, collars, gloves, hats, caps, etc., were sold for a total of \$4,910,564.

There are 224 manufacturing establishments in Canada engaged in the manufacture of fur goods, 119 of which are in Ontario, 77 in Quebec, 14 in Manitoba, eight in Alberta, 3 in British Columbia, two in New Brunswick and one in Alberta. The invested capital in the industry totals \$12,863,189.

NEW INDUSTRY IS
IN SPLENDID SHAPE

Strathmore, Alta., Jan. 31.—Sugar produced from beets grown in Alberta had a value of approximately \$1,500,000 in 1930, according to figures submitted to a meeting of growers here recently. The industry has grown by leaps and bounds. In 1913 seven thousand acres in Southern Alberta were devoted to beet growing and this had increased to 14,000 acres in 1929.

In the Raymond district alone last year 28,000 tons of beets were grown. The value of this crop was more than \$800,000.

Average cost of production was from \$40.00 to \$45.00 for a ten-ton crop and average price received by growers at factories was \$7.00 per ton.

YOUNG WIFE, AFRAID TO
EAT, LIVES ON SOUP

"Afraid of stomach gas, I lived on soup for 5 months. Then I tried Adlerika and now I eat most anything without any gas."—Mrs. A. Connor. Adlerika relieves stomach gas in TEN minutes! Acts on BOTH upper and lower bowel, removing old poisonous waste you never knew was there. Don't fool with medicine which cleans only PART of bowels, but let Adlerika give stomach and bowels a REAL cleaning and get rid of all gas! C. R. Johnston, the Druggist.

The spring seed catalogue has arrived. It has its place in the lives of all flower lovers, and the vegetable grower. It links up the work of one summer with another. It helps to while away tedious hours indoors—opens up new vistas, unfolds new beauties, and shows new worlds to conquer. It is the harbinger of a spring to come for the gardener, and gives him much joy as the first robin for poring over its pages he can let his imagination run riot, even though he may not believe that he can with the seeds advertised, grow the flowers that are so often only seen in the seed catalogues.

You might find a buyer for that extra piece of furniture you have put away. An advertisement in the Review will let people know about it.

NOTICE TO CREDITORS

In the estate of Eva Ann Phillips. Creditors and others having claims against the estate of Eva Ann Phillips, widow, who died at the Township of Elzevir, in the County of Hastings, on the 11th day of September, 1930, are notified to send to the undersigned solicitor for the executors of her estate, before the 14th day of February, 1931, particulars of their claim in writing verified by statutory declaration, after which last date they will distribute the estate amongst the persons entitled thereto, having regard only to the claims of which they have then notice, and which they shall not be liable for any part of the estate so distributed to any person of whose claim they had not notice at the time of such distribution.

Dated at Madoc this 28th day of January, 1931.

Mahomet and the Mountain.

The mountain would not go to him, so Mahomet had to go to the mountain.

Trade is a mountain full of gold and treasure, but it will not come to the merchant who sits and waits for it. He must go to the mountain and when he gets there, he must dig for the treasure and work both to obtain and to hold it.

Advertising, intelligently handled, is the best means to get to the mountain, to unearth the treasure and to hold it, and newspaper advertising is the best and by far the cheapest when results are considered.

OBITUARY

MRS. HUBERT H. CONLEY

There passed to her eternal resting place on Sunday morning, January 25th, 1931, Olive Blanche Hutchinson, beloved wife of Hubert H. Conley. The deceased was the youngest daughter of James Hutchinson, of Richmond Hill, and Ellen Marshall, of Oro, and was born at Mariposa on January 19th, 1900. Her childhood days were spent at Mariposa, and following the death of her mother in 1915 she continued in her service of love for her dear ones by home-making for them. Upon her marriage in 1921, she came to Lindsay to reside and here in the midst of life's activities her call came to enter into the higher service and she left these earthly cares behind to be forever with the Lord. An appreciation of her life was shown by the many acts of kindness and the wealth of floral tributes. Especially touching were the flowers from the little children of the neighbourhood who knew her as a friend of little children.

In her early teens she became a Christian and at once was active in the work of the church. Her love for her Master and for little children found expression in the formation and leadership of a Mission Band. Upon her arrival in Lindsay she became a member of St. Andrew's Presbyterian church and of the Go-Forth Missionary Society.

The funeral service was in charge of the Rev. J. C. Grier and was held at the home on Tuesday afternoon. The passages of scripture read and the hymn sung were all favourites of the deceased. She was placed beside her mother in the family plot in Oakwood cemetery there to wait the resurrection morn.

She leaves to mourn her loss her husband, Hubert H. Conley, two children, Jimmie and Jackie, her father, Mr. James Hutchinson, of Lindsay, four sisters, Mrs. George Collingwood, of London; Mrs. Geo. Graham, of Los Angeles, Cal.; Mrs. Roy Thomas, of London; Mrs. A. C. Bicknell, of Lindsay, and three brothers, Sydney Hutchinson, of Salvador, Sask.; Francis Hutchinson, of Stirling, and Albert Hutchinson, of Underwood, B. C.—Lindsay Daily Post.

Twenty per cent. of the pupils attending Tweed Consolidated School made deposits in the Penny Bank during the months of September and October, 1930. The total amount on deposit at the end of October was \$1,010.89, as compared with \$1,107.64 a year ago.

The 101st annual meeting of the Grand Orange Lodge of British America will be held in the city of Hamilton on Wednesday, June 17th, next, under the guidance of the Grand Master and Sovereign, T. Ashmore Kidd, of Kingston, Speaker of the Ontario Legislature.

C. S. M. D. MCKENZIE
GREAT WAR VETERAN
HAS LARGE FUNERAL

Continued from page one

said, "Duncan had a soldier's courage in life and he had a Christian soldier's courage in death. Last August he said to me, 'I think it means going to Kingston for an operation but I am not a bit afraid.' And that same courage was shown when later he was told there was no hope. Even in pain he had a soldier's courage, and suffered in silence. Never once did he complain; never once did he find fault with his Maker over his hopeless condition. Speaking to me of plans and hopes he had for the future, he added, 'but it is not to be, and so it can't be helped.' Wonder, O. B. A.; High School and Public School Boys; visiting returned men; officers of the regiment and a large number of citizens.

It was one of the largest funerals ever held in Madoc where the late C. S. M. McKenzie was held in high esteem both as a soldier and civilian. The firing party marched in slow time with arms reversed. At the graveside, and immediately at the conclusion of the Committal Services, read by the Rev. T. G. Marshall, himself a veteran, three volleys were fired over the open grave. Bayonets were fixed for the 'Present arms' at the sounding of the Last Post.

Following the last respects of the church and military, an impressive service was conducted by the Madoc Orange Lodge of which the deceased was a Past Master.

Floral tributes were many and included a wreath from the officers of the H. & P. E. Reg't. and another from the Warrant Officers, Staff Sergeants and Sergeants.

The officers present were: Major A. V. Yates, M. C., O. C., "B" Co.; Capt. N. Broad, M. C., M. M., 2nd in Command, "B" Co.; Lt. Nayler; Lt. T. Rupert; and Lt. Whytock of "B" Co.; Capt. Palmer, M. C.; Capt. W. Turnbull, M. M. S.; J. Mercer; C. S. M. Culmer and Judge McLean, of Picton; Sgt. Turner, of Belleville.

Lt. Col. D. Green, V. D.; Lt. Col. H. J. Smith; Lt. Col. J. L. McLean, V. D.; Lt. L. D. Foster, and R. S. M. E. Almey, D. C. M., of Trenton.

The following members of Trenton Branch of the Canadian Legion attended: C. M. Harrison, R. Heath, H. Allison, G. LaBrash, J. Coutts, H. Vandervoort.

P. S. M. E. Almey conducted the Firing Party.

The late Duncan McKenzie leaves to mourn his loss his widow and five children, Jessie, Annie, Donald, Wilhelmine and Margaret.

The Marmora Herald, in referring to the death of the late D. McKenzie, says:

A veteran of the Great War, who was well known to Marmora ex-service men and others on account of having officiated at military gatherings here since the War, was laid to rest at Madoc on Tuesday afternoon. We refer to Sergeant Major Duncan McKenzie, who served overseas with the 2nd Batt. Canadian Infantry and who later was attached to "B" Company, Hastings and Prince Edward Regiment. Deceased was also a Past Master of Madoc Orange Lodge and at his funeral, which was semi-military, brethren of the Order marched with the War veterans. Those attending the funeral from this district were: Major A. V. Yates, Capt. Percy Gray, Q. Sgt. J. H. Wright, Sgt. J. J. David, Sgt. L. R. Rundle, Cpl. F. Reynolds and Pte. A. Bartlett.

WARDEN THOMPSON

Elected to the wardenship for the year, Charles W. Thompson, reeve of Madoc Township, comes to the office with every indication of one of the most successful years as far as lies within the power of the county council of Hastings to achieve. Warden Thompson is a public man of long experience in municipal affairs, gained in the municipal council of his own township, which he has so long represented and in the larger body of the county council in which he has served for many years. He has sat under wardens who have filled very meritorious terms and all this time was gaining experience in the detail and in the handling of public business.

The new warden brings to the office not only earnestness and zeal, experience and natural talent, but he possesses what public men do not all possess, a fine sense of humor which is one of the saving graces. Often when debate is sharpest and there seems no way out by pure logic, a flash of wit or a touch of humour clear away the battle-smoke. Should such an occasion arise at Shire Hall it is certain that the present incumbent of the office of warden will not fail to use his talents.

He enjoys the confidence of his own township and of the membership of the county council and through

CHIEF MARBLE
EXPORTING CENTRE

Marble, which is to be found in abundance in Bancroft, Ontario, may in the near future, make that village one of the main marble exporting centres of the world. In the past, due to the cost of using coal and hard wood to produce power, it was found impracticable to cut this stone in large quantities, but since power has been developed on the York River and Bancroft has now plenty of this "white coal" the situation has changed.

Besides lighting the village streets and homes brilliantly, there will be any quantities of power for industrial uses.

E. C. Argus, one of the directors and officers of the Bancroft Light and Power Company expects to interest a large concern this coming spring in the development of this industry on a large scale. Magistrate W. C. Mikel stated to the press today, Magistrate Mikel is in receipt of a letter from Sir Henry Thornton, president of the Canadian National Railways, which states that he has laid plans to visit the quarries at Bancroft in the very near future.

The marble which comes from the quarries at Bancroft is in many different shreds. It has long been known as some of the best in the world. There is unlimited quantities of it in the northern section of the county, according to Mr. Mikel. The marble has already been utilized in Canada in the parliament buildings at both Ottawa and Toronto, as well in other public buildings in the province.

"The development of the marble industry will bring Bancroft and district prominently before the country," said Mr. Mikel. It will be known not only as a tourist centre but also an industrial centre and the village of Bancroft may before long be seeking incorporation as a city.

With this electric power it will now be possible for Bancroft to crush stone for use largely in Hamilton and Toronto.

The marble in the quarries at Bancroft will compare favourably with that produced in the United States and in Italy and is probably of even a higher character, Mr. Mikel claims.

"Adequate government protection will supplant the need of using the Italian and United States marble in this country," he said.—Ontario Intelligence.

ELDORADO CHARGE

COUNTY COUNCIL

Hastings County Council met in Belleville last week.

Mr. Simeon Fox was named delegate to the Engineers' and Superintendents' Conference by the County Council on Thursday.

No action was taken with regard to an application of a grant of \$500 for the Salvation Army.

Mr. Sandbrook was appointed delegate to the conference of superintendents of county homes and the usual membership of ten dollars was ordered paid.

No action was taken with regard to an application of a grant of \$100 to the Children's Hospital.

The Canadian National Institute for the Blind's application for a grant similar to last year's was granted.

County council is alive to the importance of the dairy industry as the acquiescence with the appeal of Mr. Bailey, of the County Cheese Makers, for a grant of one hundred and fifty dollars towards the annual competition. He noted in the course of an address to the council members on Thursday afternoon that the cheese-makers of Hastings won the highest percentage of firsts and specials in the cheese competition in Eastern Ontario last year. He drew the attention of the members to the winn- ings of local cheesemakers by name and by municipality, and told how the grant of last year was spent.

Sixteen members from Hastings are entitled to be guests at the dairy banquet of leading cheesemakers of Ontario to be held in Toronto.

In ways and means the application for the grant of \$150 was approved. It cost an average of \$2.41 per week per inmate at the County House of Refuge and Industrial Farm during the year 1930, according to a report presented to the Hastings County Council.

Mothers' Allowance grants cost \$27,310 in the County of Hastings for the year ending October 31st, 1930, chairman Alex Moore, of the Mothers' Allowance Board, reported to the Hastings County Council on Thursday afternoon. Mr. Moore showed that this was an increase of \$6,180 over the previous year. Fifty per cent. of this is chargeable to the municipality, the rest to the province.

Since the Mothers' Allowance Act came into force, on November 1st, 1920, the disbursements in Hastings have totalled \$174,870.00.

Half a mill reduction in the county rate for roads and bridges for the year 1931, is the announcement of the roads and bridges committee in a report presented to the county council of Hastings at Shire Hall. The rate this year will be four and a half mills on the equalized assessment total of \$18,354,800.

The expenditure on roads and bridges will be \$170,875.72, according to the report on estimated expenditure.

The government fifty per cent. subsidy on the 1930 expenditures on roads and bridges has been received three months earlier than usual.

Report on expenditure on roads and bridges in 1930 in Hastings County presented to Hastings County Council showed:

Expenditure as approved by auditors \$216,558.23
50 per cent. of Subsidy 108,279.12
4½ mill rate on assessment of \$18,354,800 82,596.60
Excess Expend. 1930 20,000.00
Estimated Receipts, 1931 190,875.72
Estimated Expend., 1931 170,875.72
Estimated Total Expend. 190,875.72

Mr. J. M. Carl applied for appointment as corn broker inspector for 1931 and the application was referred to the committee on by-laws.

Agricultural Representative, Mr. Wilson, presented a statement of expense in connection with school fairs and agricultural competitions.

When the question of grants on the northern roads came up for discussion in the ways and means committee of Hastings County Council on Thursday afternoon, Reeve J. A. McKinney, of Tyendinaga, brought forward the question of the advisability of devoting more attention to the highway through to the north and of cutting down on the grants to the individual townships. Rather interesting discussion was provoked by this suggestion of the Tyendinaga Reeve.

Reeve Mitchell, of Thurlow, thought it was a supreme necessity that the road through from Madoc to Maynooth should be a highway, in fact as in name. He suggested that the northern townships should get this year the usual grants except Faraday which was getting more than any, and favored the cutting of \$125 off the grant to Faraday.

Reeve Hubbell, of this township, put up a strong fight for the retention of the \$425 in the recommendation, saying that one road bore a great amount of traffic in getting

out timber and other products of the north and in view of this and of the tourist traffic which passed over the road helping in the development of the north. Warden Thompson pointed out that the first time this was given as a grant it was deemed a special grant and he favored the \$300 grant for Faraday.

Reeve McKinney, of Tyendinaga, moved for half the usual grant to the north while Mr. Mitchell moved for the usual grant less the \$125 cut for Faraday. On the vote Mr. Mitchell's suggestion was adopted by the ways and means committee and Faraday's suggestion was adopted by the ways and means committee and Faraday will obtain only \$300 this year.

The members of the county council were entertained by a visit through the Stewart Warner radio factory and the Alenite Company on Mc Donald Avenue and all were agreeably surprised with the conditions found there and the plant, that is in Hastings County. B. C. Donnan, acting as spokesman for W. E. Rowlands, the general manager, offered some of the municipality the right of sending a bright young man to the Stewart Warner factory for the purpose of learning the business. The reeve of the various municipalities will no doubt take advantage of the offer of Mr. Rowsome and send to the factory a bright young man who probably in future will rise high in the radio world. The young man sent will receive his wages the same as other employees and will be given first hand information of the plant in general.

Warden Charles W. Thompson, on behalf of the County Council, thanked Mr. Rowsome for the pleasure of visiting the factory and said that all were surprised at the progress the factory had made since its inception. "It has been a revelation," was the comment of Warden Thompson after the members had completed a tour of the plant, paying particular attention to the radio branch. Reeve Mitchell, of Thurlow, expressed regret that the township, which he represents, had allowed the Alenite Corporation to leave the township and be joined with the City of Belleville and also stated that the boy he would send to the factory would be the best in the Township of Thurlow. Mr. Rowsome explained that the visit of the County Councillors was not one to be construed as advertising nor to sell stock in the company as a reserve of fifty-one millions had been built up by the parent company in Chicago. The young men who are chosen by the municipalities will come into the factory the first of July and spend a year.

By recent statute in the Provincial Department of Highways, all road and bridge committees of municipalities are to be appointed by by-law and at the closing session of the County Council, this statute was complied with. Jas. A. Moore, chairman of roads and bridges in the County Council for the past thirteen years, was appointed as chairman for a period of five years, J. A. McKinney, reeve of Tyendinaga, for four years, R. M. Mitchell, reeve of Thurlow for three years, William Rodgers, reeve of Sidney for two years, and Lorne E. Reid, reeve of Bancroft for one year. This will give more continuity in the Road and Bridge Committee and better familiarize those who have to look after this important work. If a road programme is laid out by the committee, the lengthening of term of office of each by-law will give the members a chance to see their work completed.

A number of High School trustees for the various municipalities were appointed by by-law, they being Gordon Munro, three years, Dr. Eagleston, two years, and W. E. Connor, one year for Madoc High School.

Auditors report presented to Hastings County Council by W. C. Thompson and S. Gay showed in part for the year 1930 as follows:

Capital Assets	
Outstanding debenture	136,355.66
Canadian Patriotic Fund	
Bank balance	747.74
City of Toronto Bond	1,000.00
Due from Belleville on Suburban Road	770.00
Due from Government on Suburban Road	4,954.62
	143,828.02
Current Assets	
Bank of Commerce balance	131,618.06
Registry Office Share 1930	
Surplus	715.85
Dept. of Public Highways	
Amount due 1930 exp.	99,515.04
Prov. of Ont. estimated grants on school	95,000.00
Uncollected rates for 1930	60,150.66
Prov. of Ont. estimate for Dept. of Justice	1,769.26
	338,768.92
Liabilities	
Debenture debt under existing by-laws	136,355.66

Canadian Patriotic Fund	
Bank Balance	747.74
City of Toronto Bond	1,000.00
Bills payable on suburban acct.	200.00
	138,303.40
Current Liabilities	
Cheques outstanding	7,032.26
Bank Loans	260,000.00
Excess of assets over liabilities	121,736.56
	388,768.92

Near the close of the session it was moved that the Warden, Superintendent of Roads, Treasurer, County Clerk, Road Committee and Chairmen of all committees in the council be a deputation to the Good Roads Association and it was passed without comment. Going into the committee on Ways and Means many requests for grants were turned down one being the grant to the general hospital and also not appointing two members from the County Council on the board of governors as requested by the Women's Christian Association. A number of accounts incurred by the county officials for the running of the county buildings were presented for payment and passed. Goodbyes were said and the members closed a profitable session. The members were royally entertained by the citizens of Belleville and every member had nothing but praise for the hospitality of the County seat.

MOTOR INSURANCE IS COMPULSORY

Cases multiply constantly to prove the folly of the theory that every driver should be allowed one accident before being required to prove financial responsibility. In a recent case, a motorist suffered severe physical injuries which kept him out of work without pay for fourteen weeks. His car was wrecked. But since the accident, he had no money and no insurance, the victim was without recourse. He was not helped by the offender being in jail for five months. The provincial statutes protect the public against loss from injuries due to defects in the highways. It is quite as important that they should protect the public from loss through mechanical defects of cars or physical and mental defects of drivers whom the provincial authorities permit to use the highways. No motorist to whom compulsory insurance would be a hardship has any business upon the highways where he may become the author of injuries for which he can give no compensation.—Toronto Telegram.

MAY REDUCE GRAIN RATES

Ottawa, January 29.—An announcement may be expected in a few days from the railway companies of emergency reduced rates to facilitate the use of Canadian grain for livestock feeding. Some days ago Hon. Dr. Manion, Minister of Railways and Canals, called a conference in his office with railway transportation executives at which Hon. Robt. Reid, Minister of Agriculture, and Hon. T. G. Murphy, Minister of Interior, sat in. Since then the railway companies have been considering the suggestions of assisting the farmers who have large stocks of feed grain, by making it less costly to bring the livestock and the grain together. It is understood the railways have decided the extent of the reductions they are prepared to make.

REGISTERED MAIL

In a bulletin issued by the post office department, the value of letter registration is brought to the attention of the public. It is stated that every possible protection is given the registered mail, and the system has reached the point where not a single letter in 40,000 registered was lost. When a letter is registered the sender is given a receipt with a number corresponding to that stamped on the letter. From then until the letter is finally delivered a complete record of its handling is kept. Each employee who handles the letter signs for it and is given a receipt on passing it on to the next clerk. This insures comparative protection. With this service possible, the bulletin urges the public to make use of the facilities by the registration of all letters of value.

CANADIAN GAS UTILIZATION

The sales of manufactured gas in Canada during 1929 for domestic purposes totalled 17,638,942 thousand cubic feet; in addition the amount of natural gas consumed for similar purposes amounted approximately to 16,000,000 thousand cubic feet, while industrial concerns used 12,000,000 thousand cubic feet of natural gas.

BUELAH W. M. S.

Buelah United church, Ivanhoe, held the first meeting of the new year on Tuesday afternoon, January 27, at the parsonage.

There were nine present, and three visitors, Mrs. J. Fox, of Thomasburg, Mrs. Sam Douglas, Fuller and Mrs. Henderson, Ivanhoe, who joined, making some new members to start the new year and help to fill the vacant chair made by the death of Mrs. John Wood, a devoted member. The President, Mrs. John Clements, presided. Hymn 619, "Sing to great Jehovah's praise," was sung.

The Divisional Leaflet on prayer was read by the President, after which Mr. Lovelace offered prayer for the welfare of the W. M. S. and everyone throughout the new year.

The minutes of the last meeting were read and approved. The annual report of the Secretary and Treasurer were given by Mrs. Lovelace and Mrs. Arthur Wood, Mrs. C. A. Mitz and Mrs. Prest, not being able to attend, which is as follows:

Members' fees, \$8.40; quiltings, \$6; collections, \$17.16; Harvest festival, \$13.83; dinners, \$17.45; autumn and Easter offerings, \$20.45; birthday barrel, \$6.10; mite box, \$6.73; Baby Band, \$1.60; Mission Band, \$9.00; average attendance, 8; meetings held, 12; paid members, 14; Missionary Monthly taken, 16. There was a slight expense. \$103 was sent to Presbytery.

Mrs. Lovibond and Mrs. A. Wood were appointed as a committee to arrange for a day of prayer to be held in February. Three short papers were read on the study programme entitled, "Japan's rural problems."

After singing Hymn 620, "Eternal source of every joy," Mrs. Lovelace, the delegate to the Presbytery held at Picton, gave a very full report of the proceedings at all the sessions. Collection was then taken and hymn 316, "My faith looks up to Thee," was sung. The president closed the meeting with a short prayer.

After the closing of the business part, Mrs. Lovelace served lunch, which was enjoyed by all present.

Press Sec.

HASTINGS COUNTY COUNCIL

The following are the members of Hastings County Council, which held its January session in Belleville recently:

Sidney—William Rodgers, Reeve; Edgar Morrow, Deputy Reeve; Thurlow—Robert Mitchell, Reeve; Wesley Gray, Deputy Reeve; Tyendinaga—Arthur McKinney, Reeve; Henry Larkin, Deputy Reeve; Deseronto—C. W. Malley, Reeve; Rawdon—Ernest Brown, Reeve; W. S. Stiles, Deputy Reeve; Stirling—Thomas Montgomery, Reeve.

Madoc—Walter Whytock, Reeve; Tweed—W. S. Gordon, Reeve; Frankfort—George H. Arnott, Reeve.

Bancroft—Lorne E. Reid, Reeve; Deloro—S. B. Wright, Reeve; Huntingdon—W. A. Morton, Reeve; Hungerford—Geo. Jordan, Reeve; and Dalton Clark, Deputy Reeve.

Madoc Township—Chas. Thompson, Reeve; Elzevir and Grimsthorpe—James A. Moore, Reeve; Marmora and Lake—Lee Neal, Reeve.

Marmora—F. N. Marrett, Reeve; Wollaston—W. N. Gilroy, Reeve; Carlow—Henry Harryett, Reeve; Faraday—U. A. Hubbell, Reeve; Montegale and Herschel—G. Twa, Reeve.

Bangor, Wicklow and McClure—C. Burlangett, Reeve; Tudor and Cashel—Jas. Sprackett, Reeve.

Limerick—James Brett, Reeve; Dunganong—Frank Kelusky, Reeve.

Mayo—James Bronson, Reeve.

CHURCHILL TO BE A CITY OF STONE

Winnipeg, Man. Jan. 31.—Churchill, Hudson Bay seaport, probably will be the most fire-proof town in the world when the province completes construction of the frontier harbor, according to Hon. D. G. McKenzie, Manitoba Minister of Natural Resources.

The bay port has well high inexhaustible gravel supplies and the

WINNER MILLS' TROPHY

Mr. John Finnigan, cheesemaker at Marmora Cheese Factory, was the winner of the Mills' Trophy for 1930 for the highest scoring cheese. The trophy is a beautiful silver cup presented by A. J. Mills & Co., Limited, of London, England, and awarded through the United Dairymen Co-operative Limited. The cheese is graded at five centres, Belleville, Campbellford, Kingston, Brockville and Montreal. Mr. Finnigan had the high score for all centres, his score being 93.3631. Last year he stood third and in 1928 he was second among all the contestants.

The trophy must be won three times before it becomes the permanent property of the winner. It has been up for competition for four years and no cheesemaker so far has won it twice. It is a high tribute to Mr. Finnigan that he has stood so high for three years in succession.

ANNUAL MEETING OF ST. ANDREW'S CHURCH

The annual meeting of St. Andrew's Presbyterian Church, Tweed, was held on Monday evening, January 26th, with a good attendance of the congregation.

The reports of the different branches of the church work were very satisfactory. The total amount of money raised during the year was \$1,800; amount sent to Missions, \$360. After all running expenses are paid the congregation starts 1931 with a good credit balance on hand.

The Presbyterian Church of Canada has always had her place among the leading churches of the world, and her historic name has been handed down since the days of Luther, Knox and Calvin, who suffered persecution that her name might live until the end of time.—Tweed News.

rock of Cape Merry Peninsula, on which the town is situated, would supply enough building stone for a large city—and would cost no more than ordinary wood.

Birth announcement cards may be secured at the Review Office.

THE DOMINION BANK
Sixtieth Annual Statement

The Sixtieth Annual General Meeting of The Dominion Bank was held at the Head Office in Toronto, on Wednesday, January 28th, 1931, at which the following statement of the affairs of the Bank as on December 31st, 1930, was submitted:

WE REPORT TO THE SHAREHOLDERS OF THE DOMINION BANK

That we have examined the above Balance Sheet as at December 31st, 1930, and compared it with the books and vouchers at Head Office and with the certified returns from the Branches. We have obtained all the information and explanations that we have required, and in our opinion the transactions of the Bank which have come under our notice have been within the powers of the Bank.

In our opinion the Balance Sheet discloses the true condition of the Bank and is as shown by the Books of the Bank.

A. B. STEPHENS, C.A.,
of Peat, Marwick, Mitchell & Co.
D. MCK. MCELLENS, F.C.A.,
of Price, Waterhouse & Co.

TORONTO, JANUARY 16th, 1931.

NEWS AND INFORMATION
FOR THE BUSY FARMER

Ontario Association of Fairs and Exhibitions annual convention, Feb. 5 and 6, King Edward Hotel, Toronto.

Ontario Vegetable Growers' Association annual meeting, Feb. 10; annual convention, Feb. 11, King Edward Hotel, Toronto.

The first of the series of short courses at O.A.C. opened this week, dealing with the subject of fruit-growing. The courses will continue as follows: Vegetable gardening, Feb. 9th to 14th; landscape gardening, Feb. 16th to 20th; floriculture, Feb. 23rd to 27th.

Many purchasers of dairy cattle are beginning to realize that a dairy cow is worth what she is able to produce on her investment, after taking care of necessary expenses. More and more the discriminating cow buyers are looking for animals with records, and the enterprising dairyman who is far-sighted enough to see this trend can well jump at the chance of having his cows tested and their relative profits determined.

Weekly Crop Report

Generally speaking, farmers in Ontario are somewhat perturbed over the egg situation although in one or two counties the price remains quite firm, according to the weekly crop report from representatives. Egg production is coming ahead in most Bruce County flocks with low prices of 20c, 17c and 12c. Feed is plentiful in Dufferin and cattle appear to be in excellent condition, while in Dundas an increasing demand for purebred stock is indicated. Chick hatcheries in Essex anticipate a good year but are not reassured by the present condition of the egg market. In Frontenac farmers are getting 22c to 28c per dozen for their eggs and a heavy demand for dressed poultry is apparent. Butter, which is 25 per cent. lower in price gives Grenville farmers a profit because feed is 50 per cent. lower. Little feed for cattle is being purchased in Huron, there being a good supply of grain and hay throughout the county. A large number of cattle are being stall-fed or finished to be sold toward the end of April in Lambton. Dairy production in Middlesex is being maintained with an abundance of feed; egg prices are disappointing. The latter applies also to Oxford where prices are at an unusually low level. An increased interest in hog breeding is noted in Renfrew with a possibility of 50 per cent. more hogs this season than last.

Tile Drainage

The Drainage Department, O.A.C., supplies a man to survey your farm for tile drainage. Such survey will show you on a blue print a complete system of tile drainage recommended for your farm. It will tell you the number and various sizes of tiles to purchase. Send in your application to your local departmental representative.

Good Apple Season

With practically the whole of last year's apple crop marketed, it may be assumed, according to P. W. Hodgetts, that Ontario growers have had an excellent season. The bulk of the Ben Davis were disposed of in continental European markets, with the exception of a thousand barrels which went to South America. Apple marketing conditions have been restored more or less to normal with the gradual opening up of a new market in Europe and the displacement of Ben Davis with much better varieties. Although the crop has been only fair in quantity, prices have been quite satisfactory. As a result, the general year is regarded with a good deal more enthusiasm than in several years past. With regard to 1931, prospects seem quite good. All fruit trees went into the winter in first-class shape and there was no excessive moisture last fall.

Seed-Cleaning Machines

The Ontario and Dominion Departments of Agriculture have reached an agreement whereby they will share the cost of helping farmers at strategic centres to install, maintain and operate power seed-cleaning plants. Assistance is to be given in the form of grants amounting to 50 per cent. of the invoice cost of cleaning machines at local stations, such grant in no instance to exceed \$500. The grant will be made available to an individual or an organization of farmers interested in seed-cleaning machinery, and provided it is shown there is a need for such equipment in the district from which the application comes. Each application must be accompanied by a petition signed by 25 farmers stating that there is a

need in the district for such cleaning machinery. Owners of plants receiving Government grants will be asked to sign a seven-year contract promising seed-cleaning service to neighboring farmers at reasonable rates. The plan is calculated to increase farm efficiency and decrease grain production costs. The result of seed drill surveys in Ontario in the last two years show that more than 30 per cent. of the samples of seed taken from seed drills was undesirable on account of heavy weed seed content.

Junior Farmer Education

Schools of agriculture and household science in every county in Ontario is the objective and part of the permanent policy of the Department. Hon. Thomas L. Kennedy, Minister of Agriculture, recently stated in announcing that there are 12,000 young men and women attending the winter short course classes. For the first time every county in the province has a short course under the direction of the Department. Part of the federal grant which is coming to the Ontario Department will be used to establish permanent county centres. Colonel Kennedy is a strong believer in agricultural education for the junior farmer, a work that is still only in its infancy.

Boosting Ontario Products

The success achieved by Ontario Week demonstrates the possibilities that lie behind a well-organized and ably-directed campaign for the sale of home grown farm products. The Ontario growers started out with the idea of bettering their position by their own efforts and have found that such a worthwhile enterprise gains friends and supporters as it proceeds. Plans are now under way for promoting the consumption of home-grown carrots and cabbage. The net result of these efforts must be to reduce the amount of foreign grown produce sold on Canadian markets. The Department is endeavouring to play an important part in this work by means of its daily noon broadcasts over Station CKGW, Toronto, which are eagerly listened to by thousands of Ontario families.

Rations For Cattle

The committee on rations for Ontario, which has made a careful study of the subject, recommends the following rations for dairy cattle: For every 100 lbs. live wt., 1 lb. alfalfa hay or red clover, 2 lbs. silage, 2 lbs. roots, with the following concentrates, 200 lbs. oats, 200 lbs. bran, 100 lbs. barley, 50 lbs. cotton seed, 50 lbs. oil cake, or as alternative concentrates, 200 lbs. oats, 100 lbs. bran, 100 lbs. gluten feed, 25 lbs. oil cake. Where lower grades of hay are used, the recommendations are: For every 100 lbs. live weight, 1 lb. lower grades of hay, 2 lbs. silage, 2 lbs. roots, and the following concentrates: 200 lbs. oats, 200 lbs. bran, 100 lbs. barley, 100 lbs. oil cake, 100 lbs. cotton seed. Alternative concentrates are as follows: (1) 200 lbs. oats, 100 lbs. bran, 100 lbs. gluten feed, 50 lbs. oil cake, 50 lbs. cotton seed; (2) 100 lbs. oats, 100 lbs. barley, 100 lbs. oil cake, 100 lbs. cotton seed; (3) 200 lbs. oats, 100 lbs. bran, 100 lbs. barley, 200 lbs. oil cake. Where roots are not available, increase silage to 3 lbs. per 100 lbs. live weight and use same grain ration as above. When silage is not available increase roots to 4 lbs. per 100 lbs. live weight and use same grain rations as above. The rations recommended where no silage or roots are available will appear in this column next week.

DID YOU EVER

STOP TO THINK?

By Edison R. Waite, Shawnee, Okla. THAT if you read the advertisements of your local merchants you will find that merchandise can be bought as cheaply in your town as elsewhere, and in most instances, you actually receive more for your money than you do by buying from a catalogue or in a distant city.

When you buy from your local merchants you can see what you buy before paying for it.

When you buy at home you don't have to wait days, or even weeks, for the delivery of the articles you order.

You don't have to order from a catalogue or go to some distant city to buy GOOD merchandise. Your local stores carry big stocks of reasonable merchandise.

Money spent at home helps to build your town; money sent away from your home town helps to build some other town. You should have no trouble in making up your mind to be for your home town first.

Your local business concerns need your business; they should have it. They are your friends, your neighbors, and a living part of your own town.

As a business grows so will your town grow. As a loyal citizen, as a booster, as a builder, you should spend your money at home!

WM. J. HILL PRESIDENT
OF CENTRAL FAIR BODY

Wm. J. Hill, of Madoc, was elected President of the Central Ontario Fair Association at the annual meeting held in the city hall, Belleville, on Thursday, January 29th. Mr. Hill is one of the most successful Fair promoters of Central Ontario and is one of the chief reasons for the success which the Madoc Fair Exhibition is now enjoying. He is a successful business man and while he has always been a member of the Association, he has declined the post on several occasions. He will doubtless fill the post acceptably as his predecessors have done.

Keen enthusiasm was manifest at the meeting which augurs well for the Association during the coming year. Most of the Fair Boards were represented and all reported that prospects are bright for a successful year.

Mayor George A. Reid, on behalf of the City of Belleville, welcomed the visitors and expressed the wish that the Association would continue to prosper as it has in the past. He complimented the officers and members on their splendid achievements; the auditors' report was received and was satisfactory. President Harry E. Stock, of Belleville, presided and moved that one minute silence be observed for the late Dr. Hay, of Campbellford, who was one of the staunch supporters of the Association in this district.

The matter of dates was discussed and it was moved that all Fairs not represented, be communicated with, and informed of the dates allotted and advised to avoid conflict in their selection in so far as possible. One delegate suggested that steps be taken to have the grants to Fairs naming conflicting dates withheld. Mr. W. J. Hill, the new president, said that it was merely a gentleman's agreement and that the Association could do nothing in the matter of punishing those who did not co-operate, did not send delegates and named conflicting dates with those given by the Association.

R. H. Ketcheson, Secretary of the Belleville Fair, suggested that all Secretaries of District Fairs send a list of officers to him. Ambrose Dafeo read the financial report of Belleville Fair which was commented upon favourably by the delegates following which the matter of grants to the local Exhibition was discussed. Mr. Dafeo fully explained the nature of the satisfaction of all present.

The following officers were named: Pres.—W. J. Hill, Madoc, moved by R. H. Ketcheson, seconded by H. Aylsworth.

1st Vice Pres.—Lester Boyes, Napanee, moved by A. E. Calnan, seconded by J. Locke.

2nd Vice Pres.—John Locke, Campbellford, moved by George Stokes, seconded by William Stephens.

Sec. Treas.—J. Lewis Hay, Campbellford, moved by Wm. Stephens, seconded by Mr. Armstrong.

Auditors—J. E. O'Donnell, Stirling, and Sam Nicholson, Frankford.

It was resolved that a letter of condolence be forwarded to the family of the late Dr. Hay and the delegates were in hearty accord with the suggestion.

Mr. W. J. Hill, in his inaugural address said, "We have an enviable reputation to uphold and as we are in the centre of the best district of Ontario, we must look forward to greater things. We must keep our fairs clean. I hope that I will occupy this office as well as my predecessors. The department is using every Exhibition fairly in the matter of grants. We must have co-operation among the members of the Association as well as our own local organizations in order to enjoy a successful year."

Mr. Hill pointed out that if any of the branches found friction developing the best policy to pursue was to rid the Board of the trouble-makers in order to create the proper spirit and harmony. "The patrons must be satisfied and then they will return in the following year."

It was decided to meet in Belleville next year. Chas. Hanna, President of the Belleville Fair Board, spoke briefly and said that it was a pleasure to have the delegates come to this city. "We hope that you will always enjoy your short stay here."

Mr. Locke, of Campbellford also spoke as the new Vice President. The following dates were named by the Association for next autumn: Campbellford—Sept. 30, Oct. 1, Wed. and Thurs.

Stirling—Sept. 22-23, Tues. and Wed.

Tweed—Oct. 1-2, Thurs. and Fri.

Marmora—Sept. 15-16, Tues. and Wed.

Bancroft—Sept. 16-17, Wed. and Thurs.

Belleville—Sept. 1-2-3-4, Tues. to Fri.

Napanee—Aug. 25-28, Tues. to Fri.

Coe Hill—Sept. 14-15, Mon. and Tues.

60th ANNUAL STATEMENT
THE DOMINION BANK

The Dominion Bank Statement for the year 1930 shows the earnings and deposits well maintained, and the Bank's liquid position particularly strong.

The past year was one of the most difficult Canadian business has experienced. Within several decades, and because of this the Bank's excellent statement covering its operations for 1930 may be viewed with much satisfaction. The Net Profits were \$1,409,747, or only \$113,000 below the previous year when they were the largest in the Bank's history. After distributing approximately \$910,000 in the form of dividends and a bonus to shareholders, providing \$180,000 for taxation, and a contribution of \$50,000 to Officers' Pension Fund, \$200,000 was written off Bank Premiums Account, and \$444,000 carried forward in Profit and Loss Account, an increase over the previous year's figures of \$70,000.

Deposits were exceptionally well maintained, and appear in the Statement at \$107,432,406. Those bearing interest declined less than \$1,500,000 or less than 2 per cent.

As has been stated the Bank's liquid position is particularly strong. The percentages of Cash Assets and Immediately Available Assets are both higher than a year ago, with the first at \$25,464,000, or approximately 21 per cent. and the second at \$64,896,346 or nearly 53.50 per cent. of Liabilities to the Public.

The lesser demand for commercial loans during 1930 naturally reduced the Bank's figures under this heading to \$64,804,522. The decrease, however, was only 12 per cent. compared with 1929.

The Bank's holdings of Dominion Provincial and Municipal bonds and debentures increased by \$2,000,000.

The Paid Up Capital of the Bank is \$7,000,000 with the Reserve Fund and Undivided Profits \$9,444,219.

A GOOD SUGGESTION

At a nomination meeting held in the Township Hall a couple of weeks ago, Mr. J. L. Newton, ex-Deputy Reeve of Hungerford township, made a suggestion that is worthy of consideration by township councils. His suggestion was to pay a bounty of \$5 for every dog killed while in the act of worrying sheep.

We do not know how much the township of Hungerford paid out for sheep killed by dogs last year, but it was a very respectable sum, and the probabilities are that most of the killing was done by a very few dogs. When a dog develops this habit he will travel a great distance to satisfy his thirst for blood. These midnight marauders are a decided menace to the sheep industry, and any suggestion that would help to rid the County of them should not be allowed to pass without due consideration.—Tweed News.

BELLEVILLE MARKET
SATURDAY

Blustering winds and snowdrifts kept many farmers from a distance from the weekly market today and as a result there was a slightly firmer tendency in the price of eggs and poultry. "Extras" in eggs sold at 33c, fresh firsts at 30c and 28c. Dealers' quotations were 21c for extras, 18c for firsts and 15c for seconds.

Though many farmers were restrained by the storm blockade of the roads from reaching the city, their offerings in eggs were plentiful enough to leave some eggs unsold at eleven-thirty o'clock, but the prospects were bright of their being cleaned up entirely at noon. Butter brought 35c.

Fowl sold at 75c to \$1.50 each. Beef by the quarter sold for ten cents on the market. Butcher's quotations were, beef \$12.25 for western; hogs, dressed, \$14.00; hogs, live, \$9.25; veal 9c live and 15c dressed; lamb 10c live and 20c dressed.

The apple market was not large, owing to the severe weather. The prices were steady as follows: Northern Spies, \$1.50 to \$2.00. Stark's, Delicious, \$2.50 to \$3.00. McIntosh Reds, \$2.50. Cooking Apples, \$1.00 per bushel. Potatoes sold at \$1.00 per bag.

Frankford—Sept. 29-30, Tues. and Wed.

Centreville—Sept. 11-12, Fri. and Saturday.

Pictou—Aug. 18-19-20, Tues. Wed. and Thurs.

Madoc—Oct. 6-7, Tues. and Wed.

Wooler—Sept. 10-11, Thurs. and Friday.

Warkworth—Oct. 8-9, Thurs. and Friday.

Roseneath—Oct. 15-16, Thurs. and Fri.

Colborne—Sept. 15-16, Tues. and Wednesday.

Brighton—Sept. 17-18, Thurs. and Fri.

GILMOUR

Mr. Jas. Sprackett spent last week attending County Council in Belleville.

The friends of Mr. Dexter Trumble will be sorry to learn that he is confined to the house through sickness.

Mrs. Rachel Dafeo spent a few days with her son prior to her departure for Detroit.

While working in the woods last Wednesday, Mr. Clayton Smith met with a painful injury resulting from a blow on the head, of a limb from a lodged tree, sustaining severe scalp lacerations and a number of broken teeth.

Mrs. Earl Hinchliffe is visiting her mother in Belleville.

CHILD HAS SEVEN
LIVING GRANDPARENTS

A challenge from Nanaimo, for a child to produce more than six grandparents, which was recently published in The Vancouver Province, has brought an answer from Ponoka, Alberta.

Little Gordon Alger, of that town, boasts seven living grandparents, all on his mother's side of the family. Mr. and Mrs. Goodman, the mother's parents, have both their parents, Mr. and Mrs. G. Goodman and Mr. and Mrs. A. Sayers, living. The father of Mrs. Sayers, Mr. E. Rodgers, of Tweed, Ont., is also living, making the seventh grandparent for this child.

The Town Crier.

Before the advent of the newspapers, the town crier called the news of the neighborhood. To-day the newspaper keeps you in intelligent touch, not only with your own district, but with all the world.

It is advertising that makes the newspaper possible. Without it the cost would be beyond most folks. When you think of it, the advertisers pay the greater part of your share of the cost of the paper. They do it for the privilege of telling you about their wares, and most of them have a story worth telling.

Read the advertisements consistently. They are interesting and contain money-saving information.

SINGLE SYNDICATE

COST OF EDUCATION

With the declaration that too much money was being spent on fads and frills, discussion in the York County Council struck a note which might well echo through the consciousness of the Toronto Board of Education. The members of that body sometimes seem animated by the desire attributed to suburban trustees, "to build a structure that would always remain as a monument to them." The elaborate character of some of Toronto's schools is in sharp contrast with the inadequacy of wooden portables, too many of which still do duty in the city as classrooms. Until the absolutely necessary accommodation has been provided in permanent buildings, it would seem elementary that the curb should be put on expenditures for ornate and luxurious non-essentials. The pride which the architectural extravagances are supposed to evoke is supported at the expense of wooden shacks that would shame a rural school section. The request which the York County Council makes for the standardization of high schools, equipment and supplies marks a revolt against expenditures which are going ahead by leaps and bounds. The councilors link high thinking and plain living in the suggestion that they want good teachers, and schools "built of plain brick with good decorating."—Toronto Telegram.

SEMI-PERMANENT

APPOINTMENTS

James A. Moore becomes for a five year period a member of the Hastings County Roads and Bridges Committee. For thirteen years he has served on this committee being appointed every year to the office but this year under a change in the law which aims at continuity of effort along the lines of road and bridge construction, semi-permanent appointments are made.

Mr. Moore is qualified, so are the men who will serve with him on this committee, J. A. McKinney for four years, R. M. Mitchell for three years, William Rodgers for two years and Lorne E. Reid for one year.

Mr. Moore is the uncrowned king of the County Council. He is one who has not been elected to be a candidate for the office of warden though his friends have often said he could have it if he wanted the post. Laughingly he waves the honor away.

In the roads and bridges committee he is able to give excellent service.—Ontario Intelligencer.

HAMILTON PLAYER

RECOVERS FROM HURTS

Hamilton, Feb. 3.—Officials of the Hamilton Hockey Club are mightily relieved that their sturdy defence player, "Red Farrell," will not be incapacitated for the next scheduled O.H.A. struggle with Varsity.

Farrell, it was revealed today, suffered an injury in the first period of last Friday's game between Nationals and Tigers, and after playing through the balance of the contest in a bewildered condition, lost his speech and the use of his hands early Saturday morning. He was rushed to the hospital, where he was thoroughly examined and it was found that he had not sustained a spinal injury, as was feared. Instead, he recovered rapidly from the freak ailment, and Dr. R. J. Perkins, club physician, announced yesterday morning he would leave the institution today and suffer no ill effects from the temporary paralysis.

It is thought Farrell suffered a body check or received a jar in some way heavy enough to affect a nerve.

RAWDON RIFLE ASSOC. ANNUAL MEETING

The Rawdon Rifle Association No. 743 held its annual meeting on Thursday, January 22nd, at Springbrook a goodly number being present.

The dates of the shoots for 1931 were set as follows:

April 15th
June 3rd
June 10th
June 17th
June 24th
Sept. 7th (Labour Day)

The four shoots in June will be the Official Shoots for D.C.R.A. prize. The dues this year are \$1.00 as before and prize money will be paid the same as last year, i.e. special prizes for each day shoot and also prizes on the year's aggregate score.

The officers for 1931 were elected as follows:
John McKeown—Captain.
J. F. Baker—Secretary.
Earnest Stiles—Treasurer.
Chris. Burdett—Caretaker.
G. T. Webb—Target Marker.

FIGURE SKATING

Figure skating has made great advances in recent years, and there are now at least a dozen large well-organized clubs, Toronto, alone having three. It has become somewhat of a craze in London, England, where there are seven or eight artificial ice rinks, and more under construction, and it is practised in nearly all of the large cities of the world. Those who witnessed the competitions were here carried away by the beauty of the art, and were convinced by the appearance of the skaters after a programme of four or five minutes that it was not what might be called a "sissy" game. Unfortunately figure skaters in the privacy of their clubs are too seldom seen by the public, and it is only at entertainments such as carnivals that most people have an opportunity of learning what a desirable acquisition it is.—Mail and Empire.

KINGSTON MAY REGAIN OLD STATUS AS PORT

Kingston, Feb. 3.—At a meeting of the Canadian Navigators' Federation, held here, the Grand President, Captain W. Renney, referred to the opening of the new Welland Canal this spring for the upper lakes class of ships and said Kingston should again take her place as one of the great shipping ports on the lakes. Captain Renney spoke of one of his residences at the Grand Council meeting in Montreal, that of making the proposed deep-water channel pass through the Canadian side by way of Kingston and the foot of Wolfe Island. The American Ship Masters' Association at their annual meeting passed a resolution to have this deep-water route in the American channel by way of Cape Vincent, and he wished to have the people of Kingston support the federation in its efforts.

HUGE SUMS FOR ROADS AND BRIDGES

London, Feb. 3.—Schemes for road and bridge construction to aid the unemployed, calling for an estimated expenditure of about \$8,982,000, have been formally approved by the Government. An official statement said today that the total value of road and bridge plans now definitely approved is about \$140,000,000, while further schemes to the value of \$130,000,000 have been approved in principle.

CANADA GEESE FLOCK TO MINTER SANCTUARY

Kingville, Feb. 3.—Thousands of Canada geese are visiting Jack Miner's bird sanctuary here, because there is open water on Lake Erie. The geese are resting before beginning their long flight to the north-land. Yesterday forty-eight large herds were seen migrating northward. "These species could not be determined, but they were believed to be 'red-shoulder' and 'red-tailed' hawks. Usually, they do not migrate until late in April.

BEDROOM NO PLACE FOR THE CAR BATTERY

South Erie, Feb. 3.—D. B. Watson, of Eddy Bay, took his battery out of his car and stored it under his bed. When Watson climbed into bed the wire springs sagged and, coming in contact with the battery, created sparks which set the mattress afire. When the mattress warmed up Watson jumped out of bed and hastily carried it to the rear of the house, where it was totally consumed. Fire which started in the house was quickly extinguished.

WEDDING BELLS

REID-BLAKELY

A very pretty wedding took place at the home of Mr. and Mrs. J. H. Blakely, Thomasburg, on Wednesday, January 28th, when their only daughter, Helen Margaret, became the bride of Gerald Leslie Reid, son of Mr. and Mrs. A. A. Reid, of Ivanhoe.

Promptly at 7 p.m., accompanied by her father, the bride entered the room to the strains of Lohengrin's Wedding March played by Mr. Fred Porter. The ceremony took place under an arch of evergreens and roses centred by a large white wedding bell, and was performed by Rev. J. W. Platt, pastor of the United Church.

The bride looked most charming, gowning in pale pink georgette and lace, wearing a wedding veil and orange blossoms and carrying a bouquet of pink and white carnations. The bridesmaid, Miss Mary Adams, a cousin of the bride, was becomingly dressed in blue georgette and lace and carried carnations.

The groom was attended by his brother, Donald Reid.

After the ceremony, while Mendelssohn's march was played, the guests greeted the happy couple and extended congratulations and best wishes.

About one hundred and twenty-five relatives and friends sat down to a sumptuous banquet. A toast to the bride and groom was proposed by Rev. J. W. Platt and responded to by the groom in a few well chosen words.

The groom's gift to the bride was a wrist watch, to the bridesmaid a string of pearls and to the groomsmen and pianist gold cuff links.

The bride was the recipient of many beautiful and useful gifts.

The bride's traveling costume was brown georgette and velvet with hat and shoes to match and a new brown fur coat.

Mr. and Mrs. Gerald L. Reid left by motor amid showers of confetti and good wishes for a honeymoon trip to Chatham and Detroit and other points and on their return they will reside near Ivanhoe.

REMOVAL IS URGED OF HIGHWAYS TAX

The Ontario Cabinet was strongly urged by a delegation of the Associated Board of Trade and Chambers Commerce to remove the tax from municipalities for the maintenance of highways in the suburban areas. It was urged that as these highways serve the traffic of the Province as a whole, it was unfair to place the cost on the taxpayers of municipalities.

This was only one of a series of resolutions presented by the delegation to the Cabinet, which was presided over by Hon. W. H. Price owing to the illness of Premier Henry. Speakers on behalf of the delegation were: T. J. Patten, North Bay; H. K. Carruthers, Ottawa; K. J. Dunstun, and F. D. Tolchard, Toronto.

Another resolution submitted by the delegation urged the Dominion and Ontario Governments to co-operate in arranging for the immediate construction of the trans-Canada Highway through Northern Ontario, and submitted that as such an undertaking would be of national benefit, part of the cost should be contributed by the Federal Government. That the use of affidavits in filing civic income taxes should be abolished and that penalties for understatement of incomes should be provided, was suggested in one of the resolutions.

Other resolutions submitted by the delegation urged that, where possible, legislation should be enacted to encourage the manufacture of raw materials into finished products before export; that increased appropriations be made for the detection and control of forest fires in the Thunder Bay district by observation towers, aerial patrols and improved access to timber areas; and that the statutes relating to the elimination of noxious weeds from highways and lands be enforced.—Toronto Globe.

UTILITIES HAVE HAD SUCCESSFUL YEAR

Peterboro, Feb. 3.—A cheque for \$3,907 was presented to Mayor Dene and several members of the City Council by the Utilities Commission at the regular meeting Saturday. The amount represents the profits of the Waterworks Department after \$2,000 had been set aside in the reserve fund. All three departments handled by the Utilities Commission had a most successful year. In the Gas Department \$13,130 was placed in the reserve fund, while the Electrical Department showed a surplus of \$9,000, and it is expected that the "thirteenth bill" will probably add another \$14,000 to this amount.

New names are being added to our mailing list from time to time. If your name isn't there it should be.

UNION

We are glad to welcome Mr. and Mrs. Jack Empey back again to our midst, after spending the past year in Belleville.

Mrs. Albert Empey attended the W. M. S. Convention as a delegate from the Union appointment.

Mr. and Mrs. Harry Blakely and Miss Bell spent Thursday evening of last week at Mr. Jack White's.

Mrs. Hattie Sharpe, of Madoc, is spending a few days with Mrs. Beryl Carman.

Miss Bell and Mr. Delbert Carman were the guests of Miss Hazel Thompson, of Queensboro, on Sunday.

Miss Clara Walker, who was attending the Short Course in Madoc, spent the week-end at her home.

Mr. and Mrs. Jas. Bateman had tea at Mr. Ken Bateman's on Monday evening.

Mrs. Jack Empey entertained some friends to tea on Tuesday evening, the occasion being Baby Joann's second birthday.

TO SAFEGUARD TRAVEL

With a view to safeguarding the travel on the provincial highways, the Ontario Government, at the February session of the Legislature, will introduce legislation seeking the elimination from the general traffic picture, of the overworked and sleepy truck driver. Convinced that many highway accidents are due to drivers—particularly truck and bus pilots falling asleep at the wheel. Premier George S. Henry, in his capacity of Minister of Highways, has had several conferences lately with bus and truck operators' association in an effort to provide some solution to a road hazard, which, it is reported, is growing more and more serious yearly. Efforts will be made, Mr. Henry informed the Trade and Labor Congress, in its annual pilgrimage to the government, to arrange some scale of working hours that will prevent any driver of bus, truck or taxi, from driving any more than eight hours at a stretch without sleep.

Birth announcement cards may be secured at the Review Office.

CROSSING ACCIDENTS

A report by the Board of Railway Commissioners of Canada shows that during the last four months of 1929 there were one hundred and sixty-one accidents at railway crossings. Carelessness on the part of motorists was the chief contributing cause of these accidents. A toll of many lives is taken every year because of the lack of elementary precautions. The Railway Board makes an investigation into every accident at a crossing. The various charged causes for them are grouped as follows: Crossing tracks when gates are down; lack of precaution in not making sure trains are approaching; accidents caused by defective auto brakes, resulting in cars becoming stalled in the middle of the tracks; auto disregarding engine whistle and ringing of engine bell; auto skidding when crossing tracks; chauffeurs seeing

ONE HUNDRED AND SIXTEEN MEN EMPLOYED

One hundred and sixteen men were working on the sewers and walk shovelling and clearing of Front, and Bridge and the adjacent streets, of snow, 28 on sewers, 36 on walk shovelling, 52 clearing roads. There was also seventeen trucks, one team and one single conveyance working on the clearing of the streets.—Ontario Intelligencer.

ing train too late to escape a crash; drivers trying "to beat train to crossing." It is of little use for laws to be passed, either by governments or railways, aiming at preventing railway accidents, if they are persistently ignored by those driving automobiles. There appears to be greater need than ever for extreme care to be exercised at level crossings.—Montreal Star.

WEDDING BELLS

BROWN-MORTON

A quiet wedding took place on February 4th at the home of Mr. and Mrs. R. A. Morton, Foxboro, when Miss Phoebe J. Morton, and Mr. Jas. E. Brown, both of Thomasburg, were united in marriage by Rev. Isaac Snell.

EDITOR HAD ARM BROKEN

It happened just this way. Rising rather hurriedly from a couch on Sunday evening and stepping on a rug which slid along on the floor, the editor fell, alighting on his left arm, and breaking a bone just above the wrist. The injured arm will be incapacitated for a few weeks. Campbellford Herald.

DOCTORS MET IN BELLEVILLE

About twenty five doctors from Prince Edward and Hastings gathered in the Queen's on February 3rd to attend a meeting of the Hastings and Prince Edward Counties Medical Society, three of which meetings are to be held this winter. Prof. Beery, of Queen's University, was the speaker of the evening and took for the subject of his address "Kidney Affections." As well as doctors from the city and the county, Drs. Allison and Hall, of Picton, and Dr. Scott, of Wellington, were present.

COUNTY L. O. L. ELECTS OFFICERS

The following Officers were elected for this year by the Hastings County L.O.L. at the annual meeting held in Madoc on Tuesday, February 3rd: County Master—W. J. Tanner. Deputy County Master—E. Sarles. Chaplain—Rev. M. Lovelace. Recording Secretary—S.J. Kilpatrick. Financial Secretary—A. Wilson. Treasurer—W. Martin. Lecturers—C. Tanner and O. Devolin. Marshal—J. Morrison. The officers were installed by Past County Master J. Nickle, assisted by Bro. Alex. Martin as Director of Ceremonies.

SLIGHTLY INJURED

Miller Carl, corn borer inspector, was slightly injured, when the car, which he was driving left the road east of Napanee, as he was returning from the hockey game in Kingston. Mr. Carl was admitted to the Kingston hospital and it is reported his injuries were not serious and he will be able to leave the institution in a few days.

W. MERKLINGER

SUCCESSFUL PLAY

The Orange Hall at Fox's was well filled on Wednesday evening, February 4th, when the Y. P. S. of Eldorado—Union gave the royalty play, "Wanted a wife." The play was well presented and much enjoyed by all present. The various parts were taken by Messrs. Leonard Haworth, Cecil Robinson, Clifford Chambers, Harry McCoy, Misses Annie Holmes, Stewart, Freda McCann, Leda Post, Luella Chambers, Eva Chambers, Violet McCann, Marguerite Franks and Mildred McCann. Music was furnished through acts by Mr. Kenneth Holmes, Miss Stewart, Mrs. Leslie Robinson, Misses Leda Post and Elsie Fox, and the Young People's Orchestra. Mrs. Hinchliffe successfully directed the play.

BUS GOT STUCK

For a while last night it looked as though the B.C.I. hockey players were going to repeat the performance of the collegiate basketball team a short time ago and spend the night in a farmhouse. Coming back from Madoc the bus got stuck in the deep snow and wouldn't budge either forwards and backwards. But when twenty-five boys climbed out and started to push it didn't take long to get back on the highway again. Even the two teachers on board lent their efforts.—Ontario Intelligencer.

PRESENTATION

On Friday evening, February 6th, the friends and neighbours of Mr. and Mrs. Alfred Curtis met at their home to spend a social evening with them before they leave for their new home in Madoc.

The evening was spent in playing cards and dancing. Mr. and Mrs. Curtis were asked to come forward and the following address was read by Mrs. D. Blakely. Miss Ethel Adams presented them with the silver. Mr. and Mrs. Curtis each replied in a few well chosen words.

A bountiful lunch was then served and the remainder of the evening was enjoyed by all present.

The following is the address:—To Mr. and Mrs. Alfred Curtis. Dear Friends:

We, your friends and neighbours, are glad of this opportunity of spending an evening with you before you leave our midst.

Time brings many changes to us all and we deeply regret with you, the circumstances which have made it necessary to make this change. We feel, as you do, that it is no easy matter to sever old ties and associations of a life-time.

You have been kind friends and good neighbours. This community will miss you in many ways. You have always responded generously when various demands have been made upon you, to church and other affairs.

Nearly nine years have passed since we met in your home and welcomed Mrs. Curtis among us. She has met us more than half way and we are sorry to see you both go. So as a remembrance and a slight token, we ask you to accept this gift of silver. May we drop in to use them with you. Our best wishes go with you.

Signed on behalf of Hart's neighborhood, Frank Palmer, Mason Twiddy, John McCaffrey, Field Allan.

BASSETT—In Madoc Village, on Monday, February 9th, 1931, Wm. George Bassett, in his 72nd year.

MADOC WINS TWO

TWEED PROTESTS

Team	Played	Won	Lost	Tie	P
Stirling	12	9	2	1	
Madoc	12	8	3	1	
Tweed	12	5	5	2	
Frankford	11	2	7	1	1
Campbellford	11	2	9		

P. means protested.

A scheduled game between Tweed and Madoc was played in Tweed on Friday night of last week, when Madoc defeated the homesties 2-1, after the playing of ten minutes overtime. In the second period a mix-up occurred after which Barkey, of Madoc, and Max Gerald, of Tweed, were each given a ten-minute penalty. Barkey was so injured that he was unable to continue playing, and Henderson, who was subbing, served the penalty and played the remainder of the game.

After the game Tweed entered a protest on the grounds that Referee Jacob, of Toronto, who handled the game, had ruled Barkey off for the balance of the game and that he had erred when he let Madoc play a man in his place.

The protest was heard at a meeting of the league executive held in Stirling on Tuesday afternoon. The secretary was instructed to write Mr. Jacob and obtain a statement from him as to the length of Barkey's penalty. If Mr. Jacob ruled Barkey off for the remainder of the game, Tweed will win the protest. If he states the penalty was for only ten minutes the protest will be thrown out.

Mr. R. P. Wellman, one of the time keepers who was at the meeting, stated that the referee had informed him that each player was to serve a ten-minute period.

Mr. Andrews, coach of the Madoc team, in giving evidence, said that the referee had told him he could play Barkey if he wished, but thought it would save trouble if another player was used.

At time of going to press no report has been received from Mr. Jacob, but we believe that he will stick to his decision given at Tweed and that the protest will be thrown out.

The following article which appeared on the front page of the Belleville Ontario Intelligencer, is a fair story of the mix-up which is the most disagreeable affair that could occur in any hockey league.

Alex, Fred and Max Gerald, all players on the Tweed Trent Valley hockey team, were brought before Magistrate Casement in court in Madoc yesterday afternoon and were charged with assault and occasioning bodily harm to M. J. Barkey, a player on the Madoc hockey team.

Only two of the young men were able to appear. Max Gerald was unable to leave his home on account of injuries received in the last hockey game when Tweed played Madoc. The case was remanded and the boys were released on \$3,000 bail each. Sergeant H. Storey, stationed at the local provincial police headquarters under Inspector Loughheed, went out to Tweed yesterday, investigating the affair and placed the young men under arrest.

The unfortunate accident occurred during a hockey game in Tweed last Friday night between Madoc and Tweed, a regular Trent Valley League fixture. The last following facts were sifted out of a maze of conflicting opinions. The play, when the incident occurred, was in a corner of the rink. Max Gerald and Barkey were fighting for possession of the puck. It is alleged that Gerald, either intentionally or as a mistake, "butt-ended" Barkey in the neck. Barkey, it is stated by Madoc supporters, resented this and probably lost his head. With a swing he brought his hockey stick upwards and slashed Gerald across the front of the face.

Gerald suffered a bad cut over one eye, his nose was hurt and he was otherwise shaken up. Alex and Fred Gerald, seeing the incident, started across the ice and "jumped" Barkey. A wild free-for-all started in which Mr. Barkey was seriously injured.

Barkey was taken to Belleville yesterday afternoon by Dr. Eagleson, physician in the village of Madoc. X-rays were taken at the Belleville General Hospital and it was found that Barkey was suffering from a

MADOC HIGH SCHOOL WINS TROPHY

(Contributed)

Tweed and Madoc High Schools, having tied on games won during the regular schedule, completed their play-offs on Thursday last when the local school emerged victorious by a 2-0 score, thus overcoming Tweed's one goal lead from the first game at Tweed.

It was quite evident that both teams were out to win the right to meet Belleville Collegiate. Play opened cautiously, neither side willing to give the other an opening. Finally Madoc determined to even the round, speeded up, and on a long shot by Whytock, McCutcheon, Tweed goalie, was beaten. The local student rooters gave vent to their pent-up feelings in no uncertain manner.

During the remainder of the game play waged back and forth until in

Continued on page 5

fracture at the base of the skull. "The fracture is not extensive," said Mr. Williams, X-ray expert, today. "I could not observe any other injuries on the plates.

Dr. Eagleson was reserved in his statements to the press last night. "I took Barkey into Belleville today to have him X-rayed," he told the reporter. "The plates had not fully dried before I started back with the injured man, but I have every reason to believe that he is suffering from a fractured skull. His eyesight has been affected and he was badly shaken up during the fracas." Dr. Eagleson was non-committal on the point of just how serious Barkey's condition is. It will be some time, however, before the hockey player is himself again.

There has been ill feeling between the Gerald's and Barkey all season. There have been mix-ups previous to Friday night's fracas, although none of them were as serious. There are four Gerald boys playing on the Tweed hockey team, all brothers. George Gerald, the fourth, is not implicated in the affair.

MADOC 7, CAMPBELLFORD 3

On Tuesday night the Black and Whites went on a scoring spree when they defeated the Campbellford team 7-3 in a fast clean game in the local arena. Campbellford opened the scoring in the first five minutes of play, when Ingram beat Hulin from close in. Madoc tied the score a few seconds later when Henderson scored from a rebound. Before the end of the period Madoc added two more, making the score 3-1. In the second period each team added two and in the final frame Madoc added two more, making the score 7-3.

Bookings

Norm Johnston was the goal getter for Madoc, scoring four of the seven, while Ingram was Campbellford's best man, scoring two of their three. This is the largest number of goals scored in a Trent Valley League fixture this season.

In the absence of Barkey, McGuire was put back on the defense and he filled the gap in a most capable manner.

This season Tweed has been defeated in two games which they protested, in neither case had they the slightest grounds for a protest. They certainly hate to take a trimming.

Madoc is finding it as necessary to win games at league meetings as it is on the ice. So far they have held their own at both.

We wonder what persuasive power Tom Beatty used to get Referee Jacob to send in the report he did to the league. After being cornered at the league meeting Tom finally admitted he was with Mr. Jacob when the report was sent in. Such is the game.

Tweed lost to Stirling on Wednesday, 2-1. We wonder if Tweed will protest on the grounds that Stirling has the better team. As much sense to that as to their other protests. Frankford plays here Friday night. Frankford has a good team and a good game is expected.

Tweed is in third place and even taking protests, league meetings and free-for-alls into consideration, we believe that they are doomed to stay

ST. PETER'S CHURCH W. M. S.

The February meeting of the Presbyterian W.M.S. was held on Thursday, the 5th, with 24 members present. At 2.30 the President, Mrs. McCaffrey, opened the meeting, the opening hymn being No. 592, "I love to tell the story." The usual scripture reading was substituted by each member reading a verse of scripture. Mrs. Marshall led in prayer. During the business period two delegates were appointed to attend the Presbyterial which met in Belleville on Tuesday. The delegates are Mrs. Wm. Miller and Miss M. Mackintosh. Other members were expecting to go for the afternoon meeting. Mrs. Wright, Mrs. E. West and Mrs. Marshall were appointed to write letters of condolence to bereaved members. After the singing of hymn 563, Mrs. W. Miller, assisted by Mrs. J. Whytock, gave a very interesting lesson on the life in British Guiana, particularly that of the girl life. Mrs. Jenkins offered prayer for the Missionaries and their work. Mrs. McCaffrey closed the meeting with prayer. Hostesses were Mrs. Mackintosh and Mrs. G. West.

TRINITY W. M. S.

On Thursday, February 5th, the W.M.S. met at the home of Mrs. F. Dafeo. The hymn, "Take time to be Holy," prayer led by Mrs. A. Thompson, Scripture lesson from Eph. 6, and the martial hymn, "Sound the battle cry," which was followed by the devotional leaflet, "Lead us not into temptation," read by Mrs. Ludbrook, formed the devotional period led by Mrs. Fair.

The President, Mrs. S. S. Ashley, then took charge of the business. Twenty members responded to the roll call, the scripture texts used being on "Courage." After some discussion it was decided to hold a social evening later in the month, for which the President kindly offered the use of her home. Some splendid thoughts on "tithing" were given by Mrs. M. Maybee. Mrs. Rutherford then took charge of the program and called for the item of special interest—the report of the Presbyterial recently held at Picton, given by the delegate, Mrs. Dafeo. This was a full but concise report, some practical thoughts being given to the various department secretaries and also a splendid account of the address of Miss Jamieson, the guest speaker of the Convention. A hearty vote of appreciation was tendered Mrs. Dafeo for her excellent report. An appropriate duet, "Share your blessings," beautifully rendered by Mesdames Hulin and Ashley was much appreciated. The fifth chapter of the Study Book entitled, "Current thoughts and Christian schools," was taken by Mesdames Rutherford, Bristol, Huffman, Irwin and Wellman. After closing with the Mizpah Benediction, a social half hour was enjoyed, Mrs. A. Kincaid and Mrs. Rivers being assistant hostesses.

IN MEMORIAM

In loving memory of my dear husband, James Young, who passed away February 7, 1930. Oh sad it was to part, From him we loved so dear, Cut away in the prime of life, In the midst of life and cheer. Short and sudden was the call, Of him so dearly loved by all. Forget him? No we never will. We loved him then, we love him still. Sadly missed by wife and family.

GAVE BLOOD TRANSFUSION

In an effort to prolong and probably save the life of the late Robert J. McLaughlin, one of the best known cheesemakers in this district, Joseph Hagerman, a lifelong friend and business associate, gave a blood transfusion on Saturday, in the general hospital. Mr. Hagerman is about today but is still feeling the effects of the ordeal. It is understood this is the second transfusion Mr. Hagerman had given to the late Mr. McLaughlin.

The Norwood Council has cut its member's salaries from \$5.00 to \$3.00 per each regular session.

HERE AND THERE

When you have visitors kindly remember that there is a paper in the town and also a personal column. Everybody likes the personals, don't forget to send them in.

Congratulations are due the high school hockey team in the winning of their group and the district Inter-scholastic cup. The seniors are setting pretty in second place and it looks like a most successful hockey season for Madoc.

A gentleman who has just returned home from a six weeks' trip through the West, informed the Ensign that it was surprising the way the farmers of the West are going into hog raising. The object is to dispose of their surplus stock of hogs. That exemplifies the spirit of the people who populate the prairie provinces today. Where a spirit like that exists, there is still hope for the future of the country.—Brighton Ensign.

One can hardly believe that all the following weather conditions could exist in this Ontario of ours. Last Friday the lake front was in the throes of a biting, blizzard, which blocked traffic and otherwise created trouble and again on Sunday we were smothered in snow, which proved a blessing in disguise, as it gave employment to a large body of men who needed it. Then we read in the daily paper of sap running freely just north of London, geese flying north over the Sault and a band of 48 hawks also going north to their hunting grounds. Further away in Saskatchewan a man has a strawberry plant growing runners. The bear and the ground hog certainly saw their shadows on candlemas day and have retired for another six weeks' snooze. Where are we at?—Exchange.

The dates which will bring the Canadian Chautauqua's programmes to Madoc this year are April 1, 2, 4, 6. The notices have been sent out weeks in advance so that communities may plan their other entertainments accordingly. This year due to the increasing number of places scheduled to receive these concerts and the greater interest displayed by the committees in each place, extra efforts have been made and an even more brilliant array of artists procured than in any previous year.

There will be staged two very popular plays, "Turn to the right," by the "Canadian Players," and "The whole town's talking," by the "Peerless Players." Lectures and vocal and instrumental music by outstanding artists will also contribute to four evenings of delightful entertainment.

Those of us in Madoc who have attended the Canadian Chautauqua's in the past need no urging and those of you who have not had this pleasure have a real treat in store.

Premier Bennett is cutting down expenses by decreeing that the taxpayer of Canada shall no longer pay for limousines for the use of cabinet ministers. This usage is one of the many which starts with the right idea, but is open to abuse. We hear rumors of said cars being of general family use, and Premier Bennett apparently decided it was easier to eliminate the cars than to specify that they were not intended for making shopping or social life easier and more pleasant for the families and relations of the Ministers. Premier Bennett is a walking enthusiast himself, and apparently believes that those who enjoy the cars should pay for them.

THE LEGEND OF ST. VALENTINE

Perhaps you have heard the legend of St. Valentine, but if you have not here it is in as small a nutshell as such a saint could be well condensed: St. Valentine lived long ago. An emperor ruled him, and the emperor whose name was Claudius, became very jealous of St. Valentine or Fr. Valentine as he was then called. And one day Claudius cut Fr. Valentine's head off and banished his remains, so that nobody should know that he had been beheaded.

Now why did Claudius do this? you ask. Well, he did it because Fr. Valentine became so great a favorite with the young people that Claudius was not in their affections at all.

But how did Valentine make himself such a favorite? you still query. Why, how indeed? How do you suppose? How does any man or woman either for that matter, become solid with young people? Why, by helping along their love affairs, to be sure, and by giving them every opportunity to be alone and talk it over. Now, Fr. Valentine was a born matchmaker and he was always busy making matches. If he saw two young people looking at each other with sheepish eyes, he cast his toga over his head and sat still, never stirring for five minutes.

And so Fr. Valentine got himself disliked by the Emperor Claudius and after Claudius had cut his head off the young people canonized him, and, upon the good old saint's birthday, would exchange little love tokens just to keep his memory green. The people who had known St. Valentine when on earth told their children about him in after years, and their children told their children's children and so it has come down to us through many children of children.

GOOD TIMES

It is a fine thing to be an optimist. In these days of so called "hard times" it is not easy to see the bright side of things. There is plenty to discourage and depress. Prices have fallen to the lowest level in many years, in many cases far below cost of production and it is difficult to adjust ourselves to these changed conditions.

But this is not the time to lose courage. The record of history proves that it is only under trying conditions that real progress is made. Few people save money in good times. They spend it freely. It is in the so-called "good times" that heavy obligations are undertaken and in the hard times that they are paid off. People get in debt in good times. Then when times are not so good special efforts are required to meet these obligations. Buying and spending is reduced, demand for commodities slackens and over production results.

Statistics show that savings banks deposits always increase in hard times. People take better care of their money when it is hard to get. The old saying, "Easy come—Easy go," is a true one. In good times people often buy luxuries instead of paying their debts. Those who had debts to pay and paid them in good times will weather hard times successfully.

While we all want to be prosperous, this being on easy street financially is a dangerous thing. Everyone should have something to work for. Nothing worthwhile is ever achieved without effort. It is the law of life. Progress is not made by leaps and bounds. It is the result of steady consistent work.

Every young man should undertake some definite responsibility if he ever expects to get anywhere. A farm mortgage or business obligations are the spur that lead to accomplishment. It was not the man with obligations to meet who dabbled in the stock market. It was the man who had no definite absolute necessity facing him.

Hard times, like hard work, is rarely welcomed, but it is the way of progress. "I thank God every day," said Charles Kingsley, "that I have work to do that must be done whether I want to do it or not." Behind

MOTOR ADVICE FOR 1931

By courtesy of the Minister of Highways and the manufacturers of license plates, every purchaser will find enclosed with his 1931 markers a copy of the attached card. Five hundred and fifty thousand have been printed for that purpose by the Ontario Safety League.

These rules will help you to avoid motor vehicle accidents:

1. Practise always: Care, Courtesy and Common Sense.
2. Acquire a Safety Consciousness.
3. Learn the Highway Traffic Act and obey its requirements. It is a law MADE to keep you out of trouble.
4. Remember when driving that SOMETIMES you are a pedestrian.
5. The right of way is often better given than taken.
6. Road conditions may require special precautions.
7. Pass traffic only on straight roadways and NEVER approaching the top of a hill.
8. Be sure that no train is approaching in either direction before you cross a Railroad track. To Stop, Look and Listen may save your life.
9. Signal with your arm before making a stop, turn, or slowing down.
10. Look out always for the Safety of Children—you are the one creating their hazard.

Mechanism

1. Have your brakes tested frequently.
2. Examine your lights daily.
3. Carry extra light bulbs in your car.
4. Have your steering gear mechanism inspected regularly.
5. Keep to the right side of the road.
6. Watch for Stop signs, School signs, Cross Road signs, Detours, etc.
7. Observe the speed laws.
8. Never leave the scene of an accident until you are satisfied that everything possible has been done.
9. Give your name and address to the parties concerned with you in an accident.
10. Carry your drivers' license with you always.

GOLD IN THE MOUTH

There is said to be 480 million dollars of gold in the mouths of the people of America. A contemporary doubts if that puts the money into circulation. It would not be going too far however to say that it is put in motion.—Montreal Gazette.

TWO INJURED IN

CROSSING SMASH

Stalling on the C.P.R. crossing near the pump house, a car owned and driven by Earl Tice, R.R. No. 3, Belleville, was struck by a C. P. R. freight train, No. 915 proceeding west shortly after midnight Thursday morning. The driver and Mrs. Don Smith, of Trenton, were seriously injured and taken to the hospital, while Marshall Spafford and Mrs. Ethel Cleworth, a daughter of Mr. M. Spafford, other occupants of the car, were bruised and shaken up by the impact. Mrs. Smith suffered a severe cut leg and other face cuts, and there is a possibility that the leg will have to be amputated. Mr. Tice received cuts about the face and hands from flying glass.

The freight train was proceeding west on a long grade near the pump house crossing at a low rate of speed, probably not more than five miles per hour, and was in charge of Conductor Fred Smith, Engineer Russell Purdy, Fireman Earl Hutt and brakeman W. Coulthouse, all of Smiths Falls, Ontario. The car was struck practically head-on as it was proceeding south on the driveway leading to the Spafford home at the pump house. It stalled as it started over the sharp incline a few feet from the railway tracks. The car was dragged about one hundred feet, and thrown into the north ditch. A tangled and crumpled mass of steel. The engine was stopped within eight lengths of itself, and the crew returned to the scene and rendered every possible assistance. The ambulance was called with Constables Issard and Thomas in charge.

Dr. J. J. Robertson soon arrived on the scene and after the parties were carried to the Spafford home, first aid was given the occupants of the car, Mr. Tice and Mrs. Smith being rushed to the hospital.

the clouds of today's depression the sun of tomorrow's prosperity is shining. The world is progressing. There are better days ahead. Faith and courage always wins. Canada is in a better condition than any country in the world. And Prince Edward is the most prosperous community in Canada. Be cheerful. Be an optimist. Good times are just around the corner.—Picton Gazette.

BELLEVILLE MARKET

SATURDAY

Eggs were the feature of today's market with plentiful offerings which were held at 28 cents and 25 cents per dozen. The offerings exceeded the demand and prices fell away somewhat at the close of the business this morning. Dealers prices were unchanged from a week ago, namely 21 cents for extras, 18c for firsts and 15 cents for seconds.

Butter was a little firmer at 35c per pound and fowl sold at \$1.50 to \$1.75 per pair.

Hay was not heavily in demand, two loads being offered at \$11 per ton. Cordwood sold at \$11 per cord.

Hogs sold at \$13 dressed and \$9.25 liveweight. Butchers' quotation on meats—today were, beef \$12.25 for western; veal 9c live and 15c dressed; lamb 10c and 20c dressed.

The apple mart was unchanged. The prices were steady as follows:

Northern Spies, \$1.50 to \$2.00. Starks, Delicious, \$2.50 to \$3.00. McIntosh Reds, \$2.50.

Cooking Apples, \$1.00 per bushel. Potatoes sold at \$1.00 per bag.

U. C. EXPENDITURES IN EAST ONTARIO

Toronto, Feb. 4.—The United Church of Canada anticipates an outlay of nearly a million dollars for construction purposes throughout the Dominion, according to reports received by the General Council's Committee on church architecture, of which Rev. S. W. Dean, D. D., is the chairman.

The cities of Vancouver, Hamilton, Ottawa and Toronto figure largely. Conservative estimates place the probable cost of new buildings and enlargements at \$835,000 to \$975,000 for the building season just ahead.

Union of two large groups at Campbellford, Ont., six years ago is eventuating in proposal to provide a \$60,000 building. Fire at Trenton, Ont., necessitates rebuilding King street church at an outlay of possibly \$50,000. St. James church, Peterboro, will enlarge its basement.

NOTICE TO CREDITORS

In the estate of Robert Alexander Rollins.

Creditors and others having claims against the estate of Robert Alexander Rollins, Esquire, who died at the Village of Madoc, in the County of Hastings, on the 19th day of January, 1931, are notified to send to the undersigned solicitor for George Harris and William Rollins, the executors of his estate, before the 21st day of February, 1931, particulars of their claim in writing verified by statutory declaration, after which last date they will distribute the estate amongst the persons entitled thereto, having regard only to the claims of which they have then notice, and they shall not be liable for any part of the estate so distributed to any person of whose claim they had not notice at the time of such distribution.

Dated at Madoc this 4th day of February, 1931.

Geo. S. White, Madoc, Ontario, Solicitor for George Harris and William Rollins, Executors. 5-3

REMINISCENCES

The following items have been taken from the file copies of the Review.

FIFTY YEARS AGO

February 1881

Madoc Races—The first of a series of annual races was commenced on the course on Hog Lake on Monday. There were about 2000 people to witness the sport. Hematite, owned by Arthur Coe, took 1st money, Capt. Mitchell's Sorrel Bob 2nd and John R., owned by Robert Pennick, 3rd. In the running race Lady Mack, owned by Robt. McNeill, won first; Little Belle, owned by S. Huff and Bro., second; and Johnny Morrow, owned by E. B. Caverly, 3rd. Mr. R. T. Gray paid the prize money and everything in connection with the decision of the judge passed off pleasantly.

A number of men are at present employed in repairing the Grand Junction bridge over Hog Lake and replacing some of the old timber. The work is under the direction of Mr. McKeel, of Campbellford.

St. Valentine's day is Monday next. Those of our village youths and maidens who purpose adhering to the time-honored custom of sending their "sweetness" a valentine, will find a choice selection of both the sublime and the ridiculous at our friends, Dean's.

Big Robbery—Sometime on Monday night an extensive robbery was committed in Moon's Hotel, Mrs. Moon being the loser to the amount of \$240 in hard cash.

Accident—A serious accident took place at the station on Friday by which the warehouseman, Mr. Miller, was badly injured.

Village Council—A communication was received from Messrs. Menzies and Detours, Montreal, offering a hand fire engine for \$550.

Runaway—While driving home on Thursday Mrs. E. D. O'Flynn and Miss Lillian, when in front of Mr. Peter's residence, were run into by a drunken man driving in the same direction, wrecking the cutter and throwing the occupants on the road. Miss Lillian escaped unhurt and Mrs. O'Flynn with slight bruises but both had a narrow escape.

TWENTY-FIVE YEARS AGO

February 1906

Cheese Board Meetings—Madoc Cheese Board reorganized for 1906. Pres., A. Nicolson; 1st Vice, Jackson Burris; 2nd Vice, John Kilpatrick; Sec., T. H. Moore; Treas., C. W. Reid. The annual banquet was held after the evening meeting. About 70 sat down to the well laden tables spread in Curry's best style.

Weddings Bells—A pretty wedding took place at high noon, January 31, at the home of Mr. Robt. Taylor, when his only daughter, Jennie, was united in holy bonds of matrimony to Mr. Walter Wickett, of Foxboro, Rev. J. A. Connell, of Eldorado, officiating.

Miller—McCoy—On Wednesday, January 24, a large number of guests assembled at the home of Mr. and Mrs. Jas. Miller, Madoc township, to witness the marriage of their daughter, Daisy M., to Wm. J. McCoy, of the same place. The ceremony was performed by Rev. E. W. MacKay, of Madoc.

A Rich Find—Mr. Dan McGillivray, while enjoying a plate of oysters, was astonished at finding a mouthful of pearls in one of the oysters. Large and small, there were 23 in all. They are pronounced the "real thing" by some of our village experts.

Hockey—At Stirling last week the score was 9-2 against our boys and on Monday the score was 8-4 in favor of Stirling. Madoc line-up: Will Coe, P. J. Hoover, H. White, N. O'Flynn, E. Pine, A. Pine, Frank Ware.

FIFTEEN YEARS AGO

February 1916

The hockey team of the local 155th will cross sticks with the banker's team on Thursday night.

The 155th indoor baseball team defeated the High School team at the Armouries on Tuesday night by the score of 35 to 5.

30 disciples of the rolling pin and pastry board presented themselves at the Town Hall at 2.30 p.m. on Monday to receive instructions from the Government Demonstrator of the mysteries of the practical school of culinary art.

The present strength of the 155th Battalion is now about 600 men.

C. I. Ross has been appointed Financial Secretary pro tem of the local I. O. O. F. No. 179.

Easter Sunday this year will be on the 23rd of April—within 2 days of the latest date on which it is possible to occur.

Buyers Read

That prices are low and that means Bargains. Wise merchants with stocks on hand want to convert them into cash and are looking for buyers.

Newspaper advertising points the way to both ---when the buyer and seller have a message of common interests. The great news of the day and the unprecedented bargains for the thrifty. It means great savings for the buyer and a cleaning of shelves for the seller. It is time to buy and time to advertise bargains to the buyer.

ELDORADO W.M.S.

The February meeting was held at the home of Mrs. Albert Empey with 15 members present. After the opening hymn, Miss A. Holmes read the scripture lesson, "I will lift up mine eyes unto the hills from whence cometh my help." Mrs. McCarey read the devotional leaflet, "Lead us not into temptation." A poem on "An old, old book that always remains the same," was read by Mrs. M. Post, after which several present lead in prayer.

The outline of Chapter 5, "Fruit of Christian Missions in Japan," was then taken up. Some of the headings were:—The government; education, showing that in Japan, under old conditions, women had no position and no education, now 98 p.c. of the population is literate;—native religions, Confucianism, Shintoism, Buddhism; new ideas presented to Japan in commerce, industry, socialism, philosophy, theology, with the result that by 1914 the country was seething with the ideas of the Western world; what the government has done to meet these conditions; what does the future hold; what can mission schools do to help; bible study and teaching science and history in the light of Christianity. At present Christians in Japan have more influence than their numbers would lead one to expect. These points were given by Mrs. A. Empey, Mrs. Leslie Robinson, Mrs. Hinchliffe, Mrs. C. McCann and Mrs. G. Robinson.

The secretary's report as given by Mrs. L. Robinson and the report of the treasurer, Mrs. G. Robinson, were adopted.

Mrs. J. Blackburn, having kindly donated a quilt top, the members decided to hold a quilting and 25c dinner at the home of Mrs. A. Empey on February 20th. The "Day of prayer for Mission," service will be held at the same place and on the same day at 3 o'clock.

It was reported that the Mission Band, under the direction of Miss Annie Holmes, had come second in the honor list for 1931 out of 42 bands in the Presbyterian.

A splendid report from the Belleville Presbyterian recently held in Picton was given by the delegate Mrs. E. Bakely, for which she was heartily thanked.

After the social time during which refreshments were served by Mrs. Empey and assistants, a vote of thanks was tendered that hostess, Mrs. E. Bakely invited the Auxiliary to her home for the March meeting.

W. M. S. BRANCHES

MEET IN BELLEVILLE

Representatives of the Women's Missionary Societies of Kingston Presbyterian will meet in convention there today. About seventy will be present, from Stirling, Madoc, Tweed, Prince Edward County and from points between Gananoque and Trenton and as far north as Burnbrae. Sessions will be held afternoon and evening at St. Andrew's church with Mrs. George A. Reid, president of the Presbyterian, as chairman. A special visitor to the meetings will be Miss Anderson, representing the Ontario Presbyterian.

The afternoon session will be devoted to the reading of reports from the secretaries of the various departments. In the evening the meeting will open and will be addressed by Rev. Mr. Vesey, pastor of Parkdale Presbyterian church, Toronto, and at this meeting the city greetings will be conveyed by the mayor and the welcome to the Presbytery will be extended to the delegates. Election of officers will be held in the evening meeting.

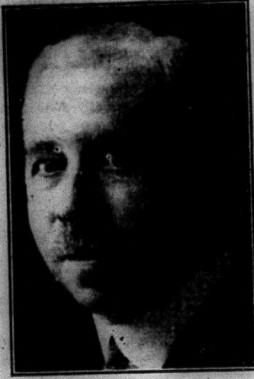

The visitors will be entertained at tea by the W.M.S. of St. Andrew's Church, following the afternoon's business. Mrs. J. A. Seynour is a vice president of the Presbyterian and Mrs. Morrice is Honorary president. Arrangements for the meeting are in charge of Mrs. A. R. Cameron, chairman of the billposting committee. Mrs. Edgar Rutherford, chairman of the registration committee, Mrs. D. L. Fleming, chairman of the entertainment committee and their assistants.

PREDATORY ANIMALS

IN THE NORTH

The measures adopted by the Department of the Interior to encourage the white and native populations of the Northwest Territories to destroy predatory animals continue to bring satisfactory results. During the past fiscal year, the number of wolf pelts at which bounty was paid (\$30 per wolf pelt being turned into the department) was 938.

A Scotchman went to a dentist and asked the cost of having a tooth extracted. "My price is \$3," said the dentist. "And how much will it cost just to loosen it a bit?" asked Sandy.

HON. J. R. COOKE IS ACTING CHAIRMAN

Toronto, Feb. 9.—Premier George S. Henry today announced the resignation of Charles A. Magrath, as chairman of the Hydro Electric Power Commission of Ontario, has been accepted. Mr. Magrath, who is seventy-one years old, has been chairman since 1925, when he succeeded the late Sir Adam Beck.

Hon. J. R. Cooke, minister without portfolio, in the Ontario Cabinet, has been appointed acting chairman.

MASONIC "AT HOME"

Stirling, Feb. 9.—The local Masonic Lodge was "At Home" to the members and invited friends on Thursday evening, Feb. 5th, and a goodly number were in attendance. Dr. E. A. Carleton was Master of Ceremonies and right well did he live up to it. Patronesses were Mesdames Walt, Carleton, Potts, Melkjohn and others.

An excellent program was put on. Mrs. Roscoe Vanderwater, of Chatterton, rendered very sweetly a couple of songs, Messrs. Way and Jones, of the News Argus staff, gave a vocal duet which was well received. Mr. J. S. Connor, of the Oak Hills, played a collection of Scottish airs on the violin. Mr. Charlie Allan delighted the audience with two piano selections and also was accompanist of the evening. Mr. J. F. Baker also delighted the audience with his humorous songs. Several gentlemen spoke briefly, Rev. Truscott, of West Huntingdon; Rev. A. N. Reid, Dr. Potts and Dr. Carleton. Among the toasts Dr. Walt proposed the toast to the ladies in a most facetious manner and Mrs. Harper Rollins fittingly replied. At the close of the program a dainty lunch was served by the ladies when a social half hour was spent; afterwards dancing was indulged in with Rosebush's Orchestra furnishing the music. For those who preferred it, cards were provided and the gathering broke up about 2.30 a.m.

NEW GOVERNOR

GENERAL PLEASED

London, Feb. 10.—"I can conceive of no greater honor than to represent the King in the Dominion of Canada, and to be recommended for that post by the Prime Minister of Canada," said the Earl of Bessborough, newly appointed Governor General in a message to the Canadian Press today.

"I look forward with utmost eagerness to the early arrival in Canada with Lady Bessborough," the Earl's message continued. "I will do all in my power to deserve the confidence of the Canadian people expressed through the Prime Minister by his commendation of me, and I will do all that lies in me to advance the interests of the people and the country of Canada." The new Governor General expects to sail next month.

DR. OBJECTS TO COASTING BY THE TOWNFOLK

Campbellford, Feb. 11.—"If I were in West's place I would not think of bringing action, but he has the right to bring his complaints to me and I have to hear them," stated Magistrate G. A. Payne, when he reserved judgment for one week in a case tried before him in Campbellford Police court Monday afternoon.

The action was brought by Dr. Simon West against James Wilson, both of Campbellford, the charge being that of violation of the municipal by-law forbidding any person to practice coasting. J. D. Lynch acted for the plaintiff and N. Alex. MacColl for the defendant.

The case arose out of a fact that on January 26, Wilson, who lives on a boundary road known as Concession, and on which the plaintiff also resides, brought home three bags of coal on a hand sleigh and drew them up the hill from the Grand Road one at a time with the assistance of his five-year-old child, coasting down the hill after the trips to give his child a ride.

MADOC HIGH SCHOOL WINS TROPHY

Continued from page 4

the second period West and Rupert combined through the Tweed team for what proved to be the winning goal. It was a nice combination play and Alex made no mistake with his shot.

Madoc continued their offensive and missed several opportunities to increase their lead. Rupert missed a sure close-in shot and Ross passed a couple across the goal-mouth but nobody was there.

In the last period, Tweed sent up their whole team and using their full quota of subs, had a better share of the period's play. But Nickle was playing fine hockey and held out every attempt to tie-up the round. Game ended 2-0 for Madoc.

Tom Beatty refereed a good game impartially. (etc.)

Puckering

The students deserve credit for the brand of hockey they have played. Playing with only one relief player, they have, by diligent practice and team-work, been able to overcome this handicap.

Practically every player has worked for the team's success, and it was due to this fact that success attended their efforts.

From goal out, there has been a decided improvement in the team's play and the forwards especially have learned one of the chief essentials in hockey, viz.—to play their positions.

During the play-offs, the teams were favoured with good refereeing, which prevented any ill feeling breaking out. The local students are grateful to Mr. J. Watson who has given his services freely, even on a moment's call, and has tried to keep out rowdiness from the school games. They were also pleased with Mr. Beatty's work in the last game.

Madoc retains possession of the memorial cup for another year. Let's hope that next year we shall have the same success and be able to beat out even the Big Bertha's of Belleville.

LOCAL AND PERSONAL

Miss Alice Wood is spending a few days in Toronto this week.

Mr. Ralph Neal, of Marmora, visited friends in Madoc recently.

Miss F. Derry, of Marmora, is the guest of Mrs. Chas. Derry, Madoc.

Mrs. George Hill, of town, has been visiting relatives in Marmora.

Miss Meribeth Smith, of Belleville, spent the week-end with her parents in town.

Mrs. Steven Hoard, of Stirling, is renewing acquaintances in town this week.

Mrs. Ira Thompson, of Calgary, spent last week visiting her brother, Mr. Irvine Delyea, Queensboro.

Mr. and Mrs. Ross Burt, also Mr. and Mrs. Pringle, of Trenton, were guests on Tuesday at the home of Mrs. Ves. Embury, of town.

Miss Mary Maynes, of the Canadian Bank of Commerce staff, Toronto, has returned to that city, having had her tonsils removed in the Belleville hospital two weeks ago.

The many friends of Mr. R. H. Wickham, who was operated on by Drs. Harper and Nickle, will be pleased to learn that he is rapidly improving.

—2 New Perfection 2 burner Coal Oil Stoves, \$8.00 each; 3 burner N. P. Coal Oil Stoves, \$10 and \$12 each; 1 only 4 burner N.P. Coal Oil Stove, \$13; your choice of Ovens for \$3 at G. A. Rollins'.

JURY CONVICTED

HOCKEY PLAYER

Kitchener, Feb. 11.—The jury at the assizes here last evening brought in a verdict of guilty manslaughter in the case of James "Lefty" Hill, well-known Twin City hockey player and athlete. Coupled with the verdict was a request that the court exercise whatever clemency it could in the case.

Mr. Justice Wright deferred sentence until the end of the other cases, and assured the jurymen that he would give their request for clemency every possible consideration.

His Lordship concurred in the jury's verdict which was an eminently proper one on the evidence, he said. He added that crimes of such a nature were common, and that unless juries and the courts set their faces against that kind of offence human life would not be held in any high regard.

Hill was the driver of a motor car bound for Preston which, six miles south of Kitchener about midnight on June 21 last, struck and killed a motor cyclist, William Aberhardt, of Hamilton, 21 years, who was going in the opposite direction.

The jury at the assizes last Fall "hunground" and a second trial was necessary.

ELDORADO

Sorry to hear of Mr. Alex Nickle, of Marmora, being confined to his bed with sickness.

Mrs. Wm.D. Nickle, of Malone, has been confined to the house with sickness, under the care of her son, Dr. Nickle.

Mrs. Charlie McCann and family have been on the sick list.

Miss Mildred Gawley has returned to her school again after a week's sickness.

Mrs. Arthur Holland is on the sick list.

Mr. and Mrs. Dan and Mr. and Mrs. Wm. Brownson and son, Harry, are moving away from Eldorado and Mr. Whit Carman is moving on Mr. Brownson's farm.

The hydro men are busy drawing steel for their towers.

Mr. and Mrs. Jack Trotter were Sunday guests of Mr. and Mrs. Alex Gordon.

Mr. Arch Andrews is the guest of his daughter, Mrs. Alex Gordon. Sorry to hear of Mr. and Mrs. Sam Rollins, of Madoc, being confined to the house with sickness.

Mr. and Mrs. Finley Shaw are on the sick list.

Mr. and Mrs. Hedley Shaw were the Sunday guests of Mr. and Mrs. Wm. Brownson.

The roads are in bad shape. Three cars got stuck in the snow going up the hill at Mr. Holmes' on Sunday.

Sorry to hear Mr. Ken Bateman's little boy having an operation.

Miss Eve Chambers was the weekend visitor of Miss Freda McCann.

Misses Iva and Bernice McCann were the guests of Mr. Gordon Bateman one day last week.

Mr. Kenneth Holmes was the guest of his grandfather, Mr. Wm. Holmes. Mr. Harold Holmes, of Oshawa, has returned home to his grandfather's, Mr. Lewis Brownson's.

Messrs. Leonard Cook and Gordon Bateman were the guests of Mr. Wm. Andrews on Sunday evening.

The play in the Orange Hall was a good success.

Mr. John McCann, of Marmora, was the guest of his brother, Mr. Charlie McCann.

Mr. Avery has opened a gold mine on Mr. Finley Shaw's property and has a gang of men busy working at it at now.

Mr. Eddie Robinson lost a valuable horse one day last week, got struck by the train at Malone.

Mr. and Mrs. Billie Gawley and family, of Malone, were Sunday guests of Mr. and Mrs. Charlie McCann.

Mr. Jim Nickle spent the tea hour with Mr. and Mrs. C. McCann.

Quite a few from the Union attended the play at the Hall on Wednesday night.

The people of Eldorado were sorry to hear of Mrs. Geo. Fox, of Burrs, Prince Edward County, falling down cellar. Mr. and Mrs. Fox used to live in Eldorado.

Mr. and Mrs. G. D. Gordon were the guests of their daughter on Sunday, Mrs. Finley Shaw.

COMMISSIONER REFUSES

TO BE SILENCED

London, Feb. 11.—"The moment I have to keep silence about the British Empire, that moment will my resignation be received by the Canadian Government," declared Hon. G. Howard Ferguson, High Commissioner for Canada in London, and former premier to the Province of Ontario, last night, when he was a guest of honor at a dinner of the Canada Club.

"But for the time I remain in London," continued the new High Commissioner, "I hope, not only to proclaim my faith but, if it is necessary, to proselytize any doubting Thomases."

The dinner to Mr. Ferguson was attended by Rt. Hon. J. H. Thomas, Secretary of State for the Dominions, by the Lord Mayor, Sir Phene Neale; Sir Godfrey Thomas, private secretary to the Prince of Wales; the Earl of Strathford, Lord Lloyd, Lord Trenchard and many other notables. It was an event noted for the mingling of easy jocularities and seriousness. Sir George McLaren Brown presided.

A message of the warmest welcome to Mr. Ferguson was read from the Duke of Connaught, a former governor-general of Canada, who is now on the continent. Cables were also received from Prime Minister R. B. Bennett, of Canada; E. W. Beatty, president of the Canadian Pacific Railway and from Sir William Clark, British High Commissioner in Canada.

BEAR IN MIND—The proven fact that only the best quality can stand the light of continuous advertising. The progressive business concerns of Madoc who advertise regularly in the columns of the Review understand your needs and they always endeavor to be just, honest, fair and courteous.

CELEBRATES BIRTHDAY

Miss Alice Harris, matron of the Children's Shelter, had a pleasant surprise Friday evening when twenty five of her friends and relatives gathered to honor her on the occasion of her birthday. They spent a pleasant evening and a lovely supper, the feature of which was a birthday cake, was served by the staff. Miss Harris was the recipient of many gifts and cards. Among the guests present were Mrs. Jas. Harris, of Bannockburn, and Miss Harris' sisters, Mrs. S. Pollard, Toronto; Mrs. T. Nicol, of Madoc; also Mr. and Mrs. W. Best, of Frankford.

HOCKEY PLAYERS

TRAVEL BY PLANE

North Bay, Ont., Feb. 11.—Hockey players in the north are modernistic to say the least. While big league players continue to travel by rail, a party of fifty players and enthusiasts recently flew by plane from Amos to Noranda, Que., for the sole purpose of staging a league tilt. Ten dollars each is the fare and the boys say it's cheaper than rail with its resultant hotel bills and the loss of a day's pay.

STRANGE DEATH

OF MAN PROBED

Lindsay, Ont., Feb. 4.—Found by teamsters, unconscious and half frozen, Alex Black, a 65 years old resident of Victoria Road, died while being removed to the farmhouse early yesterday. Black, who was believed to have been walking home from Kinnmount, where he had been employed, was found lying on the road face downward. Coroner E.A. White of Fenelon Falls, is now on his way to investigate.

The village of Colborne is to have permanent waterworks. The by-law for this improvement was carried by a majority of eight. A similar by-law was defeated last year.

NOTICE TO CREDITORS

In the estate of John Birrell. Creditors and others having claims against the estate of John Birrell, farmer, who died at the Township of Tudor, in the County of Hastings on the 29th day of December, 1930, are notified to send to the undersigned solicitor for John J. O'Rourke, the administrator of his estate, before the 28th day of February, 1931, particulars of their claim in writing verified by statutory declaration, after which last date he will distribute the estate amongst the persons entitled thereto, having regard only to the claims of which he has then notice, and he shall not be liable for any part of the estate so distributed to any person of whose claim he had not notice at the time of such distribution.

Dated at Madoc this 12th day of February, 1931.

Geo. S. White, Madoc, Ontario, Solicitor for John J. O'Rourke, Administrator. 6-3

KIDNAPPED BY GANG; BURIED IN OPEN GRAVE

Chicago, Feb. 4.—Acting on information given them by George Whittbrod, 34, whom they found in a coffin like box on a lonely road early today, police arrested seven youths for questioning on charges of kidnapping Whittbrod, torturing him and leaving him in an open grave. They refused to explain the references to Whittbrod as a stool pigeon. Whittbrod, whose left hand is crippled, said he was taken in an auto to the cemetery where he lost consciousness and when he regained his senses he was tied to a stone cross. Dirt was thrown at him and he was later gagged and placed in a box and the lid nailed down.

MOTHER SAVED

HER BOY'S LIFE

Simcoe, Feb. 11.—To the timely intervention of his mother, 10-year-old George Pullen owes his life. While skating on the ice over River Lynn at the end of Kent street last evening, the lad broke through into the water and remained there for a considerable time until his mother, Mrs. Norman Pullen, heard his screams. Hurrying to the river she saw the lad striving to retain his hold on the slippery ice. He was almost unconscious when pulled out. She herself fell in and suffered cuts about the face and arms. The boy was revived and today is little the worse for his experience.

ELDORADO CHARGE

Rev. I. N. Beckstead, Minister

Sunday, February 15, 1931

Union 11 a.m.—Public Worship. Eldorado—Public Worship 2.30 Cooper 7 p.m.—Public Service.

Y. P. S., Eldorado, Friday at 7.30 p.m. Debate, "Resolved that city depends more upon the country than the country upon the city."

Service at Bannockburn Wednesday, February 18th, at 7.30 p.m.

ST. PETER'S PRESBYTERIAN CHURCH

Minister, Rev. T. G. Marshall

Sunday, February 15, 1931

10 a.m.—Sunday School and Bible Class.

11 a.m.—Morning Worship. Subject, "Faithful or slothful."

3 p.m. Service at Tweed.

6.50 p.m. Song Service.

7 p.m.—Public Worship. Subject: "When should we show mercy."

Cottage Prayer meeting next week.

TRINITY UNITED CHURCH

Minister, Rev. G. W. Rivers

Sunday, February 15, 1931

10 a.m. Sunday School and Bible class.

11 a.m. Morning Worship, subject: "Drastic Operations."

7 p.m.—Public Worship. Subject: "The story of a hymn."

IT'S WORTH COMING MILES TO SEE!
Something new—different—a treat for the whole family

BELLEVILLE ARENA, Belleville
Monday, February 16

One night only—7.30 p.m.
3—hours of novelties and surprises—3

WHIRLWIND SENIOR AND JUNIOR SPEED EVENTS
Representatives from Belleville and every community in the district participating.

Beautiful Costume Parade—\$150.00 in Prizes.
Announcement Extraordinary!
Direct from International triumphs!

DAINTY CONSTANCE WILSON
(North American champion, singles and doubles)
and her ballet of delectable girlhood in a sensational exhibition of skilful skating and daring acrobatics.

TUG OF WAR ON THE ICE
Kiwans vs. Iron Men
Laugh? Who could help it?

HOCKEY AS PLAYED IN BORNEO
A real laugh treat for every hockey fan.

Prices (Tax Incl.) Adults 50c, Children 25c. Seats not reserved.

Tickets now on sale daily from 9 a.m. to 5 p.m. at the office of Modern Cleaners, Front St., just below Bridge St.

NEWS AND INFORMATION
FOR THE BUSY FARMER

Where Profits Begin

If your hens lay 81 eggs a year or more you should be able to show a profit. A ten-year average of the cost of feeding laying hens shows that the yearly expenditure is \$2.43 per hen. With eggs selling at 35c a dozen it takes 6.95 dozen or 81 eggs to pay for the hen's keep. Eggs laid in excess of that number are profit.

Plenty of Alfalfa Seed

Sixty thousand bushels of home-grown alfalfa are available for distribution in Ontario this year, according to Professor W. J. Squirrell of O.A.C. He points out that the normal requirements are about 30,000 bushels, but hopes that all this seed, barring that intentionally held over, will be used, because of its cheapness (about half the price of last year), the shortage of home-grown red clover, and the necessity for re-seeding many meadows killed out by drought last summer.

Profit Factors Important

J. E. Whitlock, assistant director of agricultural representatives, was the speaker at the banquet concluding the short course in home economics and agriculture at Shelburne, in Dufferin County. In a thought-provoking address, he asked the question: "Just how good farmers are we?" and went on to explain how the average yield of barley was 45 bushels in Denmark and only 30 in Ontario. The average Danish farmer, he pointed out, secured 100 lbs. of gain in his hogs for 400 lbs. of feed, while in Ontario it usually required over 500 lbs. of feed. The conclusion was that every detail of the factors influencing profits on the farm must be heeded.

Needs of Agriculture

In addressing the London City-county dinner of the Chamber of Commerce, Hon. Thomas L. Kennedy stressed three main needs for agriculture in Ontario today:

- 1st—The need of growing quality products; second-rate products have little market in these days of keen competition.
- 2nd—Better grading of products, so that Canadian products will be known always as A1 in foreign markets.
- 3rd—Adoption of modern marketing methods to meet a changing world. The Minister quoted facts, figures and statistics to show the need of progress along all three lines. The Department has done much in this direction and under the present regime it is prepared to do more.

British Apple Market

An unusually keen demand for barreled apples is forecast by Andrew Fulton, overseas representative of the Ontario Fruit Growers' Association. The demand on the British market from now on, he says, should be for both well-colored dessert apples and for good quality cookers. From all accounts, barreled supplies are somewhat limited, he continues, recent reports showing that the storage holdings of barreled apples in Canada and the United States are about ten per cent. less than last year. This, along with the increased demand on the continental markets for barreled stock is bound to leave a limited supply for the United Kingdom. An important point for packers to remember, however, declares Mr. Fulton, is to have stencilled on the outside of the barrel the net weight of the contents. Strangely enough this seems to be an item strongly desired by the European buyer and will facilitate sales when done to a marked degree.

Soils and Crops Train

On February 10 at Oldcastle, in Essex County, the Department's special Soils and Crops Train started out to carry the latest information to farmers of Southwestern Ontario. Fifty-nine stops will be made during the tour, which will take the train through Essex, Kent, Elgin, Norfolk, Lambton, Middlesex, Oxford, Brant and Haldimand Counties, with one stop in each of Perth and Wentworth. The train consists of a soils car, a crops car, a car for lecture purposes and a car for the staff, which will consist of specialists on all the many phases of farming connected with specialty crop production and treatment of soils. Interesting exhibits have been arranged by O.A.C. Departments which graphically explain the best practices in crop production and soil management. In addition daily lectures are being given by specialists on the staff. Although primarily for farmers, classes of school children will be invited to attend and escorts will show them through the train and explain the exhibits to them. Last year in Eastern Ontario a similar train proved a tremendous success and carried valuable information to thousands of farmers. A repetition of

that success is expected in the case of this tour which will continue until March 27th. Incidentally the Department is indebted to the railways for their co-operation in transporting the four cars over their lines free of charge.

Care in Selecting Hens

Hens should be in production three weeks before starting to save the eggs for hatching. Often electric lights are used to start the birds laying in February for March hatching eggs. If not used to provide longer than a 12-hour day, lights will not injure a bird's ability to produce hatchable eggs throughout the spring. In the selection of hens be sure they have vigour and nervous energy above all else. A hen that has a high egg record back of her, but was herself physically wrecked in making that record, is worthless as a breeder. Keep in mind that the laying record, in this respect, tells of only her production and not of her vigour.

Dairy Cattle Rations

Continuing from last week the discussion of rations for dairy cattle the following is recommended where no silage or roots are available: Alfalfa or clover hay, 1½ lbs. to 2 lbs. to every 100 lbs. live weight. Concentrates—200 lbs. oats, 200 lbs. bran, 100 lbs. barley, 150 lbs. oil cake. Alternative concentrates in this case are: 150 lbs. oats, 100 lbs. bran, 100 lbs. gluten feed, 50 lbs. oil cake. Where lower grades of hay are used the proportion should be 1½ to 2 lbs. to every 100 lbs. live weight, with the following concentrates: 200 lbs. oats, 200 lbs. bran, 100 lbs. gluten feed, 250 lbs. oil cake. Alternative concentrates here are: 100 lbs. oats, 100 lbs. bran, 100 lbs. oil cake, 100 lbs. gluten feed; or 100 lbs. oats, 100 lbs. bran, 100 lbs. oil cake; or 200 lbs. oats and 100 lbs. oil cake. Note—Feed 1 lb. concentrates to 4 lbs. milk. Corn or wheat may be used in place of barley in any of the above rations.

Marshes Produce Wealth

Extraordinary success had attended the plan of draining and reclaiming the Holland marshes near Bradford under the supervision of W. H. Day, former professor at O. A. C. In 1930 a total of 37 acres in this area yielded a return of \$26,000. The harvest made a total of 50 carloads and included parsnips, carrots, onions, celery and lettuce. The average yield per acre was \$702, which leads Mr. Day to say: "Compare this with your high land crops. With wheat at 70c a bushel it would require a yield of 1000 bushels per acre to equal our average marsh returns. Individual pieces have done much better than the average. One acre of lettuce yielded \$1400; one-seventh acre of celery nearly \$500 and 6½ acres celery \$10,412." Only a small portion of the marshes have yet been drained. They consist of low, very rich soil, only a few feet above the level of Lake Simcoe. Mr. Day has proved that a considerable area can be drained and put under agricultural production. Of still greater importance than the prolific yields is the length of the season, head lettuce from there coming on the market every day from mid-July to mid-October.

AWAKENED IN
BURNING HOME

Waking from sleep about five-thirty o'clock Saturday morning, Mrs. J. Ernest Kerr, 294 Bleeker Avenue, Belleville, found the house full of smoke and had just time to assemble her four children together, one of them an infant, and hurry out with them in their night attire and bare feet to the neighbour next door, Mrs. F. A. Pinkston. Had the blaze not been discovered when it was it is doubtful if they would have escaped for the density of the smoke was such that life within would have been impossible and the partition under the stairway was burning. Damage of one thousand dollars or fifteen hundred dollars was done to the house and furnishings. In the basement the family dog was smothered with the smoke.

Mr. Kerr, an engineer of the Canadian National Railways, was on a run at Brockville at the time and was hurriedly called by telephone to hasten home, arriving there on the first train. Most of the damage was caused to the building by fire and the necessary tearing through of the partitions to get at the seat of the blaze which had eaten its way up three partitions to the top of the house though it did not break through the roof.

The money you will save by reading the ads of local merchants in the *North Hastings Review* will pay the subscription price of this paper many times over.

THANKFUL

The attached poem by Edna Jacques seems appropriate at this time. Miss Jacques is a Canadian girl, living at Moose Jaw, Saskatchewan. Naught to be thankful for, did you say.

As you sat by the old garage today. The crops are poor and the cattle thin.

And the spuds are not what they might have been. And there isn't much you can sell this year.

You're going to be very hard up you fear. Well, what if you are, why man alive,

If you have to struggle and skimp and strive, And pinch a dollar until it hurts,

For winter woollens and shoes and shirts. We've all been over the trail before,

And poverty's often knocked at the door. It won't hurt you a bit, old man, you know,

If you have to put the gears in low. When the crops were good and the prices high,

Say, didn't we soar and spend and fly. The sky was the limit, we took the air,

And blew our crops like a millionaire. But there's always a time when we have to pay,

And the bills pile up for a rainy day. And you start to think where you might have stood,

If you'd kept your head when the crops were good. But cars cost money, and trips, Oh say,

The dough has a habit of melting away. And what crops we had in our country-side,

When the wheat threshed out like a golden tide. And the gods of harvest with lavish hand,

Scattered his riches across the land. When the wheat poured out on the granary floor,

And there wasn't room for a bushel more. But let's forget what we might have done,

There'll be more harvests and rain and sun. And let's be decent and take the blame,

And be sports enough to play the game. And let's come down to earth and stay,

And get a grip on the things that pay.

OBITUARY

HUGH COULTER

Hugh Coulter, one of the most widely known of County of Hastings agriculturalists, died on Wednesday night at the home of Mrs. Chapman's, in his eighty-sixth year. He was in failing health for some years and his death was not unexpected. He is survived by his widow, three sons and two daughters, the sons being Addison, of Sidney Township, Samuel G., of Hungerford and Harry residing on the homestead in Hungerford and the daughters, Mrs. Fred Blakely, of Hungerford; and Mrs. A. C. Porter, of Huntingdon.

The late Mr. Coulter was one of the farmer class who made his influence felt in the way of good farming. He was progressive in his attitude on agriculture and he was a believer in farming as an industry. In politics he was a Conservative and in religious persuasion a member of the United Church. Socially he was held in the highest esteem by a large circle of friends in all parts of the Bay of Quinte district.

The funeral took place on Friday to Bethel church, Hungerford, and burial was made in the cemetery at Thomasburg.

MRS. CHARLES KELLER

After an illness of about a month, Mrs. Charles Keller, for many years a highly esteemed resident of Healey Falls, passed away at the family residence on Friday morning last. The deceased lady, who before her marriage was Florence Alfretha Hoard, was in her sixtieth year, was born near Oak Lake and spent her early years in that vicinity. About thirty-nine years ago she was married to Mr. Charles Keller, of Healey Falls, where they have since resided.

She is survived by her husband, three daughters, Mrs. Harry Abernethy (Ruth), Miss Grace Keller, at home, Mrs. Norris Loucks (Olive), East Seymour, and two sons, Sanford, of Campbellford, and Augustus, of Ottawa.

The funeral took place on Sunday afternoon, service being conducted in the home and at the graveside by Rev. R. Sedore, pastor of the Free Methodist church, of which deceased was a member. The pall-bearers were two nephews, Mr. Stanley Keller and Wm. Chase, two sons-in-law, Norris Loucks and Harry Abernethy.

FEWER CANADIANS
GO TO UNITED STATES

Ottawa, Feb. 9—Reports received here indicate that only 603 non-quota visas were issued for entry to United States in December, 1930 (which figure includes unmarried minor children, the wives of husbands of American citizens married prior to June 1st, 1928, as well as certain professors, ministers, students and previous lawful residents of the United States who would not be chargeable to the quota if there were a quota for Canada) as compared with 2,109 visas issued during the same month in 1929, which represents a reduction in visas issued during this period of 71 per cent. The 603 non quota visas issued in Canada in December show reduction of 205 visas issued when compared with 808 of November, 1930.

FIRE TRUCK AND BUS
IN PETERBORO CRASH

Peterboro, Feb. 8—Proceeding to the fire last night at the Mount St. Joseph Convent, the pumper of the Peterboro Fire Department collided at an intersection with the Peterboro Sunday bus, which was leaving the city. The bus was carrying eight passengers, and, although it was badly damaged, none of the occupants were seriously injured, and only two received bad cuts. Six firemen were riding on the bumper which crashed into a large Hydro pole after striking the bus, but none were badly hurt. The fire at the Mount proved to be only of a minor nature, and was easily put under control.

and two sons, Sanford and Augustus Keller.

The remains were laid to rest in the Keller family plot at Healey Falls.

R. J. McLAUGHLIN

Belleville, Feb. 8—Robert John McLaughlin, one of the prominent cheesemakers of Ontario, having held the three silver cups emblematic of the Provincial championship, died at his home at Wallbridge today after a two-year illness. Mr. McLaughlin, who was in his fifty-fifth year, was born in the north of Ireland, but came to Canada at an early age, settling in Eastern Ontario. He made cheese in Wallbridge and Sidney factories for the past ten years. He was an officer of the Eastern Ontario Dairy Association and the Cheesemakers' Association. He was a member of the Masonic Order and the United Church. The late Mr. McLaughlin leaves a widow and one daughter, Mrs. W. E. Otto, of Colborne, Ont. One sister, Mrs. Mason Backstead, lives at Aultsville, Ont., while the five brothers remaining are: Davis, Chesterfield, Jacob, Morewood, Ont.; Henry and James of Ogdensburg; and William of Finch.

SILVER FOX, MUSKRAT
AND MINK

Ten years ago the total value of fur-bearing animals on fur farms in Canada was placed at \$4,723,105. The industry today represents a capital investment of practically four times as much as in 1920. As one might expect the silver fox heads the list with a capital investment of \$14,922,378—an increase of \$10,400,000 over 1920. The next on the list is muskrat, with an investment of \$562,749, and the third mink with \$328,928 invested.

MICE MAKE MINCEMEAT
OF SAVINGS CERTIFICATE

Edmonton, Feb. 8—Mouse nests are the latest novelty at the offices of the Provincial Treasury. To Deputy Treasurer W. V. Newson has come by mail a Provincial Savings certificate much the worse for wear, having been until recently the lining of an Alberta mouse home on the premises of an Alberta farm. With it comes a request: "Will Mr. Newson please see what he can do about tracing and redeeming that very badly used certificate?" Mr. Newson is going to try. It is not likely to be an easy matter, however, for the certificate is in mincemeat form.

CALENDAR REFORM
NOT URGENT MATTER

Ottawa, Feb. 9—If his remarks to delegates of the Trades and Labor Congress are prophetic, there is little likelihood of calendar "reform" while Premier Bennett is in office.

For many years an agitation has been carried on in favor of the thirteen month year. "Our successors in the next century may want a thirteen month year," said Mr. Bennett in setting the matter aside as of no urgency.

SARGENT COMPANY
ANNOUNCES MERGER

New Haven, Conn., Feb. 4.—Sargent and Company yesterday announced its merger with the Belleville Hardware and Lock Manufacturing Company, Limited, of Belleville, Ont.

No changes in the personnel of either concern are planned, it was said, and the new Canadian company will now be known as Belleville-Sargent and Company, Limited.

With a vote of 55 to 6, the merchants of Campbellford decided to change the half holiday and open night for 1931, following agitation which has been going on for some time. The petition calls for the Wednesday of each week being the open night with a half holiday on Thursday.

New names are being added to our mailing list from time to time. If your name isn't there it should be.

OBITUARY

EDNA HARRIET THOMAS

There was laid to rest on Monday, February the second in Wellington Cemetery Vault, the remains of Edna Reid Thomas, young wife of Edna Thomas. Tragic indeed was the death of this twenty-five year old girl, following a prolonged and wasting illness. Her home was in Rochester and she and her husband had lived in that city three years. Last spring after she became ill she was brought home to Wellington and it was then thought advisable for her to go to Weston Sanitarium where she remained for five months. Five weeks ago she again was brought to Wellington where she lingered until Saturday at the home of Mr. and Mrs. Sylvester Thomas.

The deceased was born in Marmora Township and lived for a time in Marmora. She was the second daughter of Mr. James Reid and the late Mrs. Reid. Eight years ago the family moved to Wellington and later after her marriage, Mrs. Thomas went to Rochester to reside.

Besides her sorrowing husband she leaves her father, two sisters and three brothers, Mrs. Kenneth Wallbridge, of Cobourg, Burnett Reid, of Bloomfield, Richard, of Joplin, Missouri, Mrs. Victor Willis, of Belleville, and John, of Cobourg.

The funeral service was held from the residence of Mr. Sylvester Thomas and was conducted by Rev. W. J. H. Smyth. Sorrowing relatives and friends were present or had sent beautiful floral tributes as a memorial to the promising young life that had been cut off.

The bearers were Messrs. Colin Lane, Harold Nash, Edward Bailey, Warden Sanders, George Dorland, Godfrey Upton.—Picton Gazette.

DON'T BE A FAULT-FINDER

Because you are able to point out real faults and shortcomings in the life of your friend or neighbor, that is no proof that you are profitably or helpfully engaged when you are doing so. It may be, for instance, that he knows as much about them as you do, and is even more concerned for their elimination or improvement than you can possibly be. For instance we have found that the man who spends a great deal of his time criticising the morals or manners of others, is almost sure to neglect his own to some extent. At best that is the only explanation we have been able to find for the well-known fact that most strenuous and persistent fault-finders usually have as many and as serious faults as ordinary people, with a few added. We have about concluded that to find fault with other people helpfully, and without neglecting ourselves or getting into the habit of a fault-finder, is one of the hardest things for any man to do.

"HELLO, MOTHER,
I'm O.K."

"Hello mother — yes, I'm feeling fine — yes, we won ... I scored two goals."

It has come to be a habit with Fred to call his mother by Long Distance after every game. For mother is all alone ... and she worries about him ... ever since Fred's chum had his leg broken in a game early in the season.

The cost is a mere trifle, for the low night rates are always in effect after the game — they begin at 8.30 p.m. And it makes a pleasant break in mother's quiet life ... and gives her some news to tell her friends. Long Distance is now quick and dependable. In most cases the connection is established while you hold the line. Evening and night rates are particularly inexpensive. In fact night rates are little more than half of the day rates.

Evening rates on "Any-one" (station-to-station) calls begin at 7 p.m. Night rates begin at 8.30 p.m.

CHEESE INDUSTRY RELATIONSHIP TO GOOD DAIRYING

By L. A. Zufelt, Supt. Eastern Dairy School, Kingston.)

Many persons at this time are asking the question, "What is wrong with the dairying industry and where are we heading?" This is a very timely attitude but one that should have been taken years ago, before we reached the critical condition we are now experiencing. Before the advent of cheese making, when the milk was manufactured into butter on the farms and after the loss of the American market for barley, sheep, cattle and other farm commodities, agriculture was in a bad way and many farms were covered with a heavy blanket of debt and mortgages. After the cheese factories became established, conditions improved, debts and mortgages were paid off and agriculture again became prosperous. A market for cheese was established in Great Britain which had every promise of being permanent and profitable. This was when we made our first great mistake. A demand for milk for domestic and other uses developed but instead of increasing our production of milk to take care of this extra demand, the dairymen began to withdraw their milk from the cheese factory to supply this other demand, for prices which apparently seemed more attractive. There finally developed a wild scramble for any kind of a market that would take milk at values which promised to be higher than those to be obtained at the cheese factory, whether these markets held any degree of permanency or not. The results which followed were bound to come. Cheese factory after cheese factory was closed up. Many of those remaining became so small as to be unprofitable. Costs of manufacture increased. The permanency of the cheese industry became threatened. No one wished to invest in a plant for they had no insurance of a permanent patronage. The whole affect was demoralizing. The worst feature of the whole business was, that our export of cheese to Great Britain fell off rapidly and whereas we formerly supplied them with from 60 to 75 p.c. of their total imports, we are today, according to the report of the Empire Marketing Branch of Great Britain, supplying them with less than 22 p.c.

A market is a most valuable asset for any business. When a market has been obtained, especially a market which will absorb all and more than we can produce at profitable prices and one also which recognizes quality, should not lightly be thrown away or allowed to slip through the fingers. Would any shrewd business man think for a moment of withdrawing goods from a profitable and permanent market, thus leaving this market open to competitors, to supply a smaller and perhaps only a temporary market, for only a portion of his output, even at enhanced values? No, he would not, but on the contrary he would increase his output to meet this new demand and still keep up his usual supply to his regular and established market. Thus by increasing his output to meet this extra demand, he would reduce costs and increase profits. What we have been doing in the dairy business has been exactly the opposite. Our plants have become smaller, costs have increased and profits have become less, and in addition we have become less and less a contender on the British Market.

Any manufacturing business to become successful must have both quality and quantity. Quality alone is not sufficient. The smaller the output the greater the costs of manufacture and distribution and in many cases this extra cost absorbs the extra price received, due to quality. No business will ever play a very important part in the welfare of a Nation, unless that business has volume and becomes a real factor in the market. A business that supplies only 22 p.c. of a market's requirements does not exert as much influence as it would, if it supplied from 60 to 70 p.c. and because it was less of a contending force would actually pay less to the producer than it otherwise would. What then will happen if we allow our cheese exports to dwindle still more? The answer is obvious.

The cheese industry together with the butter industry forms the foundation of successful agriculture and these two industries determine largely the price paid for milk for all other purposes. Any person or corporation desiring milk for any purpose other than the production of cheese or butter, never bases the price offered on the value to be obtained from this milk but on what the milk is worth for cheese or butter production plus a small premium. If the price of cheese and butter goes up, the price of milk for all other

purposes goes up and when the price of these basic commodities goes down, then the price of milk for these other purposes goes down likewise. The production of milk for all and any purpose is prosperous and profitable as the production of milk for cheese and butter is prosperous. Therefore, anything which injuriously affects the prosperity of either of these two basic industries, automatically reacts on all branches of dairying.

A further reduction in our output of cheese would be a retrograde movement and injuriously affect our whole structure. The cheese industry saved agriculture when depression was stalking the land years ago and cheese making will again have to come to the rescue.

According to the British Market report for the year 1930, the imports of cheese from: Canada amounted to 22 p.c., whilst New Zealand, our chief competitor, supplied 63 p.c. It is true we are getting a small premium on our cheese over that paid for New Zealand, due altogether to the superior quality of our goods, but will we continue this higher price if we allow our volume to continue to fall off? On the other hand, if we can materially increase our exports will there not be a much greater difference in price, which difference will widen and as our volume increases, to the point where we are supplying Great Britain with the major portion of her cheese requirements?

Let us consider for a moment just how volume affects price. According to the British market report covering a period of eleven months, ending November 1930, imports of butter from New Zealand amounted to 1,388,948 cwt. (112 lbs.) whilst imports from Denmark for the same period amounted to 2,114,134 cwt., a difference of over 725,000 cwt., or over 50 p.c. greater. Now examine the market quotations given in the same report. New Zealand is quoted at 108 shillings and Danish butter at 140, quite a considerable difference, and not due altogether to a difference in quality, as we are told by those who are in a position to know, that the quality of New Zealand butter approaches very closely that of Danish. Examining reports for five or six months previous, we find the same price difference running all the way from 20 to 42 shillings per cwt. We are forced to but one conclusion, viz., that volume, all other things being equal, is a DETERMINING factor in price spread, as between contenders for any market, and when one contender has, in addition to volume, superior quality, then its position is practically unassailable.

Some have said that it would be folly for Canada to produce more cheese, as Great Britain was already fully supplied. If we do not produce more cheese, how is dairying going to expand? We are now consuming all the fluid milk for domestic use that we can and until our population materially increases we have about reached the limit of absorption. What are we going to do with the surplus if we do not put it into cheese? Some may say that the butter industry will stand further expansion and that our surplus milk may be converted into butter. Let us see just how much the butter industry may be expanded and if there may not be a limit beyond which it would be unprofitable for us to go. At present we are supplying our domestic requirements up to between 75 and 85 p.c. If we should increase our volume of butter to the point where our domestic market was fully supplied and there was even a small surplus over, what would happen? The price of butter would be controlled by the price received for this surplus, and as Great Britain is the only country to whom we could sell this surplus, it naturally follows that the price of all our butter would be controlled by the British market. Supposing we had a surplus of butter at the present time and could dispose of it on the British Market at the same price as is paid for New Zealand butter, how would we stand? New Zealand butter is quoted at about 23 to 24c whilst our butter is selling here at 30c. Then in addition we would have to put up a fight for a place in the Sun instead of having only one competitor, as is the case with cheese, we would have a dozen who have already established themselves in this market, all of whom make a quality, if not superior, at least equal to our own.

In my opinion it would be a calamity for Canada to materially increase her production of butter, especially to the point where a surplus would result. The best market is a market that is always a little short and never over supplied. Why should we destroy our home market for butter when we have an almost unlimited outlet for all the cheese we can produce, at prices considerably higher than can, and has been obtained

GEESSE WINTER IN NOVA SCOTIA

Halifax, N. S., Feb. 7.—Wild geese from the north are again in their winter quarters in the secluded harbors of Port Joli and Port Le Herbert at the border of Queen's and Shelburne counties. Describing his observations of the habits and movements of these creatures of the flying wedge, Robie W. Tufts, provincial migratory bird officer, writes that "It was not until within the last decade that I discovered that the haven for which these flocks were heading was actually within the confines of our own province, and at that time only a relatively small percentage of the people of Nova Scotia knew it."

Passing over the province in late autumn, the limits of the route taken by the geese are not definite, but the usual belt is between Windsor and Annapolis. "Every year since I can remember," says Mr. Tufts, "the wild geese have flown over Wolfville in the autumn, always heading southwest in long wavering lines or in perfect V-formation. Their weird and musical honking could be heard when they were far off, and they were always a cause of wonderment to all who saw them passing with slow wingbeat, yet moving onward with amazing swiftness."

At Port Joli and Port Le Herbert, where the shoal water prevents shipping activities, the birds find shelter and food to their liking in the eel grass which covers thickly the harbor beds. When the temperature falls, ice forms along the shore when the tide is in, forming a shell which often seriously encroaches on the feeding grounds. At such times competition for food is very keen.

The two harbors are separated by a long headland, over which the birds fly a distance of six or seven miles when changing grounds. These waters have been a bird sanctuary for some years, but the law provides that shooting from the shore may take place during the open season. The main shooting is done as the birds fly from one harbor to the other over what are known as the Goose Hills, where a number of hunters' cabins are located.

Local opinion as to the number of geese which comprise this winter colony vary, but a conservative estimate arrived at after observing the flocks through high powered binoculars places the number at approximately 20,000.

The Northern Bald Eagle, rare in Nova Scotia, is never absent from the Port Joli district when the geese are there. Every winter a dozen or more of these creatures, with a wingspread of seven or eight feet, haunt the woods which encircle the harbors, to prey on wounded geese.

About the middle of March there is a stir in the flock. Some morning when a drizzling rain has succeeded the nip of frost, a small flock, perhaps a hundred or less, detaches itself from the main army, to rise in ragged formation from the water, and circle many times over the harbor, calling excitedly as though to induce others to join. Finally the vanguard swings off. Hour after hour this pageant of leave-taking continues, until at the end of two weeks, practically all have departed on the long flight north.

CANADIAN INDIA FARMERS

Under the tutelage of the Department of Indian Affairs the prairie Indian has now become a successful agriculturalist. The official records for 1928 show that 65,104 acres in the Prairie Provinces alone were sown to grain from which 1,129,736 bushels were garnered. In addition 971 acres were planted to root crops from which 61,418 bushels were harvested and 87,766 tons of hay and other fodder were produced.

from butter?

The cheese industry will stand expansion much more successfully than will butter. In cheese at present, we have but one competitor, New Zealand. We have a reputation for quality built up by long years of hard work, much superior to that of any other country in the world. Why not capitalize on this reputation by increasing our output? Surely a market which is supplied by us with only 22 p.c. of its imports and with 63 p.c. of a much inferior quality, offers opportunities for expansion that should not lightly be dismissed.

The cheese industry is our one best bet and offers the only sure way out. What we need to do is to increase materially our production of milk for cheese manufacture and then maintain and improve, wherever possible, the quality. It may mean a strenuous fight for a few years, but with red blood in their veins would quietly step aside and allow our competitors a clear field. Surely Canadians are built of sterner stuff.

FALL FAIRS

William J. Hill, of Madoc Agricultural Society and President of the Central Ontario Fairs Association, made an outspoken attack on certain phases of entertainment at the fall fairs of Ontario before members of the Ontario Fairs Association.

Mr. Hill's attack on the fair entertainment such as carnivals and circuses was determined. "The mighty dollar," said Mr. Hill, "is responsible for the fair boards allowing the control of the grounds to some one who calls himself a carnival or circus. Control your grounds. If you have to sell make it obligatory on the purchaser that he shall keep it clear from illegal games. Patrons have proved that some attractions are necessary. If you do not keep it clean your fair and midway will pass into oblivion. The Society which persists in keeping these illegal games should be punished for breaking the law and the example it is setting to others. Do you call it amusement when by your own act, your sons, daughters, neighbours and friends are fleeced out of their hard earned money you take your piece of? A little work on the part of the executive board would put on a clean show," he continued, "and you would have the satisfaction of knowing that you have not stolen from anyone and have endeavored to send your patrons away satisfied and happy." Illegal games and immoral shows are more harmful to the young than smallpox and leprosy according to Mr. Hill.

Mr. Hill's stand will be endorsed by a great majority of the patrons of fairs. Entertainment is necessary but it does not need to be illegal games which deprive patrons of money when they are led into traps provided for them by sharpers with the endorsement and evident approval of the board. It may be difficult to get enough entertainment to satisfy a large crowd but illegal and suspicious shows assuredly have no place on the program approved by the directors.

Mr. Hill's contention is undoubtedly correct for no patron who has been fleeced or flim-flammed by someone in a concession goes away contented. He is discontented at the exhibition he has made of himself and the board for allowing tricksters to beat him. If one considers those who patronize an immoral show if there be such at many fairs, the commission of earnings the local fair receives is surely so small that it can be more than made up with a little extra work or by a local program as suggested by Mr. J. Lockie Wilson, superintendent of fairs, following out the suggestion of Mr. Hill. He named music, choral singing by local talent, athletic sport, school parades, shoe pitching. "There can be no great objection to the old time sport of seeing which farmer owns the fastest horse. These farmers' trots please the boys." The moral side of entertainment is also to be argued.

Mr. Wilson wondered if fair directors under pressure of putting on exhibitions, the cost of which is mounting, were not shoving the livestock into the background and exalting the carnival and circus companies and then he asked the question which should be asked by each man and woman: "Are midway, sideshows and wheels of fortune of more educational value to the boys and girls from the farm homes of the province than the exhibits of industry and labor?"

Some of the questions brought up were along the line which has been followed in Belleville. One was the racing of farmers' horses. There is a project to have such here next year. There was the question of increased livestock prize lists to offset the increased cost of transportation. Last year at Belleville the athletic events attracted wide attention from all over the province.

Patrons of fairs above all will thank the outspoken Madoc representative for his fearless stand on the cleansing of fairs from illegal games and unsatisfactory shows. They also realize that where undue stress is given entertainment foreign to the principle of the fall fair, so much the worse for the fair's future.—Ontario Intelligencer.

FARMER COLLAPSED BESIDE HIS SLEIGH

Brockville, Feb. 7.—En route to Brockville this morning with a load of wood, Charles Davies, Sr., Jelliby farmer, collapsed on the road at New Dublin and when removed by his sons to the residence there of Thomas Steel, was pronounced dead by a physician, hurriedly summoned. Davies complained of feeling cold and started to walk beside his sleigh when he dropped in the snow.

Announcement cards may be sent to the Review Office.

ABOUT FEBRUARY

This is the shortest daughter, Mother Year can bring.
February sunbeams brighter grow each day.
Telling that the winter soon will pass away.
February sunshine melts the fallen snow;
And we see at noon-time, little rivers flow.
February mornings frosty panes can show;
Still we're making snowballs; still the sleigh bells go.
Little February, her own whims doth please:
If today she's thawing, soon she'll tightly freeze.

PLEASE HELP THE BLIND

Appeals to Everybody.

Many people overlook the advantage of newspaper advertising. If the farmer has stock to sell, he can find buyers, if he wants to buy, he can have the sellers come to him. When anything is lost or found, when help is wanted, or a position is sought; when any article from a baby carriage to a pet fox could be exchanged to advantage, a small advertisement in the newspaper will accomplish the desired result.

Nearly everybody can use the advertising columns to advantage at some time, and every person will profit by reading the advertisements regularly.

MADOC

FASCINATING BUT DIFFICULT

"Getting out a good newspaper is a fascinating task, but it is also a difficult one," states the Redwood Minn., Gazette. No other job that comes to mind is quite so taxing, so hurried, or demands greater pains. From the moment a newspaper is started, be it either daily or weekly, the work is carried on under pressure, a race against time. Put yourself in an editor's position—could you do it?

"Could you for example, spell correctly, off hand, the names of a large percentage of the residents of this town? If you could do that could you write their initials correctly without resorting to the telephone directory or other authority? Could you write down, off hand, the names of your town officials, your local school board, your county officials, getting all the names, initials and offices correct?" "Could you gather the thread of a story from half a dozen persons and weave them into an intelligent readable account at the first writing?"

"Could you write seven columns of material of 1200 or 1400 words each in two or three days, week after week, year after year, and when you had finished those seven, pound out two or three columns more before press time?"

"In writing a headline, could you call to mind in a moment, enough synonyms so that you would not repeat the main thought in the same words?"

"Could you judge in a minimum of time what size headlines, and what position in the paper could be given to each of the 75, 100 or more stories that might go into your paper?"

"Could you decide in a moment, or exercise 'snap' judgment, on the dozens of questions a newspaper man must face daily and get a majority of them correct?"

"We won't tire you—but if you could do these few simple things and a thousand and one more difficult ones you should be a newspaper editor."

"The point we wish to make is that one can produce a good newspaper only after continual diligent study and years of practical experience. You have heard dozens of persons remark that they could turn a newspaper and a good one, too, a bit better in fact, than the one they are editing. That is not true, unless they have gone through the years and study a good newspaper demands of its makers."

"Were it not for the peculiar fascination associated with newspaper work, there would be no newspapers, for there is no greater taskmaster, and money alone would be far too scant compensation."

NAPANEE YOUTH COMPLETED JOURNEY

Coming into Montana from Napanee, Ontario, is something like his idea of going into a tropical country, in the opinion of 11-year-old Andrew Jackson, who has just completed a 2,500 mile journey to join his aunt, Mrs. Chris. Reissinger, of Victor, Andrew, refreshed from an overnight stay in Missoula, embarked from the Northern Pacific depot Thursday morning to complete his journey.

It is the first trip into the West for Andrew from his native Ontario, and he intends to stay on his aunt's farm, he said. His mother died some time ago and the five children had to seek other homes. The two things about Montana that impressed him most were the heat and the bigness of the mountains.

The little Canadian made the journey all alone and won the admiration of railroad people as he travelled for his manners and manliness. He arrived in Missoula Wednesday night and was forced to stay here for the night in order to make train connections. He spent the night at the Y. W. C. A. and reported to the depot bright and early for his train, looking forward to the remainder of the trip with great eagerness.

"I guess I'll have to change these clothes," he said indicating the woollens necessary in Ontario. Ontario, he said, is a place of much snow and cold weather. Missoula, (Montana), Morning Missoulian.

COTTAGE CONCERT AT COMMUNITY OF MOIRA

A very pleasant time was spent at the home of Mr. and Mrs. Fred Ketcheson, Moira, on Wednesday evening, January 28th, when a Cottage Concert was held. This is the first of a series of these events to be held at Moira. The spacious home of Mr. and Mrs. Ketcheson was comfortably filled, between fifty and sixty being present.

A programme consisting mostly of musical numbers was very entertaining and displayed great possibilities of talent at Moira. The orchestra of which Moira is justly proud is composed of the following members: Mr. and Mrs. Will Vanderwater, Miss Helen and Mr. Milton Vanderwater and Miss Lily Ketcheson, pianist. The orchestra furnished many well rendered selections, other items on the program being: Piano solo by Miss Lily Ketcheson; Auto harp by Miss Annie Morton; piano solo by Gordon Foster; Violin duet by Miss Myrtle Emerson and Mr. Will Vanderwater, recitation by Miss Verna Foster and piano solo by Miss Edna Salisbury.

At the close of the programme the hostess served a bountiful lunch of cake, coffee, tarts and ice cream and a very pleasant social time was spent by all.

DISEASE STRIKES ALBERTA TOWN

Vegerville, Alta., Feb. 7.—A rare malady has made its appearance in this community. Returning from a hunting trip which took him into the wilds of Northern Alberta, F. P. Wilcox, local contractor, was seized with a disease which for some considerable time completely baffled medical men. It finally has been diagnosed as "indellite."

Only eight cases of this disease have previously been reported in Canada. The disease is believed to have its origin in Scotland, and closely resembles typhoid fever.

NORTH ALBERTA MINING EXPLORING CUT DOWN

Edmonton, Alta., Feb. 7.—There will be a certain amount of mineral exploring done in the north country during 1931, but not nearly so much as has been carried out in previous years, Col. James Cornwall, known as "Peace River Jim," stated here recently.

Last year many promising mineral districts in northern Alberta were blocked out and prospecting in these areas will get well under way with the advent of spring.

Already there has been an important copper prospect discovered fifty miles from tide-water, and it is hoped to interest shipping companies in transportation of copper from the mouth of Coppermine river through Coronation Gulf, Colonel Jim stated. A Hudson Bay ship goes in once a year to bring out minerals.

He reported the general health of people residing in the far north as good. Game animals are plentiful.

UNION

We are sorry to report Mr. Gordon Walker is in the General Hospital, Kingston, undergoing treatment for his eyes.

Mrs. Jno. Gawley spent Thursday, the guest of Mrs. Hugh Empey.

Mrs. Geo. Empey arrived home on Monday after spending the past three weeks at Belleville.

Mr. and Mrs. Charlie Carman and family spent Sunday evening at Mr. Bert McCann's.

Mr. Clayton Blackburn and Miss Violet McCann were Sunday visitors at Mr. Everard Carman's.

Mr. and Mrs. Jas. Bateman, Mr. and Mrs. Harry Blakely and Mr. Geo. Hurley attended the birthday party for Master Bill Kelly, Malone, on Thursday evening.

Mr. McVicer, of the Hydro Commission, was calling through our vicinity on business this week.

Master Burrell Bateman is recuperating after an operation on the nose and throat last week.

Miss A. F. Bell has returned after spending the week-end at Port Hope attending the funeral of her uncle.

Miss Ruby Gawley, of M. H. S., spent the week-end under the parental roof.

Mr. and Mrs. Will Chambers and family spent an evening recently at Mr. Fred Chambers'.

Mr. and Mrs. J. White and family, and Mrs. Jas. Bailey were Sunday guests at Mr. Hugh Empey's.

Miss Eva Chambers spent Saturday at her uncle's, Mr. Fred Chambers'.

A number from this side attended the hockey match and Institute meeting in Bannockburn on Monday night.

Bloomfield lost one of its oldest and most highly esteemed residents on Wednesday, Feb. 4th, in the death of William Henry DeGross. Though not born in the village, he spent practically all his life there, and was widely known as a merchant, carpenter and public spirited citizen. He had seen 87 winters come and go, and in his time there had been many changes in the county where he came as a young man.

SCOTCH SETTLEMENT

SOUTH

Mr. and Mrs. Austin Ray, of Ivanhoe, visited the latter's parents, Mr. and Mrs. Jas. McGuire, on Sunday last.

Miss Olive Ashe, of Madoc, spent Friday of last week at her home here.

Mrs. L. Welsh was a guest at the home of Mr. Wellesley Holland last week.

The regular meeting of the L.O.B. A. was held on Friday evening at White Lake.

Mr. and Mrs. Delos Fox, of Remington, were Sunday visitors at Mr. Robert Woods'.

Messrs. Wm. Ashe, Sandy Ashe and John Bristol spent a day in Belleville recently.

Mrs. Wellesley Holland and Vera visited at Mr. Jas. McGuire's one day.

FALLING IN LOVE

This narrative deals with a young man who would always arrive at the office on time. He would leave on the minute at night, and during the day he would do all the things he was told to do—told to do.

No one could doubt his steadiness, but the boss did doubt his downright loyalty.

One day, quite suddenly, this young man fell in love.

Immediately things began to hum. He would come to the office earlier and leave later. His sale record began to climb and everybody in the organization got the spirit of his enthusiasm and they all began to climb.

Within a few weeks he had advanced twice in position and pay. And all this advancement, all along the line—could be traced to the young man's falling in love—in love with his work.

IVANHOE W. I.

The Ivanhoe Women's Institute held their February meeting at the home of Mrs. Jno. Clements on Tuesday, the 10th. There were twenty-seven members present. The roll call was answered by an autograph verse.

In the absence of Mrs. R. Reid, her paper, "Balanced rations in everyday life," was read by Mrs. S. Fargy.

Annie Fleming sang, "I shall not pass this way again." Mrs. Jno. Clements gave a reading, "Mrs. Arris at the telephone."

It was decided to have the Cooper Institute give the play, "The Little Coddhopper," some time in March.

Lunch was served at the close of the meeting.

BUDDING YOUNG SONG

WRITER IN HASTINGS CO.

Hastings County has one son who may yet make her famous with his popular songs. Harry Harrison, of Latta, who has not yet attained his majority, has already composed two songs, both of the popular variety, writing both the words and the music. Recently at the Orange Hall in Cannifton, he gave a rendition of one of the numbers which was most favorably received. This was called, "You were the first one to teach me to love." The other song he has written is called, "Marguerite."

Mr. Harrison is going to send these two numbers to New York and endeavour to have them published. Although he cannot play one note on the piano, he composes music easily. —Ontario Intelligencer.

CHEESE FACTORY

REPORTED SOLD

The Gazette was informed yesterday that Cherry Valley Cheese Factory has changed hands, and that Mr. Albert Beckwith, maker for the past several years, is the new owner.

The Valley factory was built in 1867—one of the first in the county. It was a joint stock company with Geo. A. Welbanks, president, and Harvey Spafford, secretary. Three years later it was sold by auction, W. B. Blakely, father of W. S. Blakely, being the purchaser. He sold it to Wm. McCaw, Manly Richards, Joseph Martin and Alva Scott. In 1874, H. M. Johnson and W. E. Hazzard bought and ran it for several years. In 1893 W. S. Blakely became the proprietor, selling out to Ed Gallery, maker, and Thos Anglin, of Brewer's Mills. Mr. Anglin later took it over and has just sold it to Mr. Beckwith.

Mr. Beckwith has been in the cheese making game over twenty years, learning the game at Flinton, near Tweed. For thirteen years he made cheese in Madoc township, then for a year at Massasauga and later at Mt. View. While at the latter factory he entered cheese in the Br. Empire Exposition in London, England, which carried off first prize. This was in 1921.

Mr. Beckwith has associated with him, his wife and two sons, so that the labor question is easily settled.

Just now the factory ice houses are being filled from East Lake. —Picton Gazette.

PRESENTATION

AND ADDRESS

On Friday evening, February 13th, the friends and neighbours of Mr. and Mrs. W. J. McCoy met at their home to spend a social evening with them before they leave for their new home in Madoc.

Mr. and Mrs. McCoy were asked to come forward and the following address was read by Mrs. Hark Rollins, while Mr. Joseph Hayton and Mr. Everard Smith presented them with a floor lamp and smoker:

Mr. and Mrs. W. J. McCoy.

Dear friends:

Doubtless you thought when you bade us adieu a few evenings ago, you would not see us again, but, like the "bad penny" we have returned. Our enjoyment tonight, however, is mingled with regret as we realize it is the last evening we shall enjoy your hospitality here.

For a number of years we had the privilege of working, and also of playing with you, for you have always responded cheerfully and generously to all demands, whether connected with work or recreation. We have been benefitted by our association with you.

As a remembrance, we ask you to accept these gifts which carry with them our best wishes for your future success.

Signed on behalf of Cooper friends and neighbours, Joseph Hayton, Frank Reynolds, Everard Smith, Arthur Parks.

Mr. and Mrs. McCoy thanked their friends for the lovely gifts which were costly and beautiful.

All enjoyed the social part and a dainty lunch was served.

IVANHOE LIBRARY BOARD

The annual meeting of the Ivanhoe Library Board was held at the home of Mrs. John Clements on Tuesday evening, February 3rd. Mr. C. A. Mitz, Chairman of the Board, presided. The Treasurer's report was given by Mrs. Clements. Seventy-five books were added to the library this year, thirty-four of which were children's books. A paper entitled, "Canadian writers and their message," written by Donald G. French, President Canadian Literature Club, of Toronto, was read by members of the Board. Officers for coming year are:—Pres., Miss Annie Fleming; Sec., Mr. A. Wood; Treas. and Librarian, Mrs. John Clements.

Board of Directors: Mrs. J. Lovelace, Mrs. F. Geary, Mrs. Jas. Haggerty, Mrs. H. Henderson, Mr. Harold Ashley, Mr. E. Searles, Mr. A. Haggerty, Mr. J. Flett, Mr. S. Prest.

The library can report a very good year with a patronage of 1190. Books have been used by the different organizations of the community as well as several schools, for readings, recitations, supplementary readings and reference. A number of children's books by the standard authors, such as "Master Skylark," and "Heldi" have been added this year. The library has taken long strides in becoming a real community centre, and a place of cultural influence, with a collection of books that are an asset to the people.

MADOC 2, FRANKFORD 0

The local Black and Whites won their tenth game of the season on Friday night of last week, when they defeated Frankford 2-0. The ice was soft and without a doubt it was the poorest exhibition of hockey seen here this season. Everything from golf to football was worked into the game and Referee Bill Green showed good judgment when he let a lot of this go. After the first period combination was out of the question, as it was impossible to control the puck and golf shots were very numerous.

No penalties were handed out, although many tumbles were taken, some due to accidental trips, but mostly due to the condition of the ice.

Madoc opened the scoring in the early part of the first period, when Moon scored on a solo rush. Pudge went down the centre of the ice and after playing combination with the end of the rink, beat Prevost from close in. The second counter also came in the first period when Henderson passed to Watson, who scored.

Although there was no scoring in the last two periods, the goalies were given some close calls when golden opportunities were missed.

Puckeringings

Pudge says, "The game was a miniature one." One minute you had the puck and the next minute you didn't.

After the game members of both teams and their wives were entertained by the members of the Rebekah Lodge.

In the dying minutes of the game, Bill O'Malley, Frankford's big defence man, made several rushes, which pleased a number of the Madoc fans who were pulling for Bill to score.

Tweed defeated Campbellford 2-1 in Tweed on Friday night last.

After receiving the letter from Referee Jacobi, Tweed's protest was thrown out. The following is the letter:—

Stirling, Ont., Feb. 13, 1931

Mr. E. Luery,
Sec. Treas., T. V. L.
Stirling

Dear Sir:

Your letter of February 11th to hand and in reply wish to say that there is absolutely no reason for a protest by Tweed on account of penalty handed out to "Barkey."

First of all I must admit that my report was rather misleading, as I should have added to it what I am about to write. However, the management of both teams at the time fully understood the penalties handed out, and also the penalty time keepers.

Both Barkey and Gerald were ruled off for ten minutes each, with the stipulation that Barkey could not come on again, but at the end of ten minutes penalty, another man could take his place. This form of penalty has been used in the O.H.A. this winter.

Seems rather funny to me that during balance of game, while talking with management and members of Tweed team, that no mention whatever was made to me about penalty given Barkey and letting another player take his place. They did not hint at a protest on this account.

Can hardly see why the game should be protested as Madoc won the game on merit as I handed out penalties in keeping with offences committed after taking all the circumstances into consideration.

From what I saw I judged that Barkey was responsible for trouble, but from a letter received from Madoc Barkey had received a butt-end in the head. However, I did not see this as sometimes butt-ends are hard to catch.

Trusting that this information will clear the matter somewhat for you.

I am, yours very truly,

H. H. Jacobi.

WON SKATING RACES

At the Kiwanis Carnival at the Belleville Arena on Monday, Miss Laura Ross, of the Madoc High School, was a successful competitor. She won the secondary school race cup and also the ladies' open race cup.

STIRLING 4, MADOC 2

The Stirling hockey team took their fourth consecutive win from Madoc on Wednesday night, when they defeated them 4-2. The Madoc team was without the assistance of Andrews, Johnston and Barkey, who through illness, were unable to play. Madoc had only one sub and with the soft ice, the players were unable to stand the pace set by the Red and Whites, who had two complete forward lines, and after leading for two and a half periods, fell down in the last ten minutes when Stirling ran in three counters to win the game.

Madoc started the scoring in the first period, when McGuire passed the rubber past Morton for the initial count. With a minute left to play in the period, Stirling tied the score.

In the second period McGuire again scored, when he took a pass from L'Heureux and easily beat Morton.

In the third period Stirling pressed the play, and putting four and five men on the attack, kept the Madocers bottled up behind their own blue line. Stirling tied the score from a face-off in front of the Madoc net, add before the end of the period ran in two more counters, making the final score 4-2.

Puckeringings

Frankford defeated Tweed 4-0 on Friday night and by doing so made Madoc's play-off position secure.

Campbellford defeated Frankford 4-2 on Wednesday night.

Although no official announcement has been made for the play-offs between Madoc and Stirling, from all appearances the games will be played in Belleville the first week in March, with the best two games out of three to count.

HIGH SCHOOL OUT OF INTERSCHOLASTIC RACE

Madoc High school hockey team, winners of their group, were eliminated from the interscholastic race, when they were defeated by Belleville in the round by the score of 9-2.

The first game was played in Madoc, when the visitors won 2-1. On Monday night the return game was played in the big Belleville Arena, where the Madocers were outclassed to the tune of 7-1.

The Belleville team is heavier and faster than the locals and should go a long way in the interscholastic race.

LOCAL AND PERSONAL

Mrs. Land, of North Bay, was a week-end guest at the home of Mrs. Ambrose Smith.

Mrs. James O'Connell, of Peterboro, was in town this week attending the funeral of the late Patrick O'Connell.

Mr. Wm. Bassett, of Windsor, attended the funeral of his grandfather, the late Wm. Bassett, in Madoc last week.

Mr. Elgin Jackman, Treasurer of Rawdon Township, had the misfortune to break his wrist one day last week, while cranking his car.

Miss Lamorne West, accompanied by Misses Irene Darlington and Muriel Hamilton, of Queen's University, spent the week-end at the home of Mr. George West, in town.

—2 New Perfection 2 burner Coal Oil Stoves, \$8.00 each; 6 3 burner N.P. Coal Oil Stoves, \$10 and \$12 each; 1 only 4 burner N.P. Coal Oil Stove, \$13; your choice of Ovens for \$3 at G. A. Rollins'.

Mrs. John Holmes and Kenneth, of Rawdon, journeyed to Eldorado on Wednesday. Mrs. Holmes returned home on Friday and Kenneth will spend some time with his grandfather and recuperate after his recent illness.

Card of Thanks

Mr. and Mrs. Hugh O'Connell desire to thank their kind friends and neighbours for their many expressions of kindness and sympathy shown them in the recent sad bereavement in the death of their son.

Died

O'CONNELL—In Madoc Township, on Sunday, February 15th, 1931, Patrick Vincent, son of Mr. and Mrs. Hugh O'Connell, aged 12 years.

ASSEMBLY PRESIDENT VISITS REBEKAH LODGE

At the regular meeting of Oakdale Rebekah Lodge, No. 134, held on Friday evening last, February 13th, Mrs. Land, of North Bay, President of the Rebekah Assembly of Ontario, paid an official visit. She gave a very interesting and instructive address on the activities of the Order.

During the evening Mrs. Land was presented with a silver tray and the following address was read by Sister Verna Tanner:—

To Sister Land, President of the Rebekah Assembly of Ontario:—

It is with great pleasure that we welcome you, on this your official visit to Oakdale Rebekah Lodge.

We appreciate the honor of having this opportunity of entertaining you. In token of our appreciation we ask you to accept this small gift, which carries with it the friendship, love and truth of Oakdale Rebekah Lodge.

Fraternally yours,

Lottie Smith, N.G., Eliza Moon, R.C.

Mrs. Land thanked the Lodge for the gift and told of her pleasure in being in Madoc to meet with the Lodge members.

After the business meeting of the Lodge was closed a very pleasant entertainment was given, at which the members of the Frankford hockey team and the Madoc hockey team and ladies were invited. A short musical programme was given by local people. Vocal numbers by Wm. Hawthorne, R.P. Wellman, Mrs. Hulin and C. Ross were enjoyed by all. Mr. Darley played a piano solo and Mrs. Ashley and Mrs. Hulin, a duet. Master Will Stockloser played a guitar solo in a very capable manner.

After the program, the ladies served delicious refreshments and then all were invited to dance. Mr. C. Moon called off for a very lively square dance and everyone had a splendid time.

Rev. Father Meagher, manager of the hockey team, when called upon, spoke a few words on behalf of the boys, thanking the Lodge members for the entertainment and also for the whole-hearted support which they had given the hockey team in the past and soliciting the same for the future games.

Mr. Finnegan, of the Frankford hockey team, also thanked the Lodge members for the pleasant evening, after which the party broke up.

WEDDING BELLS

COONEY-COX

A quiet wedding was solemnized at the home of the bride's parents Mr. and Mrs. Joseph Cox, Madoc Village, at 6.30 p.m. on Wednesday, February 11th, when their daughter, Mildred Hester Cox, was united in marriage to Elmer Adam Cooney, of Murray township. The ceremony was performed by Rev. T. G. Marshall, of St. Peter's church.

Card of Thanks

Mrs. William Bassett and family wish to express their thanks to their many friends and neighbours for their kindness and sympathy during the illness and death of husband and father, also to those who assisted so kindly at the service and to the Village Council for clearing the roadway in such a splendid manner.

Mr. and Mrs. M. Nickle, of Malone, have returned to Madoc, due to the illness of Mrs. W. Ault.

COUNCIL MEETING

Madoc Village Council met on Monday, February 16th, with Reeve Whytock and Councillors Will J. Hill, C. M. Wallbridge and Geo. S. White, present.

The minutes of the last meeting were read and approved. Communication was received from Mrs. Will J. Hill.

White—Wallbridge—that Clerk be instructed to write Mrs. Will J. Hill. Mr. Gavin M. Wallbridge addressed Council re-authority of fire chief to inspect buildings.

Mr. W. R. Gray, Secretary of Alert Fire Co. presented his yearly report, which was accepted and filed.

A delegation consisting of Mrs. Dr. Eagleson, Miss McEachran and J. L. Rutherford addressed the Council, requesting a grant towards the Public Library.

Wallbridge—White—that a grant of \$250 be granted to the Public Library.—C'd.

White—Wallbridge—that following accounts be paid:—John Burkitt, \$9.00; N. Miller, \$1.75; W. Demille, \$3.75; D. Golan, \$1.80; A. S. Cochran, supplies, \$64.25; Mun. World, Dog Tags, \$5.15; E. T. Naylor, \$12.00; G. M. Wallbridge, \$5.00.

Councillor Wallbridge gave notice of motion to bring in at the next regular meeting, a by-law to license garbage collectors.

White—Hill—that Council adjourn to meet first Monday in March.

A. S. Cochran, Clerk

HERE AND THERE

Today is Ash Wednesday, the first day of Lent.

Winter is nearly past, less than four weeks until spring.

Several of our citizens are confined to their homes through illness. An epidemic of light "flu" appears to be the cause for the sickness.

For the first time since the Trent Valley Hockey League adopted the practice of the first and second teams playing off for league honors, Madoc will be in the play-off. The boys have won ten games out of thirteen played.

The publicity which has been given the hockey fracas at Tweed on February 6th has given the Trent Valley League a black eye. The whole affair is a most unfortunate one and if the players complicated could get together and make settlement it probably would mean money and time saved to all concerned.

Evidently J. H. McCulloch, who writes for the Toronto Star Weekly, never heard of Trent Valley League, as he says that the old fashioned valentines are things of the past as are brawls at baseball and hockey matches in small towns. He should have been at Tweed on February 6th.

Toronto's water front has been turned into a winter sanctuary where thousands of wild ducks are being fed daily. This practice of feeding the ducks was commenced six years ago by the Parks Commissioner and is a proof that ducks can stand our cold Ontario winters if they are sure of food.

Years ago nearly every school section had its literary society and debating school. At these gatherings every subject from the comparative soothing qualities of a scolding wife and a smoking chimney, up to the destiny of the Anglo-Saxon race, came in for full discussion. Two features marked those gatherings, plenty of fun and sharpened wits. Why should not there be a revival of these organizations? Problems of the gravest nature are presenting themselves. Only as Canadians face their new situation with quickened intelligence and informed minds will those questions find satisfactory answers.—Forest Standard.

Bancroft Fair Board is determined to stop the exhibiting, year after year, the same goods at their fair, and to this end are revising the prize list. The revision is especially drastic in the Ladies' Work department.

POTATO CHOKES OWEN SOUND CHILD

Owen Sound, Feb. 11.—William, 4-year-old son of Mr. and Mrs. Robert Sutton, choked to death, here this morning, when a piece of potato lodged in his throat. The child was in the kitchen of the home with his mother, who was peeling potatoes preparing for the noon meal, when he suddenly seized a small piece and swallowed it. No inquest will be held.

TO CLOSE BELMONT TWP.?

A proposition that the Ontario Government be asked to close one or more of the townships of Belmont-Methuen, Cavandish, Anstruther and Galway to be set apart as a game sanctuary received the unanimous endorsement of the Peterborough Fish and Game Protective Association at the annual meeting held in Peterborough last week.

OWEN SOUND SAGE PREDICTS DRY SPRING

Owen Sound, Feb. 11.—A very dry spring which will seriously effect the crops is predicted by J. B. Bowes, of Owen Sound, who has gained considerable fame as a weather prophet. Mr. Bowes, whose predictions this year are copyrighted, advises owners of wheat to hang on to their holdings in view of the outlook for the coming crop.

FERGUSON RECEIVED BY HIS MAJESTY

London, Feb. 14.—Hon. G. Howard Ferguson was received by His Majesty the King at Buckingham Palace today. The new Canadian High Commissioner and his wife will be guests of Rt. Hon. Ramsay MacDonald at the Prime Minister's country residence at Chequers on Sunday.

TELEPHONES IN CANADA

The estimated number of conversations by telephone in Canada during 1929 was 2,525,500,000, including 37,851,600 long distance calls. For every 100 of the population in that year there was an average of 15 telephones.

CANADIAN PRINTERS AND PUBLISHERS

Out of the 753 printing and publishing plants reported in Canada in the 1928 census of industry, 296 were located in Ontario; 135 in Saskatchewan; 76 in Alberta; 67 in Manitoba; 62 in Quebec; 61 in British Columbia; 31 in Nova Scotia; 21 in New Brunswick, and 4 in Prince Edward Island.

\$1000 REWARD FOR HER HONESTY

Greenwich, Conn., Feb. 13.—Miss Tessie O'Rourke, a hotel maid, today was the possessor of a cheque for \$1,000, as a reward for her honesty in returning a \$12,000 pearl necklace, which she found in the street, to the owner, Mrs. Norris B. Gaddess, wife of a New York banker.

TUBERCULIN CATTLE HEADS SHIPPED OUT

Brockville, Ont., Feb. 13.—Federal veterinary inspectors applying the tuberculin test to cattle in Mountain Township, Dundas County, are said to have discovered so many reactors that in some cases entire herds of cattle have been condemned. It is reported six hundred cattle were shipped out of the district to the packers as a result of the test.

CANADIAN REINDEER HERD

Apropos of the journey of the herd of reindeer which is being brought by the Dominion Department of the Interior from Alaska to enhance the living conditions of the natives of Northern Canada there are very few predatory animals to be found on the coast near the line of route from the Alaska-Yukon boundary eastward to Cape Bathurst. Wolves are of very rare occurrence and the only animals that may occasionally give trouble to the reindeer are the Barren Ground grizzly and the Polar bear.

BREEDING STOCK BEING EXPORTED

A consignment of live mink, badger and silver fox were shipped recently from Winnipeg to European farms. The value of the animals was placed at \$10,000. The bulk of the shipment was of mink, 86 animals in 22 crates, valued at \$6,500. Seven silver foxes, valued at \$3,000, were destined for Akersberga. The mink and badger were enroute to Bayern, Germany. The mink shipment had a large representation of females which points to European breeding requirements.

CEREAL RESEARCH GROWS

The report of the Dominion Cerealists, L. H. Newman, B.S.A., for 1929, provides a graphic illustration of the steady increase in cereal research by the Dominion Department of Agriculture. In 1916 the total plots used in investigational work numbered 2,017. In 1921 this had dropped to only 756. Since 1927, however, there has been a consistent steady expansion in this important work, the total number of plots for 1930 being 15,950. This report, which is now available for distribution, contains a wealth of useful information for those interested in cereal grains.

AN OLD, OLD REASON

"Johnny bought himself a pig with money he had earned. He named her Nell and fed her well and lots of tricks she learned, But Nellie grew to be a hog and finer there were few, Then father up and sold that hog—and kept the money, too. Next Johnnie got a little calf, in pay for hoeing corn. He loved that calf, the calf loved him as sure as you are born; But calfie grew to be a cow as all good calves do, Then father up and sold that cow and kept the money too. Now Johnnie loved his little pets, but father loved the pelf, So Johnnie left the old home farm, and struck out for himself, Said Johnnie's pa one summer's day, 'I often wonder why These kids don't seem to like the farm, the city is their cry!'" "It always will be strange to me," continued Johnnie's pa, "It only goes to show, though, how ungrateful these kids are." When Johnnie heard what pa had said he gave a bitter laugh, And thought of empty childhood days and of that pig and calf.

REMINISCENCES

The following items have been taken from the file copies of the Review.

FIFTY YEARS AGO

February 1881

Business begins to assume a lively aspect at Madoc. Capt. Miller is busily engaged in getting out iron ore.

A telegraph line is to be placed along the road from Marmora to the Gatlin mine. Work at this mine has again commenced.

For Sale—Within a quarter of a mile of Madoc, situated on Deer Creek, a mill property, consisting of 3 run of old stock French Bun Stones. Samuel Rollins, Madoc.

On Monday evening at the invitation of Mr. J. B. McMullen, of Prince Edward County Railway, a number of our citizens assembled at Moon's Hotel to confer with that gentleman relative to his proposal to extend that road from Trenton to Madoc by way of Marmora and Malone.

Messrs. Rathbun and Son have the ties for the branch line to Mill Point deposited along the proposed route, and it is expected that the road will be in operation by the 1st of July.

A brand new stage wagon has been put on the road between Madoc and Belleville.

Miss Rose Doyle has removed her dressmaking and millinery establishment from Tweed to Madoc.

Raffle—Mr. John O'Reilly has presented a splendid five-year-old horse to be raffled for in aid of the building fund of the R. C. church. Mr. Jacob Huff has examined the animal and has pronounced it first class in every respect.

TWENTY-FIVE YEARS AGO

February 1906

Shawn Aroon—On February 8th, the Dramatic Club put on the play entitled, "Shawn Aroon." Among those who took part were Edgar Latimer, F. G. Cottle, W. J. Hill, P. J. Hoover, Miss Alice Groom, Miss Stewart, Miss L. Morrison, A. R. Lockhart, H. Wright, E. Pine, A. L. Connor. Scrutons' orchestra rendered delightful music and Miss Ruby Pym gave a song.

Hockey—Those old Madoc rivals, young ladies and married men, renewed hostilities during the week and honors, arnica and court plasters as well as black and blue marks, are about even. Ladies: Mrs. Wallbridge, Misses Coe, O'Flynn, West, Eby, Stephenson, Morrison. Men—Messrs. Cottle, Casement, Mouncey, Huyck, Connor, Connor and Orr.

Died—Thompson—at Queensboro, on Sunday, Feb. 11th, 1906, Anna Thompson, relict of the late Daniel Thompson, aged 85 years.

Last week Mr. Frank Smith installed a new electric light plant at the Coe-Saunders Copper mine at Eldorado.

FIFTEEN YEARS AGO

February 1916

Ottawa—House yesterday discussed two topics, divorce and free wheat.

An influential meeting of voters from Madoc and Elzevir gathered in the Town Hall to confer with Mr. Robert Cooke on the question of prohibition.

Hockey—A large crowd assembled on Friday to see the Stirling boys do battle with the Madoc team. Though Stirling won by 5 goals to 2, it was easily seen that it was far from being a picnic for them. The line-up was, Madoc: Sills, goal; Rylott, r. defence; Panter, l. defence; Smith, rover; Nicol, centre; Craig, r. wing; Moon, l. wing.

Hymeneal—Miss Barbara Scharfgen, one of the most popular young women of Gross Point, Ill., was married to Walter Tobin, son of Mr. and Mrs. Jos. Tobin, of Madoc, at St. Joseph's Catholic church on Monday, January 31, 1916.

Laton—Brueya—at the Sacred Heart church, Madoc, on Monday, February 14th, was solemnized the marriage of Frederick Laton, son of Mr. and Mrs. B. Laton, and Cecilia Leonard, daughter of Mr. and Mrs. John Brueya, all of Elzevir. The ceremony was performed by Rev. Father O'Riordan with nuptial mass. They were attended by Miss Frances Laton and Mr. Frank Barry, of Queensboro.

Box Social—Madoc W. I. held their annual Box Social in the Armouries on Monday evening. The proceeds of the sale of boxes were \$146. Mrs. Chas. Whytock, president, presented 23 5-dollar gold pieces to the recent recruits to the 155th Battalion.

Patriotic League—The result of the voluntary sale of home cooking, etc., which was held in Dale's Bank on Saturday was most gratifying to the workers in the Madoc Women's Patriotic League. Every article was sold at a good price and the sum of \$20.20 was realized.

IN 1930 - \$81,274,000

PAYMENTS TO POLICYHOLDERS

AND BENEFICIARIES SINCE

ORGANIZATION \$500,949,000

TOTAL LIABILITIES \$552,201,000

(including paid up Capital Stock)

SURPLUS AND CONTINGENCY

RESERVE - \$36,532,000

ASSETS, AT DECEMBER

31st, 1930 - \$588,733,000

In a year in which all classes of business have encountered many difficulties, the Company has made gratifying progress. New policies paid for show an increase of \$51,227,652.32, both the ordinary and group departments making substantial gains.

Total assurances in force show an increase of \$462,464,542.58. This gain represents a very high rate of persistency, indicating the high value placed by our policyholders on their contracts with the Company in a period of extreme financial pressure.

The number of policies and group assurance certificates outstanding passed the million mark during the year.

The total net income shows an increase of \$13,904,544.54.

The total payments to policyholders and beneficiaries since organization . . . equal the total assurances in force in the Company's fiftieth year (ten years ago).

The mortality among our policyholders has been highly favourable.

The rate of interest earned on the mean invested assets was 6.44 per cent.

Profits paid to policyholders during the year amounted to \$25,641,231.04.

In a year of almost unprecedented business depression the outstanding quality of the investments has been strikingly shown. The actual cash dividends received on the total common stocks held by the Company were \$969,103.84 in excess of the dividends payable on those identical shares in 1929. . . . Even on the basis of the low prices at the close of the year our common stock holdings show a substantial excess of market value over cost.

Profits to policyholders entitled to participate during the ensuing year will be again allotted on the scale at present in operation.

The special Maturity Dividend is also continued on the basis announced last year.

SUN LIFE ASSURANCE COMPANY OF CANADA

"Unless Business Improves"

UNLESS the cart moves of its own accord we are disinclined to hitch the horse to it.

UNLESS the car climbs the hill we will not give it any gas.

UNLESS the train makes the run we will put no coal under the boilers.

The man in the street says,

"UNLESS business improves I won't buy the things I need for my family."

The Retailer says,

"UNLESS business improves I will cancel my order."

The manufacturer says,

"UNLESS business improves I will cut off my advertising and discharge my workmen."

The discharged workmen, no longer receiving pay, do not say, "Unless business improves." They simply say, "We cannot buy goods."

When that time comes, everything is finished, we all quit work, and everybody is satisfied.

What Then ?

Well, we just start all over again.

We hitch the horse to the cart.

We give the car some gas.

We put the coal under the boilers.

We buy the things we need for the family.

We give more orders, we advertise, and do not discharge our workmen, and the workmen buy goods, and everything goes right along the same as it was before the trouble.

There is only one reason for pushing right now more vigorously than ever, and that is because business is not what is technically called "good." It is just as good as it ever was, but its goodness is potential, latent; it must be stimulated. Do you realize that it was only a year ago when people were falling over one another to spend their money? That was a state of mind. They are all states of mind, and the chief function of advertising is to produce a state of mind.

LIST OF NEW BOOKS
AT MADOC LIBRARY

The following is a list of the new books in Madoc Public Library.

The Mystery Road, E. P. Oppenheim.

Tomorrow's Tangle, Margaret Pedler.

The Daughter Pays, Mrs. Baillie Reynolds.

The Trail of Yesterday, Chas. A. Seltzer.

The Lone Wolf, Louis J. Vance.

The Lone Wolf Returns, Louis J. Vance.

Flood Tide, Olive Wadsley.

Clue of the Twisted Candle, Edgar Wallace.

Susan of the Storm, Grace Miller White.

Concealed Turnings, Pamela Wynne.

The Enchanted Hill, Peter B. Kyne.

Tarzan the Untamed, Edgar Rice Burroughs.

The Blue Door, Vincent Starrett.

The Piccadilly Murder, Antony Berkeley.

Mystery of Hunting's End, A. Eberhart.

Heart of the North, Wm. B. Mowery.

The Spider and the Fly, Clive Arden.

Branded, Robert Ames Bennett.

House without a Key, Earl Derr Bigger.

Strange Case of Miss Annie Spragg, Louis Bromfield.

The Return of Tarzan, Edgar Rice Burroughs.

Juggernaut, Alice Campbell.

Through Troubled Waters, Elizabeth Carfrae.

Secret of the Chimneys, Agatha Christie.

The Master's Revenge, H.A. Cody.

Golden Snare, Oliver J. Curwood.

Gate Marked Private, Ethel M. Dell.

The Velvet Hand, Hubert Footner.

Pursuit, Rosita Forbes.

Judith of the Blue Lake Ranch, Jackson Gregory.

Nevada, Zane Grey.

Oak and Iron, Jas. B. Hendryx.

On the Screen, Robert Hichens.

Coming Thro' the Rye, Grace L. Hill.

Sequel to Sonia, Vida Hurst.

The Madness of Monty, Robert Keable.

Treasure Valley, Marian Keith.

Terror at Stamps House, Frank King.

They also Serve, Peter B. Kyne.

Ashenden, Somerset W. Maugham.

The Flutes of Shanghai, Louis J. Milne.

Female of the Species, "Sapper."

Zelida Marsh, Chas. Norris.

Martie the Unconquered, Kathleen Norris.

The Autocracy of Mr. Parham, H. A. Wells.

Now It Can be Told, Sir Philip Gibbs.

Eminent Victorians, Lytton Strachey.

The Great Horn Spoon, Eugene Wright.

Raiders of the Deep, Lowell Thomas.

By Camel and Car to Peacock Throne, E. A. Powell.

The Cradle of the Deep, Lowell Thomas.

"Hoses", Zane Grey and others.

Famous Trials of History, Birkenhead.

An Indian Journey, Waldemar Bousels.

A Vagabond Journey Around the World, Harry A. Franck.

Four Months Afoot in Spain, Harry A. Franck.

The Wings of Adventure, Philip

RIGHT OF WAY
OF HYDRO LINES

Mr. McVicar, representing the Hydro-Electric Power Commission, has been stopping at the Royal Hotel, Marmora, for a couple of weeks and has been arranging a settlement for the right-of-way for the new high power line which is being constructed at present.

When the line is completed there will be four rows of towers with heavy cables across the Province from the Ottawa river to Toronto. In order to handle other large blocks of power, which have been purchased for a long period, on the St. Lawrence river, it is expected two other series of high tension lines will be constructed from the points of development in Quebec Province to Toronto. Surveys are now being made for one right-of-way, and one telephone line. Later on another right-of-way will be surveyed, which is expected to run south of Bonarlaw. Four lines of steel towers will be erected to carry heavy cables. One telephone line will serve four lines of towers which appears to be one of the reasons for placing four rows of towers on each right-of-way.

Clearing off the trees and brush on the right-of-way north of Marmora is providing considerable employment just now. Several from the village are engaged in the work, as well as a number of farmers across whose farms the right-of-way is being opened.

On rough and wooded land the compensation offered the owners appears to be very fair and in some cases quite generous, but there does not seem to be enough difference in the case of well cleared and highly cultivated land. Four rows of towers will seriously impair the value of a well cultivated farm and will both reduce production and increase the difficulty of working it.

Winnipeg, Feb. 12—Leut.-Col. Ralph Webb, Mayor of Winnipeg, who on many occasions has denounced Communist activities in the Dominion, has been threatened with death. Speaking at a meeting today, Col. Webb said a letter declared that he would "be shot to death." He did not disclose its text or signature and characterized it as "just another cowardly bluff." He has received similar threats before.

Gibbs.

Jimmy Dale and the Blue Envelope Murder, Frank L. Packard.

The Mote and the Beam, Pauline Stiles.

The Lucky Lawrences, Kathleen Norris.

The Case of the Missing Sandals, Nancy B. Mavity.

Alibi, F. F. Vandewater.

West of Fifth, Catharine Brody.

High Fences, Grace S. Richmond.

The Affair of the Gallows Tree, Stephen Chalmers.

DONATED

A Kentucky Cardinal, James L. Allen.

The Story of my Life, Helen Keller.

Kazan, James Oliver Curwood.

The World for Sale, Gilbert Parker.

The Sea-Hawk, Rafael Sabatini.

The Twenty-fourth of June, Grace S. Richmond.

The Sky Pilot in No Man's Land, Ralph Connor.

Mr. Standfast, John Buchan.

The Foreigner, Ralph Connor.

John Burt, Frederick U. Adams.

Maria Chapdelaine, Louis Hernon.

To Him that Hath, Ralph Connor.

The Patrol of the Sun Dance Trail, Ralph Connor.

Tarzan and the Jewels of Opar, Edgar Rice Burroughs.

CHILD IS STRUCK BY CAR

What just escaped being a fatal accident occurred on Thursday morning between ten and eleven o'clock when Jack Scott, son of Dr. and Mrs. P. A. Scott, of Wellington, was knocked down on Main Street by a car and severely cut and bruised. The little lad, who is nearly four years old, was out with one of his sisters and was attempting to cross the street just a bit west of the Post Office. An approaching sleigh hid a line of cars from his view and also hid him from the sight of the driver of the first car, Mr. McLean, local garage man. McLean, in swinging out to turn into his garage hit the lad and had his brakes not been under control the child would undoubtedly have been killed. The upper lip was almost severed and the nose badly cut by contact with the bumper of the car which had been brought under control so that the wheel pushed the body some distance but did not run over the lad. The youngster was rushed to the hospital at Picton and it is hoped his injuries will not include severe internal ones. Blame is not attached to the driver of the car but this accident along with others, serves to remind those behind the wheels of motors that great care should be taken especially at this time of year when slippery roads make motoring unsafe for car occupants and pedestrians alike.—Picton Gazette.

RAILWAYS WOULD
HELP CHINA PEACE

Winnipeg, Man., Feb. 14—Construction of railways throughout China will play a leading role in bringing the peoples of the great nation together, reducing the strife that has torn the country into many opposing factions. J. Lockhart, former advisor to the Chinese government railway administration, delivered this opinion during his recent visit to Winnipeg enroute to the Old Country after 22 years in the Orient.

The peace of the Orient—the Chinese nation—will be particularly built on the railway development, he believes. Rail communication will play an important role towards the peace of the Chinese nation," Mr. Lockhart said. It will help the people to become better acquainted.

Mr. Lockhart declared Canada could find a market in China for electrical machinery, railway equipment, automobiles and, for a short time, canned goods, wheat and flour. Mr. Lockhart added, however, that in the not far distant future China would be producing more than enough wheat for its own people. "You must look at her as a competitor or when she brings the fertile plains of Manchuria to the State of full production," he declared.

NATIONAL SYSTEM OF
OLD AGE PENSIONS

Winnipeg, Man., Feb. 14—National system of old age pensions that would include benefits for the blind folk of Canada was suggested here recently by A. A. Heaps, Labor member of parliament for North Winnipeg.

Mr. Heaps said steps would be taken seeking incorporation of a clause in the Old Age Pensions Act that would supply the blind with pensions.

Mrs. Jessie McLennan, secretary of the committee for the blind, stated little progress had been made in their efforts this year. Poverty and misery, she said, was still the lot of the blind and unless proper legislation was passed they would become objects of charity.

FARMERS OF ONTARIO
PREPARING FOR 1932

The secretary of the Ontario provincial committee of the World's Grain Exhibition and Conference to be held at Regina in 1932 reports that Ontario farmers are quite enthusiastic in their preparation of exhibits for the competitive classes. Meetings held during 1930, at which details of the World's Show were discussed, were attended by over 21,000 farmers. All sources of pure seed have been tabulated and have been made available. An extra effort has been put forward to encourage entry at the Chicago International as a steps towards the event of 1932. As a result of these activities the sales of registered seed during the spring of 1930 were heavier than ever before. The entries for Chicago have also increased from 50 in 1929 to 150 in 1930. There will no doubt be a large number of entries from Ontario in practically all of the competitive classes of the World's Grain Show in 1932.

The Capital Theatre at Belleville has been sold by Robert Weller to Moorehead and Filman, of London, the sale price being \$85,000. This company has five theatres in Ontario and proposes to show a large number of British films.

MENTAL HOSPITALS
HOUSE 30,000 PERSONS

There are 30,000 persons in Canadian mental hospitals—"asylums" they were once called. That is a greater number of people than there are in Kingston or Kitchener, enough to form a good sized city.

Think of the happy, carefree children now going to school all over Canada. A greater number of them will some day enter a mental hospital than will graduate from college. One person out of every twenty-two in the community will some time during his life require treatment for mental disease. About 8,000 persons were admitted to Canadian mental hospitals during 1930, and there will likely be many more than that in 1931.

Of course, these 8,000 did not all remain in the mental hospitals. Most of them were sufficiently improved to go home again, and some died.

It costs the Canadian public \$10,000,000 a year to feed and look after these 30,000 people—in addition to what their relatives spend on them. In these days when so many people are out of work this next point may seem very important, but it is true just the same that 30,000 persons taken away from productive employment mean a loss to the community as a whole. And then—which is more serious—there is the vast amount of blasted hopes and human suffering. These can not be put into figures!

Those in mental hospitals, however, are not the only cases who require mental treatment. There are others whose trouble is not so serious—those who suffer from various fears, and other disorders usually referred to as "nervous"—who should have treatment. This group numbers many more than all those in the mental hospitals.

FAMOUS TRAPEZE
PERFORMER DIES

Copenhagen, Feb. 16—Lillian Leitzel, internationally renowned trapeze artist, died this morning as a consequence of a bad fall on Friday night, while she was performing at a height of 45 feet without a safety net below her at the Valencia Theatre.

Her husband, Alfredo Cordonio, the leader of the famous Cordox Acrobatic Troupe, arrived by air from Berlin, where he was engaged at the Winter Garden. Some improvement then led doctors to believe that Miss Leitzel would recover, but an hour after her husband left this morning she took a sudden turn for the worse and died.

She was a native of Milwaukee, where her brother, Alfred G. Pelikan, is Art Director of Public Schools. Miss Leitzel appeared in Belleville in 1929 with Ringling Bros. Circus and delighted patrons with her daring display.

A NOVEL WAY TO
COLLECT A DEBT

The Pas, Man., Feb. 14—Gregory McGregor was a patient man. He also had definite ideas of procedure in the matter of debt collection.

Called to court to explain a charge of damaging the property of A. Lafontaine, Gregory also had a novel defence. He claimed that Lafontaine had owed him \$20 for some considerable time and he had tried to collect through the ordinary channels without result. McGregor decided he would destroy Lafontaine's property to the extent of twenty dollars and call everything square. Forthwith, he proceeded to rip up Lafontaine's blacksmith apron and bisect the blower.

His novel defence availed but little however, when the magistrate decided a jail term might be in order.

2 MEALS DAY, PLENTY
WATER, HELPS STOMACH

"Since I drink plenty water, eat 2 good meals a day and take Adlerika now and then, I've had no trouble with my stomach."—C. DeForest.

Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisonous waste which caused gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adlerika give your stomach and bowels a REAL cleaning and see how good you feel! C. R. Johnston, the Druggist.

Guess Work.

Things may come out all right if you trust to guess work, but there is an uncertainty about it and in many cases the results are distinctly unsatisfactory. The household run on guesswork is not managed as it should be. Knowledge full and sure is the only guide, and the housewife may have that knowledge regarding prices, qualities, the best time and the best place to fill her household requirements, by keeping close tab on the advertisements. There is news in the advertising columns that is just as interesting as the other parts of the paper, and which will eliminate guess work.

OBITUARY

DAVID W. REDNER

On Saturday, Feb. 7th, all that was mortal of the late David W. Redner was laid to rest in Albury Cemetery. Late Mr. Redner was born in Williamsburg Township 72 years ago and passed away just three days before his birthday.

He was a life-long member of Centre United Church and for years was one of the Representatives on the Quarterly Board at Rednersville. For the past fourteen months he had suffered from an incurable disease and despite his pain he was cheery and patient to the very end. His pastor, Rev. Geo. Ross, who visited him very frequently, said that he was the greatest example of Christian fortitude he had ever seen. His example and influence are such that they will live long in the minds and hearts of those left behind.

The late Mr. Redner leaves to mourn his widow, one son, Douglas, a daughter-in-law, a grand-daughter, Betty; one nephew, Malcolm Way and one niece, Mrs. Chas. Young, both of York Road, Trenton.

The beautiful floral tributes were as follows—Pillow, the family; Spray, Betty; pillow, Madoc friends; basket, Malcolm, Ethel, Charlie and Bessie; Wreaths—Mr. W. N. Redner, Helen, Mr. and Mrs. E. Spencer and Donald, Rednersville Band; Sprays—Mr. and Mrs. B. L. Redner, Mr. and Mrs. J. A. Blakely and Centre Neighborhood.

MRS. A. BARROW

Mrs. Addie Barrow passed away on February 8th at the home of her daughter, Mrs. Wm. Kehoe, Actinolite. The deceased, whose maiden name was Addie Pecord, was 89 years of age. Her husband predeceased her about twenty-eight years ago. She is survived by six children: Mrs. Kehoe, Actinolite; Mrs. Chas. Baker, Wm., Steve and Frank, of Tweed, and Peter, of Duluth, Mich. The funeral took place on February 10th to St. Catharines Church, where Rev. Fr. O'Riordan officiated.

GEORGE HENRY ASHLEY

There passed away on February 12th, in his fifty-ninth year, George Henry Ashley, 14 West Moira St., Belleville, son of the late Mr. and Mrs. Simeon S. Ashley. The deceased was born in West Huntingdon and had resided in Belleville for the past eighteen years.

He leaves to mourn his loss his widow, three daughters, Mrs. M. Raynor, Albany, N. Y.; Viola, of Albany, N. Y.; and Mrs. Charles Harrison, of Trenton; three sons, Grant, at home; and Roy and Earl, of Niagara Falls, N. Y.; five sisters, Mrs. W. Kelly, Foxboro; Mrs. J. Dickens, Norwood; Mrs. James Lake, Foxboro; Mrs. Jas. Owen, Fort William and Mrs. George Harris, Belleville; three brothers, Hiram, of Holloway, Hartford, of Manitoba, and Charles, of West Huntingdon.

Mr. Ashley was a member of the Tabernacle United Church.

BELLEVILLE MARKET

SATURDAY

Eggs were much scarcer today on the local market owing probably to bad roads and prices rose to 28 and thirty cents. Butter was steady at 35c a pound. Chickens brought from \$1 to \$1.75 each.

Dealers' prices on eggs are higher, two cents up on extras and one cent on firsts. The quotations are, extras 23c, firsts 19c, and seconds 15c.

The meat market showed few changes, beef at thirteen cents wholesale, lamb at eighteen cents by the carcass, pork at \$13.00 per cwt. dressed and hogs \$8.00 liveweight; veal, 8 cents live and seventeen cents dressed.

Potatoes showed no change in price, bringing one dollar per bag. Wood was not as plentiful today and sold at ten dollars a cord for hard wood.

Head cheese was offered on the outer market at ten cents per pound. The apple market was not as large as usual, apples selling as follows: Delicious \$2.50 to \$3.00 bushel; McIntosh Reds \$2.50 bushel; Northern Spies, \$1.50 to \$2.00; and cooking apples one dollar per bushel.

FIRE-FIGHTERS

SUCCUMB TO GAS

Rochester, N. Y., Feb. 13—With forty-eight firemen in the hospitals and nearly as many more recovering from smoke and gas poisoning after being treated at an emergency hospital on the street the last ember of the five-hour downtown fire was extinguished, putting an end to the situation which overcame the entire companies. Smoke and carbon monoxide gases, rising from the blazing oil fuel, dropped fire men with and without gas masks, effecting more than a hundred. Firemen fought the blaze all night and this morning.

HAZZARD'S W. M. S.

The February meeting of Hazzard's W.M.S. was held on Thursday, the 5th, at the home of Mrs. D. Gunsolus.

Mrs. Geo. Harris took charge of the meeting. The opening hymn, "From every stormy wind that blows," was followed by prayer. The scripture lesson was read by Mrs. D. Gunsolus. Minutes of the last meeting were read and approved. This was followed by the Roll Call.

Owing to illness at her home, Miss Hettie Trotter, delegate to the Belleville Presbyterial recently held in Picton, was unable to attend to give the report at this meeting. Mrs. Blair gave an account of part of the 2nd chapter of the Study Book.

Mrs. V. Tumely read a letter recently received from Miss Marion Coon, a missionary in China. Miss Coon was at one time a resident of Tweed, where she made many friends, not only in her home town but with the surrounding community as well. She has been her special missionary in prayer and her letters show her deep appreciation in their interests for her.

Mrs. Geo. Harris, who also attended the Presbyterial at Picton, gave a few minutes' talk on the splendid work of the Mission Bands, showing how the young people were taking an earnest and enthusiastic part in Mission work.

The treasurer, Mrs. M. Howard, gave a report of the money received for dues, also contribution money for the month, which was very satisfactory in starting the year's work.

After singing the hymn, "My faith looks up to Thee," the meeting was closed with the Mizpah Benediction.

BRITISH MARKETS

FOR CANADIAN CATTLE

Calgary, Alta., Feb. 14—There is a future for Western cattlemen on the British market, according to a consensus of opinion among the ranchers and cattlemen who contributed to the test shipment of cattle to the British Isles last fall. The shipment was made under the auspices of Federal department of agriculture.

Some of the ranchers feel that the cattle did not bring the returns expected but the majority express satisfaction with the financial returns.

Rod McLeay, of High River, Alta., a heavy contributor, stated that a good deal had been learned from the test shipment. "We should be able, with the co-operation of the railways, to effect economies that will ensure a reasonable profit and the establishment of a regular traffic," he said. "Joe Wylie, cattle rancher of Maple Creek, declared his cattle returned him 'as much as they would have on the home market.' He was well satisfied with the trial and added that ranchers of his district held similar opinions.

YOUNG AVIATORS

DIED IN CRASH

Barrie, Feb. 14—"Blind" flying is believed to have been in progress during the crash of an airplane at Camp Borden at noon yesterday that cost the lives of two newcomers to the R.C.A.F.; when their Moth two-seater plane fell more than 1,000 feet in the swamp adjoining the camp. The men were, Pilot Officer Carl Alan Kaspner Gill, aged 32, of Trail, B.C., and Napoleon Albert Duval, aged 21, of Contrecoeur, Que.

When officers at the camp reached the swamp they found the plane a twisted mass of wreckage. One man was dead, his neck broken, while the other was still breathing, although he died before being pulled out of the machine, it was learned here last night. The bodies were brought to a local undertaking establishment early this evening to await funeral arrangements.

Although nothing official could be learned at the camp itself, it was stated tonight by a witness that a few minutes before the crash a plane had fallen almost to the roofs of buildings at the camp in a tail spin, but it was righted before any damage was done. Whether it was the same plane that crashed is unknown, as the witness did not notice the number.

SOUGHT BRIGHT

LIGHTS OF CITY

Niagara Falls, N. Y., Feb. 11—Thirteen-year-old Samuel Jackson, missing from his home here since Sunday, reached home today at the point of exhaustion, with his feet, hands and face badly frozen.

The boy, who formerly lived in Toronto, told his mother, Mrs. Lillian Jackson, that he started to walk to Toronto but turned back when he was near Hamilton.

He was without food during his hike. He said Niagara Falls was too dull and that he wanted to go back to the Canadian city.

BRUTALLY SLAIN

IN STREET BRAWL

Hamilton, Ont., Feb. 11—With fourteen knife wounds in his body Ludwik Radaczky, 27 year old technical School student, died in the hospital this morning, three hours after he had been wounded in a brawl at the rear of a Gerrard Street house.

Three men were arrested in connection with the fight and held on nominal charges of vagrancy. They were John Dyhka, 22, St. Catharines; Joseph Pikorowski and Tony Varcho, both of Hamilton.

An argument started in the boarding house and the proprietor, aided by boarders including Radaczky who came from St. Catharines yesterday, attempted to eject the noisy ones, police were told. In the excitement Radaczky was put out with the others. A boarder later opening the back door after things had quieted found Radaczky kneeling on the steps and one of the intruders standing over him with an upraised arm. The knife was found about thirty yards from the scene.

ENTERPRISE MAN

DIED OF SHOCK

Kingston, Feb. 16—James Murphy, aged 60, living near Enterprise, died in the Hotel Dieu here from cold and shock.

Murphy had driven to the home of a friend, Irvine Oederkirk, and after getting out of the sleigh and making his way toward the house became confused and fell in the snow. He was unable to regain his feet and remained where he fell for some time before discovered.

When he was found his hands were badly frozen and his condition was such that he was removed to the hospital in Kingston. Several of his fingers were amputated. He failed to recover from the shock.

I. O. O. F. MEET IN

WINNIPEG IN FALL

Winnipeg, Man., Feb. 14—Thousands of delegates from all parts of the continent will journey to Winnipeg this fall to attend the annual convention of the Sovereign Grand Lodge of the Independent Order of Oddfellows. The huge meeting will commence Sept. 21 and conclude six days later.

It is almost two decades since Winnipeg played host to the Odd fellows and the local organization is busy preparing a right royal welcome to their brethren from every corner of North America. Meetings of the Association of Rebekah Assemblies, the Department Council, Patriarchs Militant, Grand Secretaries and Grand Scribes' Associations, Rebekah Assembly Secretaries' Association and the Fraternal Press, will be held in conjunction with the convention.

TO COVER COST OF

PAVING PROGRAM

Trenton, Feb. 11—Approximately \$115,000.00 of debentures are being issued by the Town of Trenton sometime next month. These debentures will bear five per cent. interest over ten and fifteen year periods, and are being issued to help defray the cost of last year's paving operations as well as taking care of the municipality's share of the Dominion Bond issue.

An offer from a reputable brokerage house in Toronto for \$70,000. of the debentures at 99 has been accepted. The town will take care of \$40,000.00 of the issue, itself, and the small balance is being disposed of locally.

TORONTO A CITY

OF COMIC PAPERS

Hamilton, Feb. 6—"Toronto is the most fortunate city in the world, for the people get four comic newspapers every day," said Rev. G. Stanley Russell, of Deer Park United Church, Toronto, during an address before members of the local branch of the Bible Society, in Centenary United Church last night. The reference came as an aside. Rev. Mr. Russell, who came to Canada eighteen months ago from England, made a plea for the strengthening of ties between the Old Land and Canada.

NOW FACING

TORONTO CHARGE

Toronto, Feb. 16—Inspector Chas. Gurnett, of the Provincial Police, left Saturday for Lethbridge, Alta., to arrest I. W. C. Solloway, of the defunct stock brokerage firm of Solloway Mills Company, Limited. Solloway is to be released from the Western jail Feb. 21 after serving three months' sentence on conspiracy charges arising from the dealings of his company. Gurnett carries warrants charging fraud in the local dealings of the company.

OBITUARY

WILLIAM GEORGE BASSETT

After a short illness of a few days, William George Bassett, a highly respected citizen of Madoc, passed away at the family residence on the evening of the 9th instant. The deceased, who was in his seventy-second year, was born in Burghclere, Hampshire, England, where his younger days were spent. He came to Madoc in 1892, afterwards settling in West Huntingdon, and for the past 34 years he has resided in Madoc.

He is survived by his widow, Mrs. Sarah Bassett, of Madoc, three daughters, Mrs. George Stringer and Mrs. W. H. McBain, of Madoc, and Mrs. Roy Carleton, of Kingston, four sons, George, of Madoc, Sturgess and Edward, of Trenton, and Gladstone, of Port Hope, twenty-one grandchildren and 3 great grand-children, as well as one sister, of Reading, Eng.

In religion he was an Anglican. The funeral was held from his late residence on the 11th instant, interment taking place in Lakeview cemetery, and was conducted by the Rev. G. W. Rivers. The bearers were the four sons and two grandsons.

Many beautiful floral tributes were sent by friends and relatives.

HEARST FAMILY

ESCAPED DEATH

Sault Ste. Marie, Ont., Feb. 17—Mary Knipprath, 16-year-old daughter of H. Knipprath, of Hearst, had a narrow escape from death when, escaping from the burning apartments above her father's bakery, she was compelled to smash her way through a heavy glass window, drop one storey to the roof of a shed and thence to the ground. She is now in the hospital at Hearst suffering from severe cuts, burns and shock.

The fire, which destroyed the bakery and a new block adjoining, started in a shed from unknown cause. The girl, awakened in the night, found the apartments full of smoke, awoke her father, who ran in his night clothes to turn in the alarm, and then escaped herself.

The new addition to the building which had just been completed and was occupied by the Banque Canadienne Nationale in March was also badly gutted. The office of the Canada Forwarding Company upstairs in the new building was a total loss.

FIRE DAMAGES GARAGE AT TRENTON

About \$150.00 damage was done to the Service Station and Storage Garage of R. J. Delaney, Front Street, Trenton, by fire which broke out in the annex on Sunday morning.

After starting the oil-heater in the annex Mr. Delaney left to deliver the Victorian Order Nurse's car. He left Mr. R. Wymess, local merchant and Mr. G. Prettie, motion-picture projectionist, chatting in the office of the Service Station.

Smelling smoke, the two men rushed out to see what was the trouble, just as Mr. Delaney returned from delivering the car. The three men noticed smoke curling out around the door of the annex. Opening the door they were met by a blinding rush of dense smoke from blazing interior.

The fire reels responded quickly to the alarm and about fifteen minutes work with chemicals, axe and water was necessary to extinguish the blaze.

Y. P. S. OF TRINITY CHURCH

The Y. P. Society of Trinity United Church met as usual on Monday evening. Mrs. J. W. Hulin, vice-president, presided. After the opening exercises Miss Mildred Broadworth, convener of the Literary Committee, took charge of the programme. Several musical selections were given, also a valentine reading.

At the close of the meeting a valentine social was held. Community singing and appropriate games were very much enjoyed by all, and refreshments were served.

ILL-FATED DIRIGIBLE REMAINS TO BE MELTED

Friedrich Shaffen, Germany, Feb. 17—Great Britain's tragic dirigible R-101 is to fly again, in spirit, though the wreckage of her great skeleton is a twisted pile on the hillside near Beauvais, France. The Zeppelin works here has bought the metal remains of the ship and will melt them down to be fashioned into parts of the new German dirigible LZ 129.

"Merchandising success," says Roger Babson, "depends upon two principal factors. These two factors are: first, good advertising in sufficient quantity; and second, a good product. No matter how good a product is, it must be sold. The best way to tell them is through the local newspaper."

JUST AS OLD AS THE GLOBE

The following paragraph appeared in The Retail Merchants' Globe, published in Toronto, on Tuesday, February 17th.

"M. W. Connor, of hardware firm of Connor & Son, Madoc, is one of the veteran retail merchants of whom this district may well be proud. He has just celebrated his seventy-eighth birthday, and is still in good health."

ST. PETER'S PRESBYTERIAN CHURCH

Minister, Rev. T. G. Marshall

Sunday, February 22, 1931.

10 a.m.—Sunday School and Bible Class.

11 a.m.—Morning Worship

3 p.m. Service at Tweed.

6.50 p.m. Song Service.

7 p.m.—Public Worship. Subject: "He died climbing."

ELDORADO CHARGE

Rev. I. N. Beckstead, Minister

BANNOCKBURN WOMEN'S INSTITUTE

The monthly meeting of the W. I. of Bannockburn Branch held their meeting at the home of Mrs. Sam McEwen. The President, Mrs. Jas. Bailey, occupied the chair and Mrs. Hugh Empey acted as Secretary in the absence of Mrs. Ken Bateman.

Roll Call was well responded to by conundrums, after which the minutes of last meeting and correspondence were read.

Miss Bell gave an account of current events in her usual pleasing manner.

It was decided to give the boys who collect the greatest number of woodchuck tails and crows' feet prizes of first, \$5; second, \$3; and third, \$2. The tails and feet are to be handed in to the Branch each month, and the contest to end about the first of July.

A St. Patrick's party is to be held in the Hall. Each member is to contribute an article made from a yard of cotton and ten cents, and these are to be sold that night; also the lucky ticket will be drawn for the handsome quilt which was donated by Mrs. Jas. Fox, Eldorado.

The meeting closed in the usual way, after which the visiting hockey players were invited in and served with a dainty lunch.

NOTICE TO CREDITORS

In the estate of John Birrell.

Creditors and others having claims against the estate of John Birrell, farmer, who died at the Township of Tudor, in the County of Hastings on the 29th day of December, 1930, are notified to send to the undersigned solicitor for John J. O'Rourke, the administrator of his estate, before the 28th day of February, 1931, particulars of their claim in writing verified by statutory declaration, after which last date he will distribute the estate amongst the persons entitled thereto, having regard only to the claims of which he has then notice, and he shall not be liable for any part of the estate so distributed to any person of whose claim he had not notice at the time of such distribution.

Dated at Madoc this 12th day of February, 1931.

Geo. S. White, Madoc, Ontario, Solicitor for John J. O'Rourke, Administrator.

Pure Jersey Milk Only

To cope with the increasing demand for our Jersey milk, we have enlarged our stable room and increased our herd until we are now able to guarantee each and every bottle to contain Foster's Jersey milk and no other.

Our stables are white-washed, disinfected, cleaned three times daily and liberal quantities of shavings used..

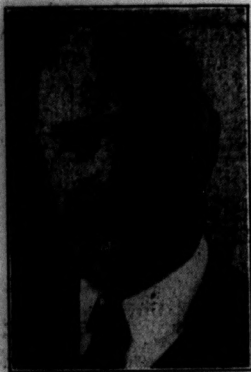

Our cows are clipped with a machine and are kept slick and clean constantly. They are fat and in a good healthy condition.

Our milk is handled in the most clean and sanitary manner, in a modern dairy, equipped with modern milk handling apparatus.

Foster's Jersey Milk is a superior product but the price is the same.

Our Phone No. 191

A GREAT COMPANY'S DIAMOND JUBILEE

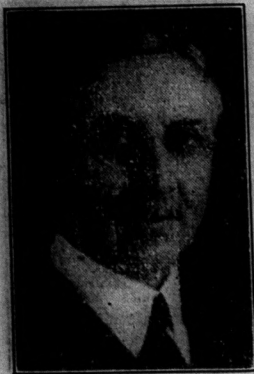

T. B. MACAULAY
President

Sun Life Assurance Co. of Canada. Life assurance has now, apparently, reached such a point in public estimation and confidence that it seems comparatively immune from the ordinary vagaries and fluctuations of other lines of business. The Sun Life Assurance Company of Canada, whose report appears elsewhere in this issue, seems to enjoy this public confidence to an unusual degree, for it reports new policies written during the year to the net amount of over \$700,000,000, the largest in the company's history of sixty years.

This year it celebrates its diamond jubilee. A graphic picture of its progress is shown in the report which discloses, decade by decade, its growth from assurances in force in 1880 of less than \$4,000,000 to over \$2,800,000,000 today; and of an accumulation of assets from less than \$500,000 in 1880 to nearly \$590,000,000 at the present time. Even more striking is the fact that the company has paid to policyholders and beneficiaries since its organization over half a million dollars—more than its entire assurance in force only ten years ago. This is almost magical and helps to explain the widespread faith of ordinary men in life assurance from the standpoint of investment as well as of family protection.

A most interesting feature of the report relates to the company's investments. The Sun Life has long been a consistent and successful investor in high grade stocks. These securities are valued on the last day of each year by the Canadian Department of Insurance on the basis of their market price on that day. Such a test this year, needless to say, was a most exacting one. Yet even at the abnormally low prices prevailing at the end of the year the company's common stock holdings, taken by themselves, showed a substantial excess over cost. Moreover, the actual cash dividends paid during 1930 on the total common stocks held by the company in the previous year were nearly \$1,000,000 in excess of the dividends paid on these identical shares in 1929. Such a satisfactory issue from the sharpest and severest market "break" in this generation is a wonderful vindication of the investment sagacity of the company. The rate of 6.44 per cent, earned on the mean invested assets of the company is a further proof of thrifty administration.

The company announced that the profits to policyholders entitled to participate during the ensuing year will be allotted on the same generous scale as has existed for some time, and that the special maturity dividend which has been so popular will also be continued.

ARTHUR B. WOOD
Vice-President and Chief Actuary
Sun Life Assurance Co. of Canada

Stirling horticulturalists are up in arms over the damage caused by the dogs ruining flower beds and shrubs, and the Horticultural Society there is asking the Council to pass a by-law prohibiting dogs running at large from May to November.

W. M. S. BRANCHES MEET IN BELLEVILLE

The seventeenth annual meeting of the Kingston Presbyterian W.M.S. of the Presbyterian Church in Canada was held in St. Andrew's Church on the afternoon and evening of Tuesday, Feb. 10th.

Devotional exercises were conducted by members of Deseronto Auxiliary after which Mrs. Morris welcomed all delegates to the beautiful city of Belleville and to St. Andrew's Church in particular. This was ably responded to by Miss Ella Kells, of Sunbury.

Minutes of the afternoon session of the summer meeting held at Sand Hill were read, also those of previous executive meetings. The following resolution was passed namely: that all Departmental Secretaries who are unable to attend the Executive held previous to January 20th send in a written report of the year's work to corresponding secretary.

The President's address was given by Mrs. Geo. Reid, of Belleville. She stressed the importance of sectional meetings and advised that these take place in the summer months at the same time as the regular Presbytery meetings held. She also requested that all auxiliaries wishing speakers for either Easter or October Thank Offerings should communicate with her in the near future.

The Corresponding Secretary's report was read by Mrs. Duff, showing an increased interest in the work and making special mention of the splendid average attendance maintained in several auxiliaries.

The Treasurer's report given by Miss Fowler was encouraging in that the Presbyterial contributed a larger sum than last year although it did not quite reach the increased allocation.

An interesting letter was read from Mrs. McLennan, Provincial President, conveying greetings and certain items of useful information.

The Presbyterial was delighted to have a Provincial representative in the person of Mrs. Anderson. She urged a more considerate service and advised that we carry the same spirit of self-sacrifice into our W. M. S. work that was so willingly exhibited during the war.

Encouraging reports were given by the various Departmental Secretaries. The Home Helper Secretary suggested that each auxiliary adopt a Home Helper this year with a view to these becoming active members in the near future. The Library Department continues its work of sending reading material to lumber camps, schools and hospitals and this literature is a great source of delight and instruction to people in far off places. Life membership certificates to the number of sixteen were issued also seven junior life memberships. Supplies to the value of \$926 were sent to School Homes and Hospitals.

The Presbyterial was pleased to accept the kind invitation of Picton Auxiliary for the summer meeting to be held in June and a delegate was appointed to attend the annual Provincial in Windsor.

The evening session opened with Devotional Exercises led by Rev. J. A. Seymour and assisted by Foxboro Auxiliary after which official greetings were presented by Mayor Reid, of Belleville. He attributed the law-abiding and peaceful condition of this city and all cities to moral and spiritual influences of the churches and to the women of the W.M.S. in particular.

Rev. A. N. Reid, of Stirling, conveyed greetings from Presbytery and a solo was delightfully rendered by Mrs. (Rev.) Seymour.

Rev. F. G. Vesey, of Parkdale Church, Toronto, gave a most inspiring address on the problems facing the Christian Church at this particular time. His experience as Missionary to the Koreans in Japan enabled him to speak with authority as to the political and religious condition of the Orient in general.

The officers for 1931 were suitably installed by prayer led by Rev. W. S. MacTavish and after hearing the reports of the Nominating and Resolutions Committee the meeting was closed with the Benediction pronounced by Rev. H. Reid, of Foxboro.

OWL IS FOOLED

BY STUFFED DUCK

Sometimes even the wise old owl gets fooled. This happened the other day at the National Museum of Canada at Ottawa when a huge horned owl mistook a stuffed duck for a good meal. The owl, a splendid specimen, had been brought to the museum late in the afternoon. He was confined in a cage to await slaughter and stuffing the next day. But the owl was hungry and escaping from the cage he saw the stuffed duck. The next morning museum attendants found the floor littered with feathers and stuffing material. But the owl was still hungry.

"YOUNG MEN TO THE WALLS!"

"My boys have got to be a whole lot smarter than I ever was," a farmer exclaimed one morning this winter as he brought one of his sons to the railway station where he entrained for Guelph to attend a short course at the O. A. C.

"I managed to get along," he continued, "but I did it with strength and muscle. The boys will have to use their heads far more than I ever used mine, and they will have to have some special training to equip them for it."

Thousands of farmers, if they were willing to express themselves, would readily endorse those sentiments. It implies no criticism of the present generation of Canadian farmers. The cleared, fenced and well-built farms of Eastern Canada are a tribute to the intelligence and perseverance of the pioneers and those who have come after them. But progress (if progress it be) has been so rapid these last few years that even those in whose minds the great inventions have been conceived are at a loss to know whether all this modern equipment and increase in scientific knowledge will raise mankind to higher levels or precipitate our whole civilization into a helpless mass of wreckage.

Advanced methods are taking the place of easy-going, traditional practices of the past generation; and on such an extensive scale that world output is creating an embarrassing situation for those whose methods or whose soils place them in the marginal class. We, in Canada, can make so many improvements and so much all-round progress in our agricultural programme that the picture is not so dark as, at first sight, it may appear.

Surveys of one kind or another have revealed some startling facts. The results of seed-drill surveys show conclusively that a large percentage of the producers are paying no attention whatever to the seed put into the ground in the spring. A survey in Oxford County several years ago discovered that the cost of milk production varied all the way from \$1.70 to \$4.86 per cwt. on different farms; and it furthermore demonstrated that the dairyman with a herd averaging 5,000 pounds of milk per cow or less had a minus labor income of \$115, while the owner of a herd averaging between 6,000 and 7,000 pounds of milk per cow had a labour income of \$599 per year. But this problem of production costs goes further back than the cow, the hen or the hog. Soil tillage and cropping are more fundamental still. Digestible protein produced in timothy hay will cost the feeder around \$16 per cwt., whereas it can be and is being produced at a cost of \$3.25 per cwt. in the form of alfalfa. Going still further back to the beginning of the cost structure we find farmers purchasing fertilizers individually in one, two and three-ton lots, and giving a note in payment. In Prince Edward Island the requirements are pooled into one huge order and an immense saving is made. Growers on the Island obtain their bluestone for spraying purposes for approximately half what the Ontario grower is paying. Prince Edward Island is adopting the European methods of buying where the growers, not of one country only, but of several countries, unite to place their orders for fertilizers.

The struggle the world over is now to lower the cost of production, and because of our present extravagant methods of doing this no exporting nation with whom we are competing on the markets of the world has a better chance of reducing costs and increasing efficiency than the farmers of this Dominion.

It is a challenge to one and all, but as in days of old it must be the young men who will lead the attack. Now, as then, it is "Old men to the council, young men to the walls."—Farmer's Advocate.

NEW ZEALAND CENTRE OF 'QUAKE SHOCKS

Wellington, New Zealand, Feb. 13. —A large section of New Zealand was rocked today by severe earthquakes. In the Hawkes Bay district of North Island the tremors were much more intense than those which devastated the district last week. Chimneys fell at Queenstown and the communication with Hawkes Bay disrupted so the new damage there could not be learned. The shocks were felt as far north as Hamilton and south to Invercargill they caused considerable alarm throughout the affected area. Napier, which was practically destroyed by quakes a week ago, suffered further damage. Walls left standing during the last disturbance were tumbled and all work of clearing the town of the debris was halted. Several workmen were injured.

KIDNAPPED 15 YEARS AGO LOCATES PARENTS

Calgary, Alta., Feb. 13.—Kidnapped in Barre, Vermont, at the age of three and a half years and kept in ignorance of his parentage for more than fifteen years, Eldridge McDonald has found his parents.

Twenty years ago, Mr. and Mrs. James McDonald, now residents in Calgary, were living in Barre. One evening it was discovered that their little son was missing. Police were notified immediately but, despite searches in the district, no trace of the lad was found.

For years the loss was acutely felt by the parents and, finally, the memory was only as of one who had died.

While playing in front of his home young Eldridge was grabbed and hurried away to the home of a German couple, where he was reared, believing for 15 years that the German couple were his parents. His first memories after Barre were of Cincinnati, where they lived until 1910, and then of Hollywood, Cal.

Five years ago there was a domestic quarrel and the "father" hotly told the young man that he was no son of his.

Neither the man nor the woman could tell Eldridge the name of his parents—in fact, could give no information save that his father followed the monument business. Then started the young man's search which took him several times across the continent, through 43 States and from one end of Canada to the other.

His father, at the time of the kidnapping, was employed as head foreman in one of the leading granite works in Barre. After moving from there he came to Calgary, where he established his own business.

Chance brought the son back to his parents' arms. While in Boston, last fall, Eldridge heard the story of

the kidnapping of a lad in Barre and heard that the father's name was McDonald. Inquiries among his friends in Boston disclosed that the McDonald whose son was kidnapped had gone to Calgary, and immediately the lad set out for Alberta city. He reached Calgary and speedily found his father.

After a short holiday in Calgary the boy became a partner with his father in business and is now back in the Vermont city where he is learning in one of the larger plants of the granite centre. He will return to his parents in the very near future.

SPARE THE TREES

With plans under discussion for the widening of some Canadian highways, the question of sparing the trees that line and beautify the roads has been raised. Tree lovers all over the country have voiced objection to any scheme that would mean removal of trees in great numbers. The job of planting trees and making boulevards along Canadian highways has been independently and enthusiastically accepted by groups of people in many sections. Not more than a year ago Elgin County, Ontario, residents undertook the planting of saplings, completing a seven mile stretch of roadway in a single day. If the widening of highways means destruction of trees, the work of the tree planters has gone for naught. An example of how trees can be injured by the advance of modern institutions can be seen in Huron and other Ontario counties where, apparently, little thought was given the saving of trees when power line construction was under way. When roads are widened, some plan should be developed to prevent destruction of the fine old maples and elms of which Canadian provinces are proud.

CANADIAN MADE BOOTS

According to the latest official figures the total production of leather footwear in Canada for the eleven months ended November 30 last year was 16,023,190 pairs, or an average per month of 1,456,654 pairs.

A NEW CANADIAN ROSE

To encourage the production of new varieties of flowering plants in Canada the Canadian Florists and Gardeners' Association provides a gold medal annually, to be awarded by the Canadian Horticultural Council to the grower who produces the best florist plant or flower recorded with the Council during the year. The medal for 1930 has been won by a new variety of rose, named, "Red Beauty."

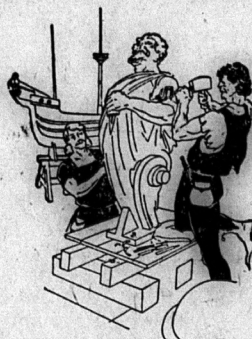

BRITISH ISLES

SWEPT BY GALE

London, Feb. 4.—The winter's worst gale and blizzard struck the British Isles, spreading death and destruction over a wide area. Ships were battered by heavy seas, telegraph lines in the north were down, and the night long blizzard threatened to paralyze transport services.

The death toll in the north of England had reached there last night. Many cattle were reported missing. Train schedules were disrupted. Passengers on omnibuses in the vicinity of Glasgow, Scotland, were isolated along the highways by the blizzard.

The wind piled snow drifts four to six feet along roads throughout the north country. Three landslides blocked the Antrim coast road and disrupted telephone and telegraph services.

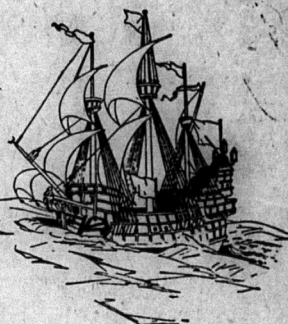

Setting New Standards of Dependability

THE longer you drive the new Chevrolet Six the more you will appreciate its ruggedness and reliability. Its increased wheelbase gives added stability and freedom from vibration. The frame and axles have been strengthened. There is a stiffer crankshaft and reinforced cylinder block. The moulded brake linings give as much as 25,000 miles of service without relining.

The new Fisher Bodies are not only smarter and roomier, but are also of hardwood and steel construction . . . the strongest known. The fine upholstery fabrics are specially selected for unusual durability. The non-tarnishing chrome-plated metal parts, and gleaming colors will retain their beauty indefinitely.

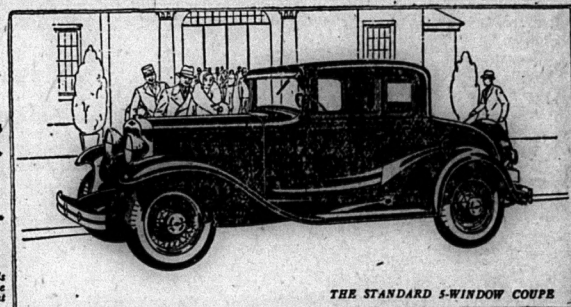

The new Chevrolet Six is built to give you years of faithful service. And it sells at new low prices!

New Low Prices

The Standard Roadster - \$610
The Sport Roadster - 640*
The Phaeton - 655
The Coach - 695
The Standard Coupe - 695

MADOC

A BELATED VALENTINE

Good-natured Enoch Satterlee had a good natured wife;
No quarrels ever marred the even tenor of their life,
They jogged along serenely in a calm and placid way,
All the neighbours quite agreed a model pair were they.
Almira wasn't much on style, but gave him three square meals
She let him smoke his pipe in peace and earned his toes and heels:
And Enoch never thought to rise when she came in the room,
Unless indeed she shoved him out with duster, mop and broom
And as to little compliments about her look or dress,
He never thought of those at all—and she thought even less
Had he been asked he would have said, "Oh, well I like her ways,"
And "He's a good provider" would have been her meed of praise
All this was well enough, of course; But as the years went by
The pair began to drift apart and couldn't say just why.
They loved each other, but you see, it never had occurred
To either of them, that love pines for lack of spoken word.
One day as Enoch went down town, by luck he chanced to pass,
Absorbed in their own love affairs, a laughing lad and lass;
They read something together and they smiled at every line;
Old Enoch craned his neck to see; it was a valentine!
"By gum," he said "By jumptin' jinks; I wonder what she'd say
If I should send Almira one? I will—this very day!"
He hurried to the village store and bought the finest one,
And sent it to his wife by post—then waited for the fun,
He watched Almira while she read the tender missive through;
And tears fell from her shining eyes—and his were filling too;
And as he took her in his arms she flushed a lovely pink,
And said "This valentine has brought, all that life lacked, I think."
—Carolyn Willis

NEWS AND INFORMATION FOR THE BUSY FARMER

Coming Events

Annual meeting Ontario Fruit Growers' Association, Hamilton, Feb. 24th to 26th.
Short Course in Horticulture, O. A. C., Feb. 23rd to 27th.

Bulletins on almost all subjects pertaining to agriculture may be had free of charge by writing to your local Department of Agriculture office. These bulletins give more definite and complete information on many subjects which have been outlined in this column. If you need advice on any particular subject, the chances are that you can secure a bulletin dealing with it at the local representative's office.

Canadian Onion-Eaters

Ontario Week did a lot to increase the popularity of Canadian onions. It also brought to light some interesting facts about this rapidly-growing industry. Per capita consumption of onions in Canada in 1929 was about ten pounds. In other words, this means that a total of 100,000,000 pounds—50,000 tons or some 2,000 carloads—of onions were eaten by Canadian people. This huge quantity came principally from two sources. Canadian growers produced 29,976 tons, and something over 20,000 tons were imported from the United States. Over \$75,000 was spent by Canadian on United States grown onions. Canadian production is increasing rapidly and is of exceptional quality.

New Methods Urged

Overhauling of farm methods in Ontario, the application of scientific principles of farming, the spreading of agricultural vocational training, the cutting down of overhead, elimination of waste and improvement in marketing methods, are some of the proposals contained in the report of the Hon. T. L. Kennedy, Minister of Agriculture, to the Government, which are likely to be embodied in the form of legislation at the session now in progress. One of the chief difficulties confronting the Department has been the conversion of farmers to the need of improving their marketing methods and generally departing from practices in vogue before the era of competitive

progress. The Minister hopes to put agriculture on a basis where it will produce higher quality products at less cost. For instance Ontario farmers have lost hundreds of thousands of dollars through parasites in hogs. Hogs thus affected take considerable more feeding than do healthy hogs, a matter of several months and the farmer's profit is considerably lessened as a result.

Notwithstanding recent declines in the price of lamb and wool, Ontario Sheep Breeders were not at all discouraged at their annual meeting. It was pointed out that this country still imports wool and mutton equivalent to half a million sheep, so that there is plenty of room for expansion.

For Better Seed

During the past year Agricultural Representative F. S. Thomas, of Elgin County, had school children collect 850 one-pound samples of the grain their fathers were sowing. This winter he has set up a small fanning mill, run by an electric motor, in his office and he is cleaning these samples as an object lesson. The results of the tests will be published and he thus hopes to stir up interest in better seed and eventually to raise the average yield of spring grain in Elgin County from around thirty-five to present to fifty bushels per acre.

Weekly Crop Report

Reports from county representatives indicate that the majority of farmers have sufficient supplies of feeds to bring their livestock through the winter in good condition. A greater number of cattle will be ready for market earlier than other years and fewer cattle will be carried over for early summer marketing. In Bruce County there is a decided increase in the number of young sows being kept. Egg prices there are low, varying from 15c to 23c to the farmer and 27c at the store, too much difference. At the Shorthorn sale at Bowmanville in Durham County, satisfactory prices were received by the breeders. The high price bull which was one year old went for \$200 and a yearling heifer brought \$112. A Holstein breeder in Frontenac shipped fifty head of cows to the United States at satisfactory prices. Interest is being manifested in co-operative marketing in Grey County. Milk production in Huron shows about 10 p.c. increase over this time last year, due chiefly to more grain feeding this winter. Water shortage in Leeds is more serious than for many years, forcing many farmers to draw water or drive stock long distances. Eggs have advanced in price about 3c a dozen for the best grades in Lincoln County. The poultry population of Peel increased from 327,619 in 1929 to 383,777 in 1930, indicating substantial progress in poultry-raising. A new blood test hatchery has commenced operations in Brampton. In South Simcoe prices at auction sales are much higher than expected, ordinary cows selling at \$89.00 each and sows due to farrow in March at \$75.

Beekeepers Convened

The Ontario Beekeepers' Association and the Ontario Honey Producers' Association were hosts last week in Toronto to apiculturists from all parts of Canada and the United States to the number of about six hundred. The program was of a very practical nature, each item being handled by an expert of international reputation. A great volume of valuable information on up-to-date methods of beekeeping and the marketing of honey was forthcoming. In common with other branches of agriculture, beekeepers are seeking wider and more stable markets for their product and at this convention many avenues of research which have been explored during the past few years were explained.

A Marketing Board

Organization of a Provincial Marketing Board to assist farmers in disposing of their products is a probability of the near future, according to Hon. T. L. Kennedy, Minister of Agriculture. This Board would advise the producers when and how to market their various commodities. Agents would be distributed through Canada, chiefly in the large centres of population. From time to time they would report upon the needs of the district in which they resided, and that information would be passed on to the farmers and their organizations. The system would extend to Great Britain, where representatives of the Marketing Board would keep an eye on conditions and advise as to the most favorable times in which to dispose of Ontario's exportable surplus of farm products.

Keen Interest in Train

At stops already made, great interest has been shown by farmers of Southwestern Ontario in the Soils and Crops train now on tour of the counties in this rich, specialized farming area. The two demonstra-

THE BUSINESS OF PRINTING

The following on the "Business of Printing," was written by Henry P. Porter and is worthy of reproduction. It may sound egotistical in a way, but many facts are brought out that the general public are unaware of, which pertains to the publishing of a weekly newspaper.

"Printing is a good business. It is clean, honorable, respectable. It is celebrated as a trainer of men for higher stations in life. It has many inspiring traditions and legends. It combines the need for knowledge of everything under the sun: mathematics, history, language, spelling, grammar, color, composition, salesmanship; there is indeed no limit to the accomplishments that are required of the printer. The printer is brought into contact with all other vocations and professions. No vocation or profession can really exist without the printing press. From text-books to novels, from pamphlets to weekly or daily newspapers, from tickets to taxbills, no man can evade the printed word."

NOTICE TO CREDITORS

In the estate of Robert Alexander Rollins.
Creditors and others having claims against the estate of Robert Alexander Rollins, Esquire, who died at the Village of Madoc, in the County of Hastings, on the 19th day of January, 1931, are notified to send to the undersigned solicitor for George Harris and William Rollins, the executors of his estate, before the 21st day of February, 1931, particulars of their claim in writing verified by statutory declaration, after which last date they will distribute the estate amongst the persons entitled thereto, having regard only to the claims of which they have then notice, and they shall not be liable for any part of the estate so distributed to any person of whose claim they had not notice at the time of such distribution.

Dated at Madoc this 4th day of February, 1931.
Geo. S. White, Madoc, Ontario, Solicitor for George Harris and William Rollins, Executors. 5-3

NOTICE TO CREDITORS

In the estate of George Smith Wallace.
Creditors and others having claims against the estate of George Smith Wallace, farmer, who died at the Township of Huntingdon, in the County of Hastings on the 8th day of January, 1931, are notified to send to the undersigned solicitor for Abraham Wallace and Robert Harvey Wallace, the administrators of his estate, before the 21st day of February, 1931, particulars of their claim in writing verified by statutory declaration, after which last date they will distribute the estate amongst the persons entitled thereto, having regard only to the claims of which they have then notice, and they shall not be liable for any part of the estate so distributed to any person of whose claim they had not notice at the time of such distribution.

Dated at Madoc this 4th day of February, 1931.

tion cars are attracting much attention. In the Soils car one of the features is a graphic lesson on the importance of correct fertilizer applications. Opportunities for lowering costs of production are suggested in charts in the Crops car, types particularly suited for the district are represented by actual specimen, together with samples of high-class seed. Cereals, legumes, root, corn and tobacco crops are among those illustrated. Altogether the train offers a splendid opportunity to farmers for seeing what is being done in soil and crop improvement work. Special arrangements have been made to interest rural school classes and lectures will be given to them where the train makes a full day's stop. The train is operated by the Department's Crops and Market Branch, equipped by the O. A. C. Department of Extension and is in charge of Mr. A. R. G. Smith.

BIG GRAY WOLF SHOT

NORTH OF NORWOOD

Mr. Walter Crowe recently shot a large wolf in the long swamp between Centre Dummer and Stoney Lake, less than ten miles north of Norwood.

For the past four years it had been known that there was at least one wolf in this district. As Mr. Crowe carries the mail down the 9th line from Stoney Lake to Norwood, he was in good position to acquaint himself with the probable location of the wolf and was successful in capturing it. The hide has been hanging up in the window of King's Hotel. It measures seven feet from tip to tip. Besides the \$25.00 bounty, which Mr.

PROVINCIAL PLOWING MATCH

Peterborough County was unanimously chosen as the scene of the Provincial plowing competition to be held next autumn, by the Ontario Plowmen's Association in convention at Toronto last week.

The invitation to the association was extended by J. J. Duffus, past president, who headed a delegation from Peterborough County, composed of J. B. Nelson, agricultural representative; Howard Quinn, champion oat grower; and William Thompson, president of Norwood Fair, and world's champion honey producer.

Crowe can claim, the hide will net about \$8.00—Norwood Register.

The New OLDSMOBILE is the LOWEST PRICED CAR with SYNCHRO-MESH TRANSMISSION

For over thirty years Oldsmobile has inspired confidence by its dependability, and extra value. Each successive Oldsmobile has contributed to this policy. In the new Oldsmobile, Synchro-Mesh Transmission and the features noted below manifest even greater trustworthiness, and unusual value which assure enduring satisfaction.

Drive Oldsmobile! Ask about the General Motors Owner Service policy, and about G M A C, General Motors' own easier payment plan.

NEW SILENT SYNCHRO-MESH TRANSMISSION permits smooth, silent shift from first to second to high... and back to second.

AUTOMATIC MANIFOLD HEAT CONTROL warms up engine quickly and gives it improved performance at all speeds.

NEW EASY STARTING—starter when engaged, automatically opens throttle to proper starting position.

DOWN-DRAFT CARBURETOR WITH NON-FLOOD CHOKE gives increased power, higher speed, faster acceleration, and greater smoothness.

INSULATED FISHER BODIES are warmer in winter, cooler in summer, and exceptionally quiet.

NEW QUIET SECOND GEAR assures smooth, swift acceleration rivaling high gear performance in quietness.

ELDORADO

Mrs. Wm. Andrews was the guest of Mr. and Mrs. Alex Gordon for tea on Sunday evening.

Mr. John Johnson, of Hydro, spent Sunday at his home in Cooper.

Mrs. Wm. Warren has returned home after visiting her daughter, Mrs. Wm. Shaw, in Bannockburn.

Mr. and Mrs. John Leonard, of the Hydro, have moved to their farm in Marmora.

Mr. and Mrs. Jas. Bateman spent an evening with Mrs. Bateman's sister, Mrs. C. Kelly, of Malone.

Mrs. Tot Lough, of Malone, was the guest of her brother, Dr. F. J. Nickle, of Eldorado.

Mr. and Mrs. Wm. Glennie, of Millbridge, were on their way to Eldorado when, on the hill by Mr. G. D. Gordon's, they turned out and the cutter upset, throwing the occupants out and the horse ran away. On Mr. Lewis Brownson's hill the cutter struck a car and the horse tore loose from the cutter, smashing the harness. Mr. Fred Campbell caught the horse in his field. Mr. Glennie got a few scratches on his face. They took the train at Eldorado and went home to Millbridge.

Master Gordon Bateman, Dick Eyley and Mrs. G. Gordon were the guests of Mr. and Mrs. Finley Shaw.

Mr. Hedley Shaw had the misfortune to get his foot hurt when working at the mine and is under Dr. Nickle's care.

COOPER

Mr. and Mrs. Stanley Rollins and family spent the week-end in Belleville.

Mrs. Gibson Bailey and Mr. and Mrs. Delos Fox spent the week-end in Belleville with their mother, Mrs. Christie Fox, who is quite ill.

Mr. and Mrs. J. Groves, of Queensboro, visited at Mr. and Mrs. A. Bird's on Sunday.

Mrs. J. Diamond and Mrs. Joe Hayton are staying with their sister, Mrs. Wm. Clements, who is quite sick.

We are sorry to hear Mr. Billie Franklin was seriously hurt when the neckyoke broke and his team ran away, upsetting a load of wood on him.

DARING YOUNG THUGS FOILED IN HOLDUP PLANS

Cobourg, Ont., Feb. 17.—Within twenty minutes after the Dominion Bank in Cobourg was held up and robbed at 12.30 p.m. today of approximately \$3,000, three youthful bank bandits were captured and the money recovered by two of the clerks who had been placed in the vault where the robbers believed them safely locked. The clerks figuring

SCOTCH SETTLEMENT

SOUTH

Mr. and Mrs. Jas. McGuire visited Mr. and Mrs. Thos. Emmerson, of Crookston, one day recently.

Mr. Sandy Ashe was a recent caller at Mr. Ross Holland's, of Stirling. Mrs. Lucy Fox, of Thomasburg, spent a few days last week at the home of Mr. Wesley Wickens.

The Hydro men are busy surveying lines through our neighbourhood these days.

Mrs. Ross Holland and children, of Stirling, are visiting at Mr. Will Mac's.

UNION

Miss Bell and her pupils entertained the parents of their school section on Friday afternoon from three to four with a valentine party. The programme consisted of recitations, readings, duet, choruses and contests for both the visitors and pupils. Prizes were awarded and many pretty valentines were distributed. The social hour closed with a dainty lunch consisting of cakes, sandwiches and candy.

Mrs. Hugh Empey is spending a few days with relatives in Belleville.

Mrs. Creighton Johnston is the guest of Mrs. Will Chambers.

Mrs. Bert McCarey called on Mrs. Hugh Empey one day last week.

Miss Bell, Mr. and Mrs. J. O'Rourke, Queensboro, Mr. and Mrs. Harry Blakely and Lillian, and Messrs. Delbert Carman and Geo. Hurley were Sunday guests at Mr. Ken. Bateman's.

Mr. and Mrs. Alger Post and young son visited Mr. John Chambers on Sunday.

Mr. Clarence Carman is busy moving to Mr. Bronson's farm on the Gravel Road.

A large number from here attended the sale at the McCoy farm on Tuesday.

Mrs. Sears and little son, of Toronto, are spending a few days with her aunt, Mrs. Beryl Carman.

In the capture are G. A. Smith, accountant, and James Forbes, teller, who pursued the bandits so closely in a car that they abandoned their own machine and took refuge in the Cobourg Public School. In the meantime, Clifford Troop, native of Cobourg and veteran of the 21st battalion, seeing the suspicious characters running into the school, pursued them and held one, while C. Roraback followed and gave assistance in capturing the other two. The bank clerks arrived then and completed what is possibly the smartest job of capturing bandits in Eastern Ontario history.

AVERTED TRAGEDY, AUTO IS DEMOLISHED

Presence of mind probably saved A. C. Mitchell, R. R. No. 6, Belleville, from a horrible death late Sunday afternoon at the George Street railway crossing of the C.P.R. and C.N. railways. His car was struck by a C.N.R. Belleville passenger train, No. 9 and partly demolished, the lone occupant escaping by leaping from the car just before it was struck. There was only one eye-witness to the near-tragedy, who stated that Mitchell was fortunate in escaping with his life.

Mr. Thorne stated that he was walking north on George Street, and had just passed over the railway crossing before the train arrived when his attention was drawn to this car proceeding north. He noted that it would be impossible for the driver to make the crossing ahead of the train.

Apparently the driver realized the same thing, as he was seen to open the door quickly and jump out, slamming the door behind him and running to the back of the car. He had hardly reached the back of the car, when the impact occurred. Speaking to the man after the accident, Mr. Thorne learned that the driver believed he could make the crossing ahead of the train. At the last moment realized that this could not be done, and he jumped the car, leaving it to its own fate. The car was later towed to a local garage for repairs.

VETERANS SEE SUCCESS IN UNITED EFFORT

Toronto, Feb. 18.—Amalgamation of all ex-service men's organizations in Canada into one integral association was seen today as the development from the executive meeting of the Army and Navy Veterans in Ottawa this week. The A. and N. Directors advanced a long step towards this unity when, in declaration of the policy given today, asserted their belief "that steps should be taken immediately to complete the uniting of all national ex-service men's associations in Canada into one corporate entity, and the body thus formed should be the Canadian Members Organization of the British Empire Service League.

The Canadian Legion, Amputation's Association, Sir Alfred Pearson Club for blinded soldiers and sailors, and Canadian Pensioners' Association have given tentative approval to the project. The proposal will now be submitted to the respective directorates.

The new body, the statement said, should aim for the elimination of duplication of effort, machinery and expenditure.

CAR STORAGE

IS PREY TO FIRE

A loss estimated at over \$5,000.00, at least partially covered by insurance, was sustained by the Belleville Fruit Company in the disastrous fire which broke out in the garage housing the company's trucks about 8.30 Sunday evening.

There were four trucks and two automobiles parked in the lean-to at the rear of the Metropolitan Store, Front Street, and the firemen succeeded in getting the machines out of the raging inferno before they were totally destroyed.

One truck is almost a complete loss: both cars are severely burned and damaged. A big sedan has the inside almost completely gutted, and a new coupe will probably require an entire new body.

"I did not have all the machines insured," said Frank Domenico, manager of the Belleville Fruit Company, "I did have, however, the truck which was so badly burned, insured against fire."

The garage belonged to the S. Domenico estate. One truck stored in the building did not belong to the Belleville Fruit Company. It was not insured. Of the two cars, one was Frank Domenico's private machine and the other belonged to the company.

DROWNED AS MOTOR PLUNGED INTO RIVER ICE

Sarnia, Ont., Feb. 14.—Caswell Waterman, 21, of Algonac, Mich., was drowned and his sister, Pearl, was saved from a similar fate when the car in which they were driving across the frozen St. Clair river went through a hole yesterday and sank.

The woman managed to escape from the car and swim to the surface, where she clung to the edge of ice until she was rescued by a man walking across the river. Details of the accident were meagre and the name of the rescuer was not learned.

You might find a buyer for that extra piece of furniture you have put away. An advertisement in the Review will let people know about it.

QUEENSBORO

The death of Mr. William Laird occurred last Thursday at the home of his niece, Mrs. John Clark, with whom he has been living for some time. His wife and daughter died some years ago and a son was killed in Flanders during the war. The funeral service, in charge of Rev. J. Wright, Tweed, was held in St. Peter's church on Saturday afternoon and interment in Greenwood cemetery. The pall bearers were Messrs. F. Rollins, S. Clark, Jno. and James Moore, O. Latondresse and H. De-hair.

A very pleasant reception was given in the Orange Hall on Tuesday evening by the L. O. B. A. to their friends. A programme of vocal and instrumental music, recitations and an address from Rev. J. Everson was very gracefully presided over by W. M. Mrs. F. Sager, who also voiced a cordial welcome to the guests. Lunch was served and a social re-union filled the remainder of the evening.

Mr. and Mrs. Bruce Leslie spent Sunday in Tweed with Mrs. W. Davis.

Miss Jean Hamm is visiting Mrs. A. Box in Calabogie.

Miss Josephine Laton was home from Madoc for the week-end.

Messrs. Geo. Love and H. Bailey were doing assessment work in this vicinity on Saturday.

Mr. Alex Keene, of Toronto, is home for a visit.

Francis Thompson, Tweed High School, spent the week-end with Queensboro relatives.

Miss H. Thompson, Actinolite, was a visitor in town on Saturday.

Mr. and Mrs. Percy Reynolds and family spent the week-end at Mr. E. Groves'. Mr. Reynolds has sold his farm here and is leaving for Frankford. On Friday evening a number of neighbours met at his home for a farewell visit. An address was read and a purse presented to Mr. and Mrs. Reynolds, wishing them God speed and all good fortune in their new home.

Mr. and Mrs. J. Geddes, Toronto, are visiting their daughter, Mrs. Wm. Holmes.

PINEVIEW

The Ladies' Aid held their monthly meeting at the home of Mrs. Joseph Holmes and all spent a pleasant afternoon.

Miss Irene Sager, of Tweed, spent the week-end with her parents here.

Mr. and Mrs. Frank Cleveland, of Cooper, are visiting here for a few days, the guests of Mrs. Thomas Ramsay.

Misses Hilda Fleming and Lella Hill took tea on Sunday evening with Miss Irene Sager.

Mr. and Mrs. John Holmes attended the sale of Mr. Alfred Curtis, at Hart's, on Thursday.

Messrs. Skelcher, Sr. and Jr., of Belleville, were visitors to Queensboro on Sunday, the latter conducting the service in St. Peter's church during the afternoon.

Mr. Will Ramsay, who has been working at Malone, is home and on the sick list.

Mr. Goldie Holmes and Miss Evelyn, of Queensboro, were Sunday afternoon visitors at Mr. John Holmes'.

Mrs. Tanner, of Queensboro, is visiting her brother, Mr. Arthur Sager. Mrs. Josh Anderson returned home after spending a couple of days at Mr. Johnnie Kincaid's, Hazards Corners.

Quite a few from here attended the party at Mr. Percy Reynolds' on Friday last.

Plans for work on the new Trenton airport this spring have been made and according to the Trenton Courier-Advocate the area between the Highway and the bay will be levelled and all the buildings removed.

A GREAT TEAM!

**Gallagher's
Tonic and
System Builder**
**Gallagher's
Kidney Remedy**

These two remedies make a great team, being able to pull double the load of either separately. The tonic acts on stomach, liver and bowels, the kidney remedy on the kidneys and bladder.

Strongly recommended for rheumatism, indigestion, influenza, colds, high blood pressure and other ailments.

OLD BOYS RE-UNION

At a meeting of the Community Club Monday night it was resolved to hold an Old Boys' Reunion in Madoc on August 1, 2, 3, and 4, 1931. At a later meeting to be called, the whole community will be asked and expected to make suggestions as to the reception and entertainment to be given to our guests. Will each family hand in the names of any or all friends whom they would like to attend so that the Secretary may get invitations away in plenty of time that all may make arrangements to visit one of the largest gatherings ever held in this district. We trust every citizen will join in this grand undertaking.

McCOYS CELEBRATE

SILVER WEDDING

Mr. and Mrs. Wm. McCoy entertained at a dinner-bridge on Friday evening, January 23rd, the occasion being the anniversary of their silver wedding.

The wedding-cake centred the table, which was decorated in silver, with roses in silver bud-vases.

On behalf of the guests, Mrs. E. G. Ranton read an address, and Mrs. J. L. Clarke presented the "Bride and Groom" with a silver tea service.

The guests included: Mrs. Geo. McCoy and Mr. and Mrs. R. McCoy, of Carstairs; Mrs. Wm. Alexander; Dr. and Mrs. J. L. Clarke; Mr. and Mrs. Axtell; Mr. and Mrs. Hillyard; Mr. and Mrs. Ranton; Mr. and Mrs. W. Thurlow; Mr. and Mrs. N. Clarke; Mr. and Mrs. W. A. Teskey and Mr. Wm. Spence.

The above was taken from the *Daily Alberta*, paper. Mrs. Wm. McCoy is a sister of Mrs. Rupert, of this village.

HUNGERFORD MAN

FOUND DYING IN BED

James Mareau, single, aged thirty-two years, was found in an unconscious state in bed, breathing heavily on Sunday morning at one o'clock and before Dr. A. C. Locke, of Tweed, who was called, could reach the bedside he had passed away.

Coroner, Dr. Mather, of Tweed, decided that an inquest was not necessary as death was evidently due to heart failure. The young man had a heart lesion and it is believed this was the cause of his sudden call.

Mr. Mareau lived with his father on the homestead in the twelfth concession of Hungerford township about three miles north-east of Tweed village. He had been in Tweed on Saturday night and seemed in usual good health. News of the death came as a great shock to his many friends. He was actively engaged in the management of the farm. He is survived by two brothers, John J., a member of Hungerford township council, and Edward, a barber in Tweed village, as well as by two sisters. He was a member of the Roman Catholic Church. His mother predeceased him.

Died

ARMSTRONG—In Madoc Village, on Saturday, February 21, 1931, Joyce, infant daughter of Mr. and Mrs. John Armstrong.

TUDOR & CASHEL COUNCIL

Council met pursuant to adjournment in the Town Hall, Millbridge, on Saturday, February 7th. All the members were present. The minutes of the previous meeting were read and approved. The various communications were read, considered and filed. The Auditors' Report for the year 1930 was read by the Clerk.

Ray—McLeod—that Auditors' Report as read be adopted and that the Clerk be instructed to have 100 copies of the same printed for distribution.—C'd.

Sprackett—Lavender—that the Collector's time for the return of the roll be extended until April 1st, and that he be instructed to have it returned at that date.—C'd.

McLeod—Davidson—that the following accounts be paid: C. F. Dafeo, auditor, \$10; Mrs. J. W. Landon, auditor, \$8; J. E. Greaves, attending auditors, \$3; Wm. McGarvey, cutting and burning brush on S. S. Road, \$30. Ray—Lavender—that we place our road insurance with the Globe Indemnity Co., Ltd., premium \$149.60.

Council went into committee on by-laws with the Reeve in the chair and the following appointments were made in the municipality for the year 1931:—Board of Health, Dr. Nickle, M. H. O.; J. H. Sprackett and R. J. Hinchliffe, members of board; Wm. Griffin, sanitary inspector; J. E. Greaves, Secretary; Sheep Valuers, Jos. Palmer, Wm. Henderson, Jacob Dafeo; Fence Viewers, J. Donaldson, Jas. McEwen, Jas. H. Cleveland, R. J. Hinchliffe, Bruce McKenzie, Wilnot Kemp, Wm. Henderson, Thos. Birrell, Henry Ray; Poundkeepers, Garnett Davidson, Jos. Palmer, Thos. Birrell, Wilnot Kemp, Thos. A. Dafeo, Jno. Trotter; Road Surveyors, Jacob Dafeo, Geo. Dafeo, Ed. Haughton, Michael Hogan, Sr.; Constables, Wm. Griffin, Garnett Davidson, Jacob Dafeo, Geo. Dafeo; Weed Inspectors, J. W. Landon, J. E. Wellman; Assessor, Clifford T. Gunter, salary \$65; Road Overseer, A. J. Franks, salary \$3.50 per 10-hour day.

A Col. Road By-law was read a first and second time and submitted to the Dep. Min. of N. Development for approval authorizing an expenditure of \$400 for road-making machinery, appliances, equipment and material for road-making and road-improvement in the municipality in 1931.

Council adjourned to meet April 18th, 1931.

J. E. Greaves, Clerk

COLLAR BONE BROKEN

Russel Foster, elder son of Mr. and Mrs. Carman Foster, Durham St., Madoc, had the misfortune to sustain the fracture of his collar bone, through falling while skating last week. He is continuing attendance at school though under difficulties, and is progressing favourably.

FIRE DESTROYED

WHITE LAKE BARN

Fire destroyed the barn and stable of Mr. Thos. Emerson, White Lake, on Wednesday morning. The origin of the fire was not determined. A cow and a race horse were lost, besides the total loss of the building.

LEAGUE STANDING

Team	Won	Lost	Tie
Stirling	13	2	1
Madoc	12	4	
Tweed	6	10	
Frankford	4	10	1
Campbellford	3	12	

MADOC 3, FRANKFORD 1

The local Black and Whites won their eleventh Trent Valley League fixture on Friday night when they took their fourth consecutive game from Frankford. The tilt was Frankford's last home game this season and, although good hockey was played, only a few loyal supporters were in attendance.

Madoc took the lead in the opening period when Johnston scored from a scramble in front of the Frankford net. In the second period Frankford tied the count when Philon scored their only counter of the game. In the final frame Henderson and Johnston scored for Madoc, making the final count 3-1.

Line-up:—Madoc—Goal, Hulin; Defense, Andrews and McGuire; Centre, L'Heureux; Wings, Johnston and Watson, Subs, Moon, Rupert and Henderson. Frankford—Goal, Prevost; Defense, O'Malley and Borland; Centre, Philon; Wings, McLean and Bowes; Subs, O'Malley and Shaw.

K. Nicol, Madoc, Referee.

NO TWEED TEAM

The Tweed hockey team failed to put in an appearance for the game scheduled here last Tuesday night. The hundreds of fans present were not much disappointed as they expected as much from the Tweed outfit and, as the game did not affect the league standing, it was of very little importance. Madoc has defeated Tweed in every engagement this winter and, as the league standing shows, Tweed has been very much outclassed all season.

The two largest gates which Tweed has had were the Madoc games and their action on Tuesday reflects more on themselves than on anyone else.

STIRLING AND MADOC

Arrangements have been completed for the Trent Valley League play-offs between Stirling and Madoc. The first game will be played on Friday night of this week, with the second game on Wednesday, March 4. A special train will run from Madoc on Wednesday, March 4th, leaving Madoc at 6 p.m. The fare is 95c return. Both teams were in Belleville on Wednesday having work-outs on the larger ice surface and by Friday should be in the best of shape of the important tilt. The two best out of three games will be played and if the third game is necessary the date will be announced later.

The teams in the Trent Valley League this year are much stronger than in previous years and the play-offs will be worth going miles to see.

TICKET HOLDERS

The management of the Madoc Hockey Club wish to announce through these columns that the blue tickets sold for the Tweed-Madoc hockey match on February 24th will be good for an exhibition game which will be played at the local arena as soon as possible after the play-offs and that the drawing for the chest of silver will be made at that game.

OLD BOYS' REUNION

HERE IN AUGUST

At a special meeting of the Community Club held in the Fire Hall on Monday night, August 1, 2, 3 and 4 were the dates set for the Old Boys' Reunion.

Various committees will be appointed by the executives for making arrangements for the reunion and the committees will be reported at the next meeting of the Club, which will be on Monday, March 2nd.

It was also decided at the meeting to entertain the Hockey Club at a dinner to be held as soon after the play-offs as possible.

Mrs. Malcolm, of Toronto, is visiting her daughter, Mrs. McRae, in town.

WEDDING BELLS

The following wedding of a former Madocian is taken from the *Blenheim News-Tribune* of Wednesday, February 11th:—

CEDAR SPRINGS WEDDING

A host of friends will be interested in knowing of the marriage last Saturday of Miss Irene E. MacPherson, only daughter of Mr. and Mrs. James MacPherson, of Harwich, and Mr. Carl F. Tumelty, superintendent of the Blenheim Rural Hydro district. The ceremony, in which Rev. R. H. Parr officiated, took place in the United Church, Cedar Springs, which was prettily decorated for the occasion, and it was very private, the only attendants being Mr. and Mrs. Frank Coatsworth, of Blenheim. The bride wore a brown plaid ensemble suit, with hat, gloves and shoes to match. Immediately after the ceremony Mr. and Mrs. Tumelty left on a honeymoon trip to Toronto and other eastern points. On their return they will reside in Blenheim at the corner of Chatham and John Streets.

Prior to their wedding the groom-to-be and bride-to-be were each guests at happy special occasions held in their honour. At the Idle Hour Hotel, where Mr. Tumelty has stopped since he came to Blenheim, a number of his friends met and tendered him a complimentary dinner, and took advantage of the occasion to present him with a beautiful silver ring.

In honour of the bride-to-be, Mrs. J. Nichol and Mrs. W. R. McGuigan entertained on Tuesday of last week at the latter's home. Bridge was played at four tables and the attractive favour was won by Mrs. F. McGuigan. Miss MacPherson was showered with many beautiful gifts. The guests included Mrs. Charles W. MacPherson, Mrs. Stanley MacPherson, Mrs. Murray MacPherson, Mrs. W. McGregor, Mrs. D. Broadwood, Mrs. Finley McGuigan, Mrs. C. D. Fleming, Mrs. Robt. McGuigan, Miss K. Garret, Miss Grace Claus, Mrs. George Smith, Mrs. Geo. Doye, Mrs. E. Eastman, Mrs. J. MacPherson, Mrs. J. C. McGuigan, Mrs. John Present and Miss MacPherson.

WORLD DAY OF PRAYER

On February 20th women of every denomination and in every country throughout the world gathered for prayer.

In Madoc the women met in St. Peter's Presbyterian church. After a few words from Mrs. McCaffrey, President of St. Peter's W. M. S., explaining the meaning of this world day of prayer, the program which was prepared by Miss Kathleen Walker MacArthur, Vice-President of the College of Churches of Christ in Canada, was used.

Mrs. (Rev.) P. G. Reynolds, representing the Church of England, was the leader of the first part entitled, "Ye shall be my witnesses." The second part, "A witnessing church," was led by Mrs. S. Ashley, representing the United Church, and the last portion, "Witnessing in a new age," was in charge of Mrs. McCaffrey. Twelve women took part in prayer. The collection from this service went toward providing Christian literature for women and children in many lands. The service closed with the benediction.

LOCAL AND PERSONAL

Mr. J. L. Plane spent the past week visiting at Deseronto and Belleville.

Mr. Faulkner, of Foxboro, is the guest of his daughter, Mrs. Leslie Ashley.

Mrs. Jas. Quinn, of Youngstown, Alta., is visiting her sister, Mrs. J. L. Plane.

Mr. and Mrs. Bruce Robinson, of Madoc, visited friends near Marmora recently.

Mr. William Brown, of Madoc township, is in Belleville this week serving on the jury.

Miss Jennie Thompson, of Madoc Township, has been visiting her sister, Miss Hazel Thompson, at Wooler.

Mr. and Mrs. Gerald Reid returned to their home at Thomasburg on Tuesday after spending two weeks at Chatham and Detroit. They had a very pleasant trip. Mr. and Mrs. Reid are leaving for their new home at Ivanhoe this week.

FIRE DESTROYS

BANCROFT SCHOOL

Bancroft, Feb. 24.—Fire, which broke out in the basement of the Public and Continuation school in Bancroft, shortly after seven o'clock this morning totally destroyed this building and all the contents with the exception of a few desks in one of the rooms. The loss is estimated at \$20,000.00 with insurance of \$8,000. The Board of Education contemplate the immediate erection of a modern high and Public school. By the loss, nearly 300 pupils have been deprived of educational facilities for a short time, but arrangements are being made to accommodate the classes in the Community Hall, the Orange Hall and the basement of the United Church. It was fortunate that there was no pupils in the school at the time the fire broke out.

Edwin Whitefoot, the caretaker of the school, was busy about the place, when he smelled smoke and investigating found the whole basement of the school a seething mass of flames. He immediately raised the alarm and before the brigade could respond and play a stream of hose on the inferno, the blaze had gained such headway that it was impossible to save the structure. An effort was made to remove some of the furniture, but only a few desks were taken from one room. All the pupils' books and other material were destroyed. The school was built 17 years ago at a cost of \$11,000.00 and was of brick construction. There were four rooms in the public school, the Principal being W. C. Summers, the teachers, Miss Bresnahan, Miss Daly, Miss Thomas and Mr. Warren, while there were two rooms in the Continuation school, the Principal being W. G. Herington and Assistant Principal Miss Trula Mason, of Belleville.

This is one of the most disastrous fires that has occurred in the northern part of the county in some years but the Board of Education, although feeling keenly the loss of their fine school, will immediately set to work to build a better and more up-to-date structure.

WEDDING BELLS

POTTS—PITTS

Marmora, Feb. 25.—On Wednesday, February 18th, at the home of Mr. and Mrs. Robert Harris, of Marmora, the wedding was solemnized of Harry Potts, of Trenton, and Winifred Pitts, of Madoc. Rev. A. B. Caldwell was the officiating clergyman.

If you want folks to know who you are Where you are and what you've got to sell them Advertise! Not now and then, but consistently.

COMING EVENTS

OAKDALE REBEKAH LODGE will hold a Progressive Euchre in the Lodge Room on Thursday, Feb. 26th. Admission 25c. 7-2

MADOC WOMEN'S INSTITUTE will hold their February meeting on Friday, 27th, at 3 p.m. at the home of Mrs. Chris. Henderson. Roll Call, "Aunt Het's Sayings." 8-1

A PLAY, "THE SECRET SOCIETY of Cabbageville," will be given by Springbrook Ladies' Aid, in Bethesda church, Crookston, on Friday, Mar. 6. Admission, adults 25c, children, 15c. 8-2

NEW ADVERTISEMENTS

HERE AND THERE

It is now estimated that Old Age Pensions will cost Canada about \$25,000,000 annually. When the question was in its academic stage this burden was never realized.

Aubrey "Dit" Clapper, the Hastings boy who has been playing professional hockey with the Boston Bruins, is to marry a Vancouver heiress, Miss Lorraine Pratt, who is said to be very wealthy and will inherit an estate of eight millions of dollars. And now boys, who would not want to play hockey?—Norwood Register.

The need of the hour is to increase the circulation of money. The four best means of bringing this about are: (1) Reducing overhead by moving men from the office into fields; (2) giving better measurement to customers; (3) discovering new products and new uses for present products; and (4) spending more money on advertising. Perhaps advertising is the most important factor of all.—Roger Babson.

Up in Warton, according to the Canadian-Echo, mothers are keeping late hours at bridge parties and the old song about the little girl pleading in the bar-room for father to come home to his wife and family is likely to be changed to: "Mother, dear mother, come home with me now, the clock in the steeple strikes two, you said you were coming right home to dear dad, as soon as your last game was through."

You're always advertising. When you go about with that long face and those dark remarks you are making a dead get-away—telling everybody your business is on the rocks. You're advertising, when you do that, for your competitor. The fellow with the smile, the cheerful look, the sunny disposition, is advertising for himself, and doing it right. He's the man who pays the income tax, the grocer, the barber and the candlestick manufacturer.

Farmers would keep their finances in far better shape if they did their banking at the banks rather than with the merchants, implement manufacturers and fertilizer dealers. There is a heap of meaning in the story of the hot-dog vendor whose stand was beside the palatial quarters of a bank. When asked to cash a cheque for a friend he refused on the grounds that he had entered into a contract whereby he was bound to lend no money and the bank agreed to sell no hot-dogs.—Farmer's Advocate.

In order that no dog owner shall escape payment of the dog tax levied by the municipality the township of Brock has adopted a method which has proven successful. The assessor is required to have every ratepayer sign a declaration as to the dogs they own. They must sign whether they have any dogs or not. The signatures are secured by the assessor as he visits the homes to make the assessment. People will sometimes give false verbal information, but they hesitate to sign a false declaration.

The highest advertising rate of any periodical in America is charged by the Ladies' Home Journal, which is \$9,500 for a full page per issue. Woman's Home Companion rate is \$9,400; Delineator, \$9,200; Pictorial Review and McCall's Magazine, \$8,800, each; Saturday Evening Post which has the largest circulation, \$8,000; Collier's \$5,500; True Story, \$4,500 and Liberty, \$4,250. These may seem very high prices to the uninitiated, but the keen business men who pay these figures know that the money is well spent. It is not the price but what is given for the money that determines advertising value.

Qualifications for pensions under the Old Age Pension Act are defined by Order-in-Council in the Ontario Cabinet. A person must be a British subject or being a widow is now a British subject, was such before her marriage, has attained seventy years, a resident of Canada for twenty years, and resided in the province for five years. He must not be an Indian as defined by the Indian Act, is not in receipt of an income of as much as \$365 a year and had not made any voluntary assignment or transfer of property for the purpose of qualifying for a pension. Under the act, a son or daughter having sufficient means is bound to provide for maintenance of a dependent parent, the act not relieving them from such obligation.

OLD TIGER TIRE PLANT HOME OF NEW INDUSTRY

Belleville is rapidly assuming the front ranks as an industrial centre and negotiations have been completed for the establishment of another high-class industry there. The Acimite Insulation Company with head offices in Toronto, have announced the acquisition of the old Tiger Tire plant at the northwestern city limits. Operations will be commenced immediately for the complete remodeling and renovation of the structure and work will be started as soon as equipment and machinery are installed. The company will manufacture fireproof insulating material for building and other purposes.

The corporation products are manufactured from mica from the Bancroft area. The material will come from the Sherwin-Orser property in Faraday Township which has not been in operation for some years. Seventy-five tons will be used daily and this will provide work for many workmen at the mines. A geological survey has revealed that the Bancroft mica is more than suitable for the manufacture of the insulation material. The product is taken from the side of a hill on the Sherwin-Orser property and is quite accessible.

Mr. F. S. Base, financial agent, states that the head office will be moved from Toronto to Belleville. A siding will be laid into the building and all shipments will be made direct.

Acimite insulation was invented by Mr. J. R. Roberts, a graduate of the South African School of mines, and is considered a high class product. It is estimated that about thirty men will be employed when the plant opens, which number will probably be increased to fifty before the end of the current year. Mr. H. E. Fairfield and Mr. C. E. Hanna have become associated with the company as Directors.

GREATER TORONTO

Greater Toronto has 730,570 population which includes some Reds, a few Liberals, 68 University professors, Hon. W. H. Price, Elmore Phillips on Sundays, King Clancy, many stock brokers, T. L. Church, Ex M. P., Ex Mayor; Sam Factor, Liberal M. P.; the majority of the Canadian broadcasters, Canon Cody, Jimmy Frise, 730,565 who listen to Amos and Andy, Sir William Mulock, head-quarters staff of the U.F.O. and the Canadian Manufacturers Association, hundreds who have nothing to do but write letters to the newspapers, Howard Ferguson on leave, a couple of hundred "razzlers," 400,000 who come from Ontario small towns, the country's greatest advisers on farming, Chief of Police Draper, scores of good newspapermen who don't believe their own editorial columns and like the auction sale lists, many others too tedious to mention.—Meaford Mirror.

You might find a buyer for that extra piece of furniture you have put away. An advertisement in the Review will let people know about it.

MAPLE PRODUCTS INDUSTRY

The season of maple syrup is drawing near. March is not far off with so many attractions, among them the sugar bush and the fine product which is brought in tins or jars and in sugar cakes. Bright sunny days and frosty nights so appealing to those who enjoy the open air have the additional attraction of being the occasion for the sap-flow.

This section of the province is a producer of considerable quantities of syrup and sugar from maple trees but east of us the Province of Quebec is the great producer of Canada, maker of nine-tenths of the sugar and three-fourths of the syrup produced in Canada, according to the Department of the Interior.

Quebec has systematized this business of collecting the sap and manufacturing and selling the products. Labor saving machinery has been introduced, quality has been sought and secured, waste has been eliminated and the standard of the goods has been stressed.

The maple industry is confined to the four provinces, Ontario, Quebec, Nova Scotia and New Brunswick, the two former leading by a large margin. Fifty thousand farmers and other maple-grove owners devote attention to this business, and about eight million trees are tapped annually. Of the total about 85 per cent are in Quebec and fourteen per cent in Ontario. The total value of the maple products for Canada in 1929 was \$6,118,856 and in 1930 \$5,250,629.

The Department believes that there is fine opportunity for the expansion of the industry, only one fourth of the hard maple trees in Canada being tapped. There are about sixty million hard maple trees untapped in Eastern Canada. Each tree yields on an average of two and a half pounds of sugar annually, and as one third of the stand is available for tapping there is a possible yield of fifty million pounds of sugar. The other two thirds constitutes reserve for future expansion of this industry which was begun in the days of the Indians.

TOURIST TRAFFIC IS BIG BUSINESS

Tourist traffic in Canada has in recent years assumed such proportions that it now forms one of the country's most important and lucrative industries. The expenditures of vacation and sight-seeing visitors are a considerable factor in keeping Canada's balance of trade on the right side and constitute what the economists call an "invisible export," to the huge profit of the Dominion and its citizens.

The tourist traffic is conceded to hold third place, exceeded only by agriculture in the first place and lumbering and forestry operations in the second. The Bureau of Statistics at Ottawa state that tourist arrivals throughout Canada numbered 11,423,000, a general increase throughout the country as compared with the same period the previous year of 26 p.c.

Figuring it in dollars it is estimated that the whole of Canada received new money in the tourist business of over \$100,000,000. The year 1929 was larger in numbers by 26 p.c. This revenue is greater than the gross annual production of our fisheries, or of our hydn-electric power systems, or of many important branches of manufacture. This tourist traffic does not constitute an industry, for it is nothing more than a temporary addition to our population, spending here but not earning here, and the expenditure is spread among trades and industries in about the same way as the expenditure of residents. If retail sales carry an average profit of 20 p.c. this would be \$20,000,000, and of course, the business can be traced back through various stages in each of which a profit is derived.

CHEESEMAKING SCHOOL

Kingston, Feb. 19—Over thirty cheesemakers of the district have assembled at the Eastern Ontario Dairy School for the short course in cheesemaking which is being held there. The registrations started yesterday and at the present time those who are desirous of taking the course are still arriving. The course will conclude on Thursday evening with a social evening and smoker held in the assembly hall of the Dairy School. Light refreshments will be served.

FEAR KINGSTON MAN DROWNED IN RIVER

Watertown, N. Y., Feb. 17—Fear that Parker P. Stevens, Kingston, Ont., may have lost his life in attempting to motor across the frozen St. Lawrence River to Ontario was expressed here by County officers after a two days' search had failed to reveal the man's presence.

REMINISCENCES

The following items have been taken from the file copies of the Review.

FIFTY YEARS AGO

February 1881

Railway Meeting—A public meeting was held on Monday evening, 21st inst., to consider the proposition of Mr. McMullen for the extension of the Prince Edward County railway from Trenton to Madoc. After lengthy discussions a resolution was put to the meeting which was lost by 13 to 9.

An 8-cent store has been established by Mr. G. Bennett in Reid's block. Mr. Neil Todd has purchased the flour and feed business lately carried on by Mr. Robert Rollins in this village.

Mr. J. H. Booth, of Bancroft, brought in to Madoc last week lumber which weighed 3500 pounds. This is the largest load ever brought that distance at one trip. He was only about a day and a half on the road.

The new M. E. church is progressing rapidly with eleven men engaged in the work. The contractor is resolved to have the church finished by the middle of June.

Township Council—Mr. Caskey introduced a by-law to appoint auditors and township officers for the coming year. The salary of assessors was \$30 each; Thos. Allen, collector, \$40; and D. Nicholson, \$30. The auditors were paid \$8 each for their services. Fenceviewers were:—W. H. Pringle, W. H. Tumelty, Jas. Marrin, D. McKenzie, Jas. O'Hara, Jr., Jas. Miller, L. Empey, H. Robinson, John Moore, John Ward and Chas. Allen.

Poundkeepers were:—Wareham Tuller, Wm. Bond, Thos. Broad, T. Comerford, John Conley, J. Nichol, C. Harris, A. Glover, J. Burris, G. Miller, G. W. Rose, A. Harvey, W. Fox, Jr., Jas. Marrin, J. W. Huffman, J. Maitland, John Litten and N. H. Bristol.

TWENTY-FIVE YEARS AGO

February 1906

Madoc Township Council—Members present—Reeve Chris. Wright, Councillors, R. R. Hannah, John D. Nickle, Thos. Keene and Jas. McCoy. A resolution was passed approving the bill which is to be brought forward at the next session of the Provincial Parliament whereby a change is made in having the members of the County Council composed of the Reeves and Deputy Reeves of the different municipalities as formerly; and that a copy of this resolution be forwarded to the Minister of Agriculture.

A meeting of the retail merchants of Madoc was held Monday night in the Town Hall. Pres., B. O'Hara; 1st. Vice, R. C. Resament; 2nd. Vice, Alex. McGregor; Treas., E. C. Tufts; Sec., Frank Dafeo.

Mr. Herb O'Flynn played in a championship hockey match in New York last week in which his team, the Crescents, won by a score of 3 to 2.

Mr. Casement gave a talk to the Y. P. S. of St. Peter's church on Monday evening on Cuba.

George Wright's clearing out sale during the past week has been a great success. On Saturday he could scarcely handle the crowd.

I.O.O.F. officers have just been installed for current term:—Jr. P. G. John McBain; N. G., Bert Connor; V. G., H. W. Wright; R. S., N. M. Maybee; P. S., L. F. Morrice; Treas., B. O'Hara; War., B. M. Richmond; Con., John Tucker; O. G. Alex. Milne; I. G., Harry Bulpit; R.S.N.G., P. J. Hoover; L.S.N.G., W. H. Brooks; R. S. V.G., Frank Kelly; L.S.V.G., R. O. Miller; R.S.S., J. A. Chambers; L.S.S., Chas. Nix; Chap., J. C. Dale.

FIFTEEN YEARS AGO

February 1916

William Ewart Gladstone (Glad) Murphy, died on Friday at St. Michael's Hospital, Toronto. It was on October 7th in a football game at Rosedale that Murphy was injured. His neck was broken and total paralysis from the neck down resulted.

Hymeneal—The marriage of Geo. Shea, late of Stirling, now of Camrose, Alta., to Miss Ellen O'Connell, of the Irish Settlement, was solemnized at the Sacred Heart church, Madoc, on Monday, February 21st, with nuptial mass, Rev. Father O'Riordan officiating.

A quiet wedding was solemnized on Saturday, February 19th, at the home of Mr. and Mrs. John Dafeo, when their daughter, Ruby, was united in marriage to John Manley Tufts, second son of E. C. Tufts, of Madoc.

Indoor Baseball—On Wednesday night of last week the business men of town sallied forth to the Armouries to try conclusions with the indoor baseball team of the 155th Battalion. The result, 11 to 6, in favor of the business men, was a surprise to the large number of spectators present.

Canada's Challenger To Have Canadian Talkies

What romance lurks in the contrast between the Royal William, the floating kettle which first puffed across the Atlantic by steam—from Quebec to London in 1837; and Canada's greatest floating palace, the Empress of Britain, now being rushed to completion on the Clydebank, which will number Sound and Talking Pictures among her many attractions. The equipment, which has been specially designed to meet the requirements of a life of Marine Globe trotting, and manufactured in the Montreal plant of the Northern Electric Company, Ltd., is being shipped via S.S. Minnedosa, from Saint John, to Liverpool, where English sound engineers will install it in the Concert Hall. An unique feature of this, Canada's first Marine installation of Sound Pictures, is that at whatever port the "Empress" is likely to call in fifty-five countries of the world special sound engineers will be available in case of any emergency accident to the equipment. Passengers will sit at ease in the beautiful Concert Hall on an upperdeck while the latest London, Paris, or Broadway hit, or an illustrated lecture on some foreign port, which they are approaching, will entertain them from the silver screen.

Above is an artist's conception of the "Empress" leaving Quebec in the wake of the "William" ninety-four years after. Below the Royal William on the high seas. Left, the Prince of Wales and E. W. Beatty on their way to launch the great liner last year. Right, one of the Talking Picture equipments being installed on the new vessel.

"Unless Business Improves"

UNLESS the cart moves of its own accord we are disinclined to hitch the horse to it.

UNLESS the car climbs the hill we will not give it any gas.

UNLESS the train makes the run we will put no coal under the boilers.

The man in the street says,

"UNLESS business improves I won't buy the things I need for my family."

The Retailer says,

"UNLESS business improves I will cancel my order."

The manufacturer says,

"UNLESS business improves I will cut off my advertising and discharge my workmen."

The discharged workmen, no longer receiving pay, do not say, "Unless business improves." They simply say, "We cannot buy goods."

When that time comes, everything is finished, we all quit work, and everybody is satisfied.

What Then ?

Well, we just start all over again.

We hitch the horse to the cart.

We give the car some gas.

We put the coal under the boilers.

We buy the things we need for the family.

We give more orders, we advertise, and do not discharge our workmen, and the workmen buy goods, and everything goes right along the same as it was before the trouble.

There is only one reason for pushing right now more vigorously than ever, and that is because business is not what is technically called "good." It is just as good as it ever was, but its goodness is potential, latent; it must be stimulated. Do you realize that it was only a year ago when people were falling over one another to spend their money? That was a state of mind. They are all states of mind, and the chief function of advertising is to produce a state of mind.

MAY BE FORCED TO BUILD IN CANADA

New York, Feb. 21.—Canada's action in reducing the discount allowed on list prices of United States automobiles thus basing customs charges on increased prices, is regarded here as adding definitely to the height of the tariff wall. The move, it is considered, is a challenge to United States manufacturers to build more factories in Canada.

Several executives of the motor industry here who have studied the move consider it tantamount to an actual increase in the tariff on this product of 15 per cent. They agreed it was highly probable that those companies most affected would erect plants in Canada.

It was pointed out that five of the largest United States automobile makers—Ford, General Motors, Willys-Overland, Studebaker and Chrys-

ler—have Canadian subsidiaries, and others who wish to compete with them for trade in the Dominion are at a disadvantage without being actually on the ground.

It was stated that the Hudson-Essex, Packard and Studebaker-Pierce Arrow companies have been studying the situation, but have reached no decision.

Exports of United States motor cars and trucks to Canada had a total value of \$20,372,000 in 1930.

While excavating on his premises on the Provincial Highway, just east of Colborne, Mr. Pennington unearthed a copper half-penny seldom seen these days. On the front appears the words "One Half Penny, Bank of Upper Canada, 1854," and the figures of St. George and the Dragon. On the reverse appears, "Bank Token, One Half Penny," and the Coat of Arms in the centre.

AERIAL INVENTOR DIES IN HIS OWN AEROPLANE

New York, Feb. 20.—This is the chronicle of a man who deserted the ink business to build airplanes before the Wright Brothers, but who when he became middle-aged gave up in despair and went back again to inks.

Away back in 1901, he exhibited an airplane he had built at a motor show in New York. The plane was said to be all wrong. It would not fly because of its very heavy engine.

Again the man went back to the ink manufacturing factory here.

Today he fell from his latest mystery ship, and was killed—at 78 years. He was broken and twisted under the glider that had turned in the air and fallen on him at Roosevelt Field.

It was supposed that Emory Davis, resident of Long Island, still was at the head of the ink factory. But it was revealed with his death that during the last two years he had been working behind curtained windows on gliders, which during the last 12 months had cost him all of \$100,000 to build.

Early this morning, a bullet-shaped glider, equipped with fringes like those of a bird's wings, was pulled from the Roosevelt hangar. Fifty feet up, it dipped. Davis, who had refused to strap himself in, fell to the field and the plane crashed down on his prostrate form.

KILLED INSTANTLY

Norman Lewis, aged 39, of Goderich, Ont., was killed almost instantly when the manhole to an abandoned areaway blew up in front of the Union Station, hurling him over a parapet to a 30-foot fall down a subway, tearing large block of stone-work from the pavement and causing a roar heard deep in the station and for miles around. He was a son of County Judge Edward N. Lewis, of Huron County.

Judge E. N. Lewis, of Huron County, whose son, Norman, of Goderich, was killed by a manhole explosion last night, died on Monday. Judge Lewis was spared knowledge of his son's death owing to his own serious illness.

FAMOUS COMEDIAN GREETED BY THOUSANDS

London, Feb. 20.—Charles Spencer Chaplin, comedian, was nearly mobbed by thousands of admirers of his antics on the screen when he returned today to his native "city lights" in London, for the first time in 10 years.

Cockneys wearing derbies and baggy trousers in an effort to look like Chaplin in his tramp role of the films packed Paddington station to meet the boat train from Southampton.

"Good old Charlie, there's the lad!" they shouted, in the broad accents of those blocks in sound of the Bow bells. They cheered and shouted and whistled in merriment, and Chaplin, dapper and a little wan from a week's seasickness, smiled and waved.

Five policemen fought to clear a way for the diminutive comedian, who sprang from the music halls of the East End into fame in Hollywood. An attendant got behind Charlie and tried to push him through the crowd. These people—his people—surged about him and it was a close squeeze.

Chaplin finally reached an automobile and stepped into it. He turned and waved his derby. The crowd roared an ovation seldom given to statesmen and kings.

BELLEVILLE MARKET SATURDAY

Eggs sold a little lower on the market today, the average price being 25 cents per dozen. Shippers' prices are, however, a little firmer, quotations being 24 cents for extras, 20 for firsts and 18 for seconds.

Hogs are off to seven dollars a hundred and \$11 lightweight is paid.

Calves are quoted at \$8, dressed \$15.00. Lambs are quoted at \$10 live and \$21.00 per cwt. dressed. Good western beef is held at 12-1-2 cents.

Butter advanced today to thirty-five cents regularly.

Apples were offered at the usual prices and potatoes held at one dollar.

Considerable wood was offered at ten to eleven dollars a cord.

NEEDS OF AGRICULTURE

In addressing the London city-county dinner of the Chamber of Commerce, Hon. Thomas L. Kennedy stressed three main needs for agriculture in Ontario today:

1st—The need of growing quality products; second-rate products have little market in these days of keen competition.

2nd—Better grading of products, so that Canadian products will be known always as A1 in foreign markets.

3rd—Adoption of modern marketing methods to meet a changing world. The Minister quoted facts, figures and statistics to show the need of progress along all three lines. The Department has done much in this direction and under the present regime it is prepared to do more.

GROWS RHUBARB IN CELLAR IN NAIL KEG

John E. Parks, Charlotte St., is growing in the basement of his home, in a nail keg, rhubarb, from fifteen to eighteen inches in length. Though only the heat of the cellar and the air within are affecting the growth for there is no sunlight playing upon them, the rhubarb is healthy looking and full of color. Last fall Mr. Parks dug up rhubarb roots, according to advice which he had received, let them freeze and then carried them to the cellar, placing them in sand and gravel in the keg. The result is the present great growth.—Ontario Intelligencer.

WIFE, GAS, SCARE MAN IN DEAD OF NIGHT

"Overcome by stomach gas in the dead of night, I scared my husband badly. He got Adlerika and it ended the gas."—Mrs. M. Owen.

Adlerika relieves stomach gas in TEN minutes! Acts on BOTH upper and lower bowel, removing old poisonous waste you never knew was there. Don't fool with medicine which cleans only PART of bowels, but let Adlerika give stomach and bowels a REAL cleaning and get rid of all gas! C. R. Johnston, the Druggist.

TWEED FARMER LOST FINE SPAN HORSES IN STOCO LAKE

Richard P. Graham, farmer living about a mile from Tweed, lost a fine span of horses valued at \$350.00 on Saturday afternoon when they broke through the ice of Lake Stoco, which they were crossing. A hired man was in charge of the team and sleigh

and drove unknowingly into a place from which the ice had only been cut this season which had frozen once and over which a foot or so of snow had fallen or drifted. The driver jumped from the sleigh as it was sinking with the horses, which plunged out of sight. The horses came up but under the ice. Some of the animals were dragged from the water but were found to

FRIDAY 13th

The first Friday, the thirteenth of the year, is past, but there are two more to come. The second Friday in March also falls on the 13th. Then the world need not really worry again till the month of November. It seems that insult has been added to injury in the months of February, March and November for they are disagreeable enough as it is.

The easy—and consequently, the usual—way of accounting for the dread which some have of the day that is not only a Friday but also a thirteenth is by saying that Friday is a day of evil because of the Crucifixion and that 13 is a number of evil, because it was the number who sat round the table at the Last Supper.

But the superstition about 13 is much older than Christianity, it would seem. The number is indivisible. It has to be dealt with by itself as a separate unit. It is an awkward pair of digits, as any schoolboy knows. Probably for that reason, men of earlier ages, with whom arithmetic was not a strong point, found it disagreeable and tried to avoid it.

The superstition against Friday, however, does seem to arise from its Christian associations. It is a real "tabu," a day set apart by religion from other days for sorrow and fasting. Sunday is also a "tabu," a day set apart by religion from other days for joy and peace.

Herein one sees the two different facets of the tabu. It lifts ordinary things and times of life out of the common run and does so either by dedicating them or damning them, by making them either so holy or so unholy that people will avoid working in them.

In 1819 when King Rihorho, of Hawaii, was converted to Christianity, he lifted every tabu on everything or time or person on the island. He did that only in order to make "le tabu," the tabu, par excellence—and that was the British Sunday.

To treat things and times and people with any respect or fear other than is inherent in them is perfectly ridiculous, of course. If people would only realize how often the calendar has been changed and how, after all, this is probably neither Friday nor is it the thirteenth, then perhaps they would walk nonchalantly under ladders even though there was a painter with a pot atop. They might even spill salt and care nothing for the mess it makes. They might make a point of breaking looking glasses, despite the cost.

OBITUARY

OWEN McAVOY

There passed away at his home on the 4th Concession Tyendinaga, an aged resident in the person of Mr. Owen McAvoy.

Although having reached the ripe old age of over ninety years, Mr. McAvoy enjoyed very good health until the last few days.

He was born on the fifth of Huntingdon and previous to moving to his present home resided on the eighth of Tyendinaga.

He suffered a great sorrow some five months ago when his wife died after that had enjoyed a happy life of over sixty years together.

His kind and genial disposition made him beloved by all. He is survived by three children, Owen, of Albany, Annie of Detroit, and James with whom he lived, also seventeen grandchildren.

QUEENSBORO MAN RUN OVER BY OWN WAGON

William Franklin, aged 73, is lying at his home three miles north of Queensboro in a critical condition as the result of an accident while hauling wood. Mr. Franklin, who is subject to weak spells, went after a load of wood, and was discovered later by a neighbor, on the road a short distance from his home, in an unconscious condition. Mr. Franklin was taken to the home of Mr. Arthur Wyatt, a doctor was called and it was found that several ribs and a shoulder blade were broken. It is thought that he had taken a weak spell, and had fallen in front of the wagon which passed over his body.

Later—Mr. Franklin passed away on Wednesday morning as a result of the accident. The funeral service was held on Sunday last.

FAMILY ESCAPE POISON FUMES

Probably, the baby waking up and requiring attention saved the whole family of Mr. George Keegan, of Stirling, from asphyxiation from the fumes of coal gas on Tuesday a.m. Mrs. Keegan on rising fell to the floor, striking her head against a piece of furniture. One of the family was able to get out and soon Dr. Alger was on the scene and resuscitated Mrs. Keegan and the others needing attention. It was a close call.

PRESENTATION AND ADDRESS

Stirling, Feb. 21.—A pleasant surprise awaited Mrs. Robt. Reid and the Kingston family, Ridge Road, on Tuesday, February 17th, when a sleigh load and six cars from town and neighbours and friends arrived to spend an evening with them before their departure from this vicinity. After they had all arrived Mr. W. S. Martin called the people together and Mr. Wm. Fitchett was appointed chairman and he called upon Mrs. Reid to come forward, then Mrs. Clifford Lansing, President of St. Paul's W.M.S., read the following address:

Stirling, Feb. 17.

Dear Mrs. Reid and family,—

"We, your fellow workers in St. Paul's United church, together with your neighbours and friends, have decided to peacefully invade your home this evening to spend a few hours of social enjoyment and fellowship together and to remind you of our love and good wishes.

"For many years now you have been a resident of this community, and time has but served to prove what a fast hold you have secured on our hearts. Through the years you have proven to be a devout church member, a good neighbour and a true friend. It is not for us to attempt to explain in detail your "labors more abundant," but we do want you to know that we value these services so unselfishly and patiently rendered.

"As a communicant of St. Andrew's Church and since June 10th, 1925, as a member of the United church, you discharged your duty, ever obeying, we believe, the voice of the Master which calls us all to obedient and unselfish living. How cheerfully and wholeheartedly you have answered the summons. When a neighbor was in need, your quiet kindness was a benediction in our homes. Someone has said that friendship is the most valued treasure in life.

We have come here tonight to say that you, Mrs. Reid, are a real friend and we are persuaded that the secret source of that quality is "you know the friend that sticketh closer than a brother." No matter what the future may hold, we wish you to know that time will not impair our regard for you.

In closing may we express our reverence for the memory of your deceased husband, who, while in life, helped you to carry forward your plans to give and serve. As a token of our esteem we beg you to accept this purse of money. We sincerely hope that life's treasury will ever be filled with God's blessing and every good thing for you.

Rev. E. W. Rowland, Mrs. C. Lansing, President W. M. S., Mr. Wm. Fitchett, Chairman.

Miss Eliza Donnan presented the purse containing \$25.00 in gold, then Mrs. John Bateman presented Mr. and Mrs. Kingston with an upholstered chair and to Miss Melissa Milligan a handsome crepe scarf. Dorothy Gay presented Roberta Kingston with a snap-shot album.

Though evidently taken by surprise, Mrs. Reid and the others replied in a feeling way. Community singing led by Mrs. Macklin, games and contests followed after which lunch was served and a happy time was spent even though several cars had to be drawn out of the ditch owing to the drifts but reached home safely.

OBITUARY

F. F. DAYTON

Frank Frederick Dayton died on Saturday morning at Marmora, as the result of injuries received the previous day while at his work in the Silica Rock Quarry north of the village. Coroner Dr. H. H. Alger, of Stirling, was empanelled a jury and has ordered the inquest to be held at the Town Hall at 2 p.m. on March 3rd.

The deceased man, it is stated, had placed two charges of dynamite in the face of the rock for the purpose of blasting. One of the charges was exploded, but for some reason the other charge "hung fire." Dayton was going forward to investigate, when without warning the charge exploded, hurling fragments of rock in all directions. Dayton was struck on the head and had a portion of his left ear cut off. He was immediately rendered first aid and rushed to his home, where he lay in a precarious condition throughout Friday night. At times he was semi-conscious.

Mr. Dayton, who was 24 years of age, had come to Marmora about three years ago, from Warsaw. He leaves his wife, formerly Emma Cooper, of Marmora township, and one baby son, Frederick. The funeral was held Monday afternoon, with interment at Marmora Protestant Cemetery, preceded by a service at the United Church.

EXPLOSION REPORTED BEFORE STIRLING FIRE

Fire in the basement of a block owned by Ross Coulter, of Stirling, gutted the building, the stock consisting of dry goods and furnishings, being destroyed Sunday, causing a loss estimated at more than \$25,000 partly covered by insurance. The fire broke out shortly after 2 o'clock, and gained such headway that help was requisitioned from Belleville Fire Department, and Fire Chief Lynch, with four men, went to the scene and took charge of the situation, the blaze being brought under control late Sunday. The cause of the fire has not been determined, although it is alleged an explosion was heard at the rear of the store a short time before the blaze broke out. Three persons living above the store were awakened by the smell of smoke in the rooms. The village of Stirling has no water-works, and firemen fought the blaze with difficulty. The Misses Saries and Miss Fleming, tenants, escaped, and removed most of their furniture. One part of the block was used as a furniture store room, and with the help of residents most of the furniture was taken out.

BRITAIN'S NEW WAR PLANE

London, Feb. 22.—Official announcement was made today that secret tests had been completed of a new type of fighting aeroplane which may revolutionize air combat. Although the plane is only a single-seater biplane, it carries six machine guns, controlled in unison, and four twenty-pound bombs. The craft has a sustained speed of 194 miles an hour.

JOE WRIGHT NOW A PROUD FATHER

Toronto, Feb. 20.—Mrs. Joe Wright, Jr., more familiarly known throughout the United States and Canada as Martha Norrellus, famous swimmer and winner of the 1929 Canadian National Exhibition Marathon with ten thousand dollars prize money, today became mother of a daughter. Both are doing nicely.

COBOURG THUGS WERE REMANDED

Cobourg, Ont., Feb. 24.—Charged with stealing nearly two thousand dollars after holding up the staff of the local branch of the Dominion Bank, last Tuesday, Walter Clifford, of Cape Breton, Leonard Forest, London, Ont., and another youth under sixteen were remanded until March third, when they appeared in police court today. The youths were captured after a short chase through Cobourg streets.

WILLING WORKERS' CLUB

The February meeting of the Willing Workers' Club, of Cooper, was held at the home of Goldie Holmes with the vice-president, Vera Canniff, in charge.

Meeting opened with singing two verses of Auld Lang Syne, followed by the Lord's Prayer in unison.

The roll call was answered by a conundrum. Minutes of the last meeting were read by Goldie Holmes in the absence of the Secretary, Katie Smith. Mary Wood gave a reading, "Pat's reason."

Goldie Holmes favored them with a phonograph selection, "When the sun goes down again." An invitation was accepted to hold a social evening at the home of Goldie Holmes on Thursday of this week. It was moved by Mary Wood and seconded by Leona Gryce that they send for a comforter to be given for the lucky ticket at a play to given about Easter. Next meeting will be held at the home of Vera Canniff. "Onward Christian Soldiers," was sung and the meeting closed with the Mizpah Benediction.

BRITAIN PRODUCING 40 PER CENT. OF FOOD

London, England, Feb. 23.—Home farming produces approximately 40 per cent. of the food consumed in Great Britain.

Britain is obliged to import great quantities of food supplies, as is shown by the fact that annually more than 60 per cent. of the food is imported valued at about \$378,500,000. Agriculture, though, pays a large and vital part in the national economic life. Britain, of course, is forced to concentrate on livestock production and has not vast prairie farms such as are in Canada.

Stock breeding in Britain has never been at such a high scientific peak as at present.

London, Ont., Feb. 22.—Right Rev. M. F. Fallon, D.D., Roman Catholic Bishop of London, died at his home, 90 Central Avenue, at 9.50 tonight.

TO BRING BRITISH STUDENTS TO CANADA

Montreal, Feb. 24.—A Canadian Scholarship Fund is being advanced in Canada and England which is for the purpose of bringing British public or secondary school graduates to Canada for University education and subsequent entrance to Canadian life. A subscription of \$800,000 is now being made in Britain and Canada and Canada's allotment is half the total. Most of it has already been pledged upon condition that a similar amount is raised in Great Britain.

The Chairman of the Canadian committee is E. W. Beatty, K. C., and on the committee are Sir Arthur Currie, principal and vice chancellor of McGill University; W. H. Fyfe, principal of Queen's University; W. D. Herridge, of Ottawa, Hon. Rodolphe Lemieux, R. M. Macdonell, trustee of Queen's University and Canadian secretary of the Rhodes Trust.

FARM IMMIGRANTS FOR NEW BRUNSWICK

Saint John, N. B., Feb. 24.—A British family settlement agreement has been entered into between the Overseas Settlement Committee, the Canadian Government, and the Government of New Brunswick, under the terms of which it is proposed to settle 500 British families on semi-improved farms in the Province of New Brunswick during the next five years.

The Provincial Government buys the farms, which are resold at actual cost to the settler, and also receives from the British Government an amount not exceeding £300 for initial payment on farm stock and equipment.

POPULAR SCREEN STAR NATIVE OF COBOURG

One of the most popular screen stars with local audiences is Marie Dressler, and it is interesting to know that she is a Cobourg, Ont., girl. Some of the pictures she has starred in are "Min and Bill," "Reducing," "Bringing up Father," "Hollywood Revue," "Caught Short" and "Puttin' on the Ritz." For a mirth-provoking picture one should see those in which Miss Dressler appears. Of course she's one of the Los Angeles residents.

CANADIAN MINERAL RECORDS

New records were established in the output and value of gold, petroleum and natural gas during 1930, and more copper, lead and zinc were produced during the same period than in any previous year in the mining history of Canada, according to the latest official estimate. Gold production in 1930 passed the two million ounce mark for the first time; natural gas set up a new high record of 29,365,000 thousand cubic feet, and crude petroleum reached a production of 1,500,000 barrels.

NOTICE TO CREDITORS

In the estate of John Birrell. Creditors and others having claims against the estate of John Birrell, farmer, who died at the Township of Tudor, in the County of Hastings, on the 29th day of December, 1930, are notified to send to the undersigned solicitor for John J. O'Rourke, the administrator of his estate, before the 28th day of February, 1931, particulars of their claim in writing verified by statutory declaration, after which last date he will distribute the estate amongst the persons entitled thereto, having regard only to the claims of which he has then notice, and he shall not be liable for any part of the estate so distributed to any person of whose claim he had not notice at the time of such distribution.

Dated at Madoc this 12th day of February, 1931.
Geo. S. White, Madoc, Ontario, Solicitor for John J. O'Rourke, Administrator.

NEWS AND INFORMATION FOR THE BUSY FARMER

Clean Seed Pays

In stressing the importance of using good seed, Prof. W. J. Squirrel, of O. A. C., in a recent address quoted results obtained from extensive experiments which showed invariably an amazing increase in yield per acre from clean, plump, tested seed of a good variety over the other kind. In making purchases, the buyer is strongly advised to demand tested seed. Much of the gamble can be eliminated from farming where the field is thoroughly cleaned of weeds and put into a fine state for sowing by cultivation and good seed used.

Cod Liver Oil For Poultry

When hens are shut in during the long winter months an abundant supply of vitamin D is required to keep them producing and healthy. It is the presence of this vitamin which assists assimilation of the minerals calcium and phosphorus in the production of eggs and egg-shells. As the value of cod liver oil for poultry feeding depends entirely on its vitamin content, only reliably-tested brands should be used. Crude cod liver oil is suitable for poultry and is not expensive. In the dry mash, one pint to each 100 pounds of mash is a good ration, while with a wet mash or other feed, one or two teaspoonfuls to each 12 birds has been found adequate.

Values in Home-Grown Vegetables

While Ontario vegetable growers report large quantities of carrots and cabbage still in storage, importations of these vegetables from the south continue to arrive in considerable volume at the larger markets of the province, where they are reported as meeting with a good demand in spite of their comparative high price. Mr. George Rush, Fieldman for the Ontario Vegetable Growers' Association, stated in a recent meeting that a survey of retail stores showed that many storekeepers gave preference in display to the imported vegetables, and offered as an explanation for this that there was greater profit in handling imported carrots and cabbage. The Markets Branch of the Ontario Department of Agriculture has pointed out that the added revenue from the handling of these imported goods comes from the consumer's readiness to pay a considerable premium for imagined values. Recent investigations show that the Ontario carrots and cabbage that have been stored under proper conditions have, pound for pound, food values equal to those supplied by the imported vegetables. Ontario shoppers are being warned by the Department of Agriculture that in purchasing imported carrots and cabbage they are paying three times the amount of money needed to obtain equal vegetable food values.

Produce Men Approve Broadcasting
A report of the annual meeting of the Eastern Canada Fruit and Vegetable Jobbers' Association held recently at St. John, N. B., includes the following:

"The effect of the radio advertising conducted by the Ontario Department of Agriculture is reported by the trade to have had very satisfactory results in moving fruit and vegetables this past fall, particularly during periods of heavy receipts, and an extension of this program is being urged. Press advertising and the publication of timely and attractive bulletins and pamphlets by the Dominion and Provincial Departments of Agriculture dealing with the use of fruits and vegetables is also urged.

Successful Dairying

"Factors essential to success in dairying," was the subject discussed by M. C. McPhail, of this Department before a recent convention of cheese-makers. His analysis of the situation resolved itself into four divisions, as follows: (1) Diversification of farm enterprises: too many dairy farmers are so intensely interested in their cows that they forget to look around for money making sidelines that can be operated without any great additional outlay. (2) High yielding crops are important. All feeds must be grown on somebody's farm and on most farms they can be produced more cheaply than they can be purchased. (3) Efficiency of live stock. The efficiency of the individual animals to utilize feed is a big factor in determining profit. (4) Operating costs. Keeping expenses at the lowest point consistent with efficiency.

Agriculture Prominent

Plans for improving agriculture throughout the Province occupied a prominent place in the speech from the Throne at the Ontario Legislature opening last week. Legislation was forecast to implement many of the recommendations, including creation of a Provincial Marketing

Board, which appear in the Somerset inquiry report. Notice of plans for the improvement of herds in regard to milk production was given. There was the suggestion of early introduction of remedies to protect livestock against the ravages of parasites, and finally the intimation that Hon. T. L. Kennedy, Minister of Agriculture, will sponsor this coming summer an exhaustive inspection of Ontario's agricultural pursuits for all the institutional heads within his jurisdiction. Special attention will be paid to farming possibilities in Northern Ontario and a scheme devised to utilize the many homesteads which have stood idle for several years in good farm country of the North.

Will Take Evidence

With all possible speed the Ontario Government is moving to relieve distress among farmers of this province. The Agriculture Committee has already begun its deliberations and will likely function as an evidence-taking inquiry body. Premier Henry says intimated that farmers of districts particularly hard hit by the depression period might be asked to appear before the committee to state their cases. All parties in the House have agreed that the relief of agriculture is of paramount importance and no small part of the present session will be devoted to consideration of measures aimed in that direction.

Corn and Seed Show

After having been in obedience for years, the annual seed show of the Southwestern Ontario Corn Growers' Association was revived last week with a splendid exhibition in the city of Chatham. The quality of the corn exhibits was exceptionally fine, even if not quite on a par with that of displays before the corn borer did its work. Other classes, including cereal grains, small seeds, tobacco and potatoes, had many entries and competition was keen. The 1930 corn crop in Southwestern Ontario was the largest and best since the borer's invasion and affords concrete evidence that the havoc wrought by the borer has been materially reduced in the last two or three years.

Recommendations Made For

Fruit and Vegetable Industry
Establishment of a fruit and vegetable growers' market council for the province and drastic changes in general marketing conditions are recommended in the report of Commissioner W. B. Somerset to Hon. T. L. Kennedy, Minister of Agriculture, following extensive inquiry into marketing problems of the fruit and vegetable industries. It is suggested that this market council should have a permanent paid secretary with a local secretary for each district and an executive committee, with power to appoint committees to study and deal with problems. Registration of all commercial fruit and vegetable growers is suggested so that they must place their registered number on all packages they market. Licensing and bonding of all shippers, truckers and commission men is recommended, as well as the establishment of sales promotion offices in Western Canada and in Quebec and the Maritimes during the selling season. Other recommendations are as follows: That surveys be made each season of crop conditions and the sales possibilities of the markets; that Government assistance be given in establishing central packing plants and cold storage or pre-cooling facilities; that by-product research be made into the commercial possibilities of the disposal of low grade fruits and vegetables; that steps be taken to prevent the marketing of immature fruit and vegetables; that the collective purchase of fertilizers and other supplies be fully canvassed; and that as a means of improving the quality of grade and pack for all markets the question of establishing an Ontario brand be considered.

THE FARM PROBLEM

The idea that the "farm problem" is something new or peculiar to modern times occasionally gets a jolt when we are permitted a glimpse into the forgotten past. Recently on the site of an ancient city a clay cuneiform tablet was unearthed which recorded the fact that 3,500 years ago Arilduppi, a Mesopotamian farmer was forced to pledge his entire farm as security for the loan of three and a half pounds of lead. Whether lead was high in price or farm credit low this farmer was undoubtedly facing a problem, as farmers have faced, and solved, since man first tilled the soil or tamed wild beast for his own use. The farm problem is part of the struggle of the race, first for existence, then for comfort and now for the multitude of things which go to make up our complex civilization.—Pennsylvania Farmer.

New names are being added to our mailing list from time to time. If your name isn't there it should be.

JUNE 1 WILL SEE START OF CENSUS

About 800 persons are to be employed by the Dominion Government in compiling the 1931 census statistics. They will act as typists, clerks, auditors, coders and machine operators. This 800, of course, does not take into account the 15,000 enumerators who will be required for the task of going from house to house. Their work will last about three weeks. It will take three years for the whole job, a small staff starting in May, with the number reaching its peak in August. A decrease in the number of the staff will begin at the end of the first year, and will gradually be cut according to the progress of the work.

The work of the 15,000 enumerators in making a house to house canvass will begin June 1, and extend over a period of three weeks. According to government statistics the cost of the 1931 census will amount to over \$2,000,000.

According to W. H. Coats, Dominion statistician, the names of the 260 census commissioners who represent each federal constituency throughout Canada will be announced shortly by the Minister of Trade and Commerce. The necessity of each individual giving correct answers to questions asked is being emphasized. Absolute secrecy exists. The question of age is one of importance, as without a correct census it is hard to pass legislation such as depends on the question of age, like old age pensions.

The Census managers impress the fact that no one sees the card handed in except the young woman who checks it, and it is a misdemeanor incurring a fine and imprisonment for anyone to look up a filed card in the records.

WHAT IS SUCCESS

It's doing your job the best you can
And being just to your fellowman;
It's making money, but holding friends,
And staying true to your aims and ends,
It's figuring how and learning why,
And looking forward and thinking high,
And dreaming a little and doing much,
It's keeping always in closest touch
With what is finest in word and deed;
It's being thorough, yet making speed;
It's daring blithely the field of chance
While making labor a brave romance
It's going onward, despite defeat
And fighting staunchly, but keeping sweet;
It's being clean and it's playing fair,
It's laughing lightly at Dame Disaster;
It's looking up at the stars above,
And drinking deeply of life and love,
It's struggling on with the will to win,
But taking loss with a cheerful grin,
It's sharing sorrow, and work, and mirth,
And making better this good old earth;
It's serving, striving through strain and stress,
It's doing your noblest—that's success.

BADLY SCRATCHED BY CAT

Mrs. Peter Tilley, 85 West Bridge street, Belleville, was severely bitten and scratched by a cat recently, and it was necessary to call a local physician. No serious results are expected from the accident, although her arm is quite painful. Mrs. Tilley was protecting one of her pet cats from an attack by a dog, when the accident happened. The dog seized the cat, apparently breaking its neck and Mrs. Tilley went out to rescue the feline. In its dying agony, the cat sunk its teeth deep into the flesh of the left arm above the elbow and also scratched the right arm. Sergeant Booth, of the local police, investigated. The feline was taken to the happy hunting ground for burial.

TEN MILES UP

Aeroplanes are now able to climb to greater heights than ever before, and the air battle of the future—if there is one—will be fought quite ten miles above land, out of the range of anti-aircraft guns.

Designers have been compelled to revolutionize the aeroplane to enable pilots to live at such a height, and the cockpit of these machines will be totally enclosed. The cabin will be electrically heated and the pilots will wear specially-heated clothing to withstand the cold.

Air will be provided from cylinders of oxygen, fed through a small mouthpiece. Great care is being taken over this item and accurate experiments will have to be made, for should the supply of oxygen fail the pilot would lose consciousness in mid-air.—From Pearson's Weekly.

1931 TEACHING DAYS UNDER 200

Total teaching days for 1931 are fewer than ever, according to the circular sent out by the department of education at Toronto to all Ontario schools. Two hundred days of actual tuition used to be the rule, but this year there are only 197 days. This applies, says the department, to high, continuation, public and separate schools. In the January to June period there are 118 days and in the fall term 79 days. Easter holidays will be from April 2 to the 13th. The schools are to close for summer vacation on June 29 and reopen on Sept. 1. Actually in most places these dates will not be observed. June 29 falls on a Monday, and, of course, most school boards, at least in cities and towns, will close the schools on Friday, the 26th. This year Sept. 1 falls on a Tuesday, and Labor Day on the 7th. It is the custom for the schools to open on the day after Labor Day. Will the whole of the first week of September be added to the holidays? That would take a total of five days off the 197. The departmental circular points out that neither Arbor Day nor Empire Day is a holiday, though the latter is usually a half holiday if not a whole one in most of the schools.

WOULD CUT SALARIES IN INTEREST OF ECONOMY

Reduction of the salaries of the Cabinet Ministers by \$2,000, a ten per cent reduction in the indemnity of members of the Legislature and the salaries of higher paid civil servants, and a drastic cut in the salaries of members of the Liquor Control Board was advocated in the legislature Tuesday by Hon. H. C. Nixon, Progressive leader. These steps, he said, should be taken in the interest of economy to lighten the burden of taxation on the people in a time of depression. With regard to the Cabinet ministers, Mr. Nixon said the act passed last session increasing their remuneration from \$10,000 a year to \$12,000 should be repealed and the repeal be made retroactive.

Reductions in salaries of civil servants would apply only to those receiving more than \$3,500. With the Liquor Commissioners, Mr. Nixon would cut their salaries in half and then apply the ten per cent reduction. Mr. Nixon urged repeal of the act passed last session requiring candidates for election to the legislature to deposit \$200. The law could do no good, he asserted, and might seriously embarrass a worthy candidate.

The student today accumulates the horsehide, the pigskin, the coonskin and, by the time he has the sheepskin father hasn't very much hide left either.—Minneapolis Journal.

TELLER EMBEZZLES \$8,200 LOSES IN GAMING HOUSE

Montreal, Feb. 19.—Admitting that he embezzled \$8,200 of the bank's money and lost it in a gambling house, Mickel Cambraggie, young Italian teller of a Royal Bank of Canada Branch, was sentenced to two years less one day in jail, by Judge Main today. At the end of his sentence he will be deported to Italy. Cambraggie, who is said to be a member of a prominent Italian family, was one of the employees in the bank when it recently was held up by five men who escaped with \$6,000.

FAMOUS CHIMES OF ST. PAUL'S SILENCED

London, Feb. 14.—The famous chimes of St. Paul's Cathedral have been silenced at night under the instruction of Dean Inge, a man climbing into the tower and stopping the chimes after 8.30 p.m. and setting them going at 6.30 a.m. Dean Inge considers the chimes a nuisance at bedtime hours, but there are many people in London who want them to continue throughout the night, and a controversy has sprung up over the matter. The clock has been going for about 200 years. It was silenced during the war.

TEMPERAMENTAL HORSE CAUSED \$4,000 DAMAGE

Lindsay, Feb. 19.—While Thomas Sheehey was doing the evening chores a horse kicked him. The lantern upset and the barn and contents were lost by fire. Mr. Sheehey found one of the horses loose and when he tried to prevent it going back in its blazing stall, the animal kicked him. He managed to get all the stock out of the barn before collapsing from his injuries. The contents of the barn were not insured. The total loss will be about \$4,000.

BRIDE IS WON AT 95 AFTER BRIEF WOOLING

Belleville, Feb. 19.—A six weeks' courtship will reach a happy conclusion on Monday next, when Samuel Yarrow, aged 95 years, will wed Mrs. Elida Brown, aged 65 years, of Campbellford. Mr. Yarrow for some years has resided in Trenton, and on Monday will be married for the fifth time, while Mrs. Brown will be celebrating her third wedding. They had not met each other until Mrs. Brown arrived from Campbellford yesterday, at the Trenton Station, although they have corresponded for some time. After the formalities of meeting yesterday the happy pair went to the Town Clerk in Trenton, where they obtained a marriage license, after which they arranged with Rev. A. E. Jones, of King Street United church, to tie the knot.

HASTINGS STAR CHANGES HANDS

Last week's issue of the Hastings Star announced a change of ownership. Mr. Chas. P. Doughty, who has been editor and proprietor of The Star for the past twelve years, has sold out to accept a more lucrative position in the Government Printing Bureau at Ottawa. His successor is Mr. Wilfred W. Knight, a Hastings boy, and former editor of The Star.

SOLLOWAY TO COAST, THEN TO TORONTO

Victoria, B. C., Feb. 19.—Isaac Solloway, former head of the defunct Dominion-wide brokerage firm of Solloway, Mills, Limited, will be arraigned in Vancouver Police Court as soon after his release Saturday from the Lethbridge, Alta., jail as he can be brought to the Coast, Attorney-General R. H. Pooley, stated today. He will then be released on bail and handed over to the Ontario authorities for trial first in that Province.

BANK CLERK WOUNDED IN A FAKE HOLD-UP

Montreal, Feb. 18.—William J. Ledger and Alphonse Dorais, bank clerks, decided to stage a hold-up drill when alone during noon hour yesterday. Ledger advanced on the teller with finger pointed as he would a revolver. Dorais snatched up the weapon kept on the teller's desk for protection and pulled the trigger. Ledger fell with bullet through the stomach and was in a critical condition last night. The young men told police they thought they had unloaded the revolver.

ROCKING CHAIR WAS MENACE TO HEALTH

Montreal, Que., Feb. 12.—Grandma's rocking chair was far more injurious to the health of its occupant than the much maligned aspirin tablet of today, declared Miss Kathleen Murphy before the Catholic Women's League, declaring this theory had medical opinion, to confirm it. She contrasted the comfortable furniture of the home today, with its pretentious draperies and artistic lighting, with the slippery horse-hair sofa and the table adorned with a wool mat of the Victorian home. In the older day, young people went into declines from which they could not be extricated, and women fainted on the slightest provocation—therefore health was poorer than now. The brainy women had then to disguise herself as an amiable imbecile, for men were afraid to marry clever girls—and there was nothing else for women to do but to marry. Miss Tansey, in rebuttal, declared that men's attitude towards clever women was the same today as ever but matrimony today was more or less of a side line.

WAITING FOR 8.30

Mother and Anne had always been very close to one another. When Anne married and moved to another city, each missed the other greatly.

But one thing more than any other has helped to keep them close—the telephone. Every Friday evening Anne calls her mother by Long Distance... after 8.30 p.m. when the low night rates are in effect. During the week they both keep memos of topics they wish to discuss. Then there is no time lost... and nothing forgotten.

What if they are 120 miles apart! The telephone connection is made in about a minute—nearly always while Anne holds the line. (Their voices are just as clear as on local, and the cost, after 8.30 p.m., is only 40 cents.

Evening rates of "Anyone" (station to station) calls begin at 7 p.m. Night rates begin at 8.30 p.m.

PROSPECT HOPEFUL FOR BACKWARD CHILDREN

In every community there are a few individuals who are simple, or "soft," or foolish.

Modern science has not yet discovered why it is that even in families of highest intelligence there is occasionally a child who falls far below his brothers and sisters in intelligence. Unable to receive much, if any, benefit in the schools, these children, until recently, were allowed to grow up largely ignorant and untrained in ways of making a living. It was perhaps natural, therefore, that they should, in one way or another, often get into serious trouble. A large percentage of vagrants, paupers, petty criminals and prostitutes belong to this class.

With better understanding of the nature of their trouble, it is now possible to recognize them at an early age. While most of them have more or less difficulty in getting very far with the three R's, they can often, with patient and careful teaching, learn to use their hands. Many of them are capable of learning simple trades. And with this end in view certain schools in the principal cities of Canada now have special classes in which manual training is the keynote of instruction.

This is a very fine advance over the days of old, but there is still room for improvement. Classes such as these must yet be established in the vast majority of the smaller towns, and in places where there are only a few backward children some other means of dealing with the problem must be devised.

In another way present arrangements do not go far enough. These classes are, of course, in grade schools, and they accept the children only up to the age of sixteen, or thereabouts. But the children can not go to the regular high schools or technical schools, and they are therefore thrown out into the community only partly trained and incapable of contributing much, if anything, to their own support.

Toronto, however, has two special schools, one for boys and one for girls, which take these children after sixteen and finish their training. They are proving very successful in fitting backward children for life. Similar schools should be established in every other city in the country.

ADVERTISING

A taste for cigarettes blended from Virginia grades has been established in this country, and since a blend is usually made popular by means of expensive research and advertising on the part of the manufacturer, it must be protected by uniformity of supply and quality. It is important, therefore, that the cigarette tobacco supplied to both the domestic market and the manufacturing industry of the United Kingdom (where the considerations mentioned above also apply) should approximate as closely as possible the grades for which a market has already been established. Tastes are, of course, subject to change, witness the rapid and almost general inexperience of cigars and pipe tobacco, and it is not unlikely that with enterprise, and the passage of time a taste may develop for a cigarette of distinctive Canadian flavor. In fact, one brand of Canadian manufacture, blended of a very large proportion of domestic leaf, already has a wide popularity.

There has been a fairly rapid and widespread increase in the use of tobacco since about 1910, largely attributable to the spread of the cigarette-smoking habit during the war and latterly among women. The per capita per annum consumption in Canada during the past 15 years has risen nearly one-quarter of a pound, and now stands at nearly 4 pounds; in England it has risen from 2.4 pounds to somewhat over 3.5 pounds. While the rate of consumption in Canada is higher than that in Great Britain, the rate of increase has been slower. Cigarette smoking among women has been rapid, almost revolutionary development, and it would not be safe, therefore, to assume that consumption will continue to increase at this rate; it is not as widespread in Canada as in Great Britain, however, and the increase in the domestic rate of consumption is, therefore, potentially greater. Neither Canada nor the United Kingdom ranks high as a consumer of tobacco, however. Per capita consumption in 1926 in Belgium and Germany was at the rate of 6.6 pounds and 4 pounds respectively, and in 1929 that in the United States was 6.32 pounds.

Kitchener, Ont., Feb. 12.—"Lefty" Hill, prominent in local sporting circles, who was convicted of manslaughter in connection with a fatal motor accident last June, was today sentenced to nine months in the reformatory.

MEMBERS OF PARLIAMENT

When Parliament opens at Ottawa shortly, French-Canadian members of the House will discover they have lost a distinction of which they were proud—that of having in their numbers the largest family of all the Commons.

This Parliament, the 17th, however, will see J. H. Meyers, Conservative member for Queen's, Prince Edward Island, as the champion father. His family numbers 15 children and so far no French-Canadian member of the present House can rival him.

Mr. Myers remains far behind the record of Col. H. E. Lavigne, a member of the last Parliament, who went down to defeat in the July election. His family numbered 27 children and he was a comparatively young man.

There will be great interest in the coming session. Ottawa has yet to become really acquainted with the hundred odd new members elected July 28th. A feature of the new House is that there are 19 bachelors and one unmarried woman—Miss Agnes MacPhail, the lone representative of her sex.

W. A. Black, Senior Conservative member for Halifax, again is the oldest member of the Commons. He is 84 years old. J. L. Duguay, Conservative member for Lake St. John, enjoys the distinction of being the "baby" of Parliament. He is a dental surgeon and will be 31 next October.

HONEYED WORDS

This is the story going the rounds about the boss on the waterworks construction, who believed profanity acted as a spur to the men working for him. This foreman had a command of language, according to all accounts, which would put a tugboat captain to shame and would fade an old-time printer off the map. Many people walking along the street were shocked and horrified to hear the lurid adjectives that came hurtling through the air from that part of the works presided over by the eloquent overseer. To make a long story short, the boss met his Waterloo when one of his tirades was overheard by a passer-by who objected to such language and who complained to the authorities. The accused was hauled before the police court and fined seven dollars. Next morning, it is related, he went to the job, placed his arms affectionately about the neck of one of the men, and said in pleading tones: "Sweetheart, would you mind going over and digging in that corner?"—*Almonte Gazette.*

WHEN EDISON SLEEPS

Henry Ford, who has written a book about his friend, Edison, says that the legend about Edison's ability to exist without sleep is all nonsense. The truth is that when he works he likes to work at times in long stretches, and that he likes to sleep in odd snatches and when there is nothing better to do. According to a review of the book, "on their camping holidays together, Ford says Edison falls asleep as soon as he ceases to be interested."

It is certainly one way of indicating a waning interest, but one has to be rather an eminent person before it can be indulged in without creating unfavorable comment. And it must be rather alarming to have Edison next to you at dinner; it cannot be regarded as a compliment to your social gifts if he is heard to snore with deepening vigour and observed to be drooping slowly forward into the peche Melba. But it will be all right. If Mr. Ford is there: "Good gracious! What is the matter with Mr. Edison? Is he ill?" "No ma'am," comes Mr. Ford's quick and reassuring reply. "Just not interested."

NEW GOVERNOR OF COUNTY GAOL

Gilbert H. French, who has been appointed governor of the Hastings County gaol, is held in high esteem throughout the Bay of Quinte district, and it is felt, that in this appointment, an admirable choice has been made of a successor to the late Tom Ketcheson, governor for many years.

Mr. French has proven himself a good business man with executive ability and a knowledge of human nature, one of the essentials in the holder of this position. That he will prove an efficient gaoler is not to be doubted.

He will be missed in the business life of the district for his associations with the farming community were very close owing to his export business and with the city were very intimate.—*Ontario Intelligencer.*

THE COUNTRY WEEKLY

Oh, the little country paper so modest, thin and small; 'Mong all the great big dailies I love it best of all. And cheerfully unfold it, and read each item through; How they fill my heart with gladness though they simple seem to you.

Jim Hogan's got the measles, and Aunt Liza's got the grip. And Ben Davis and his daughter's on an automobile trip. How many great big taters was raised on Hogan's farm, And how little Mandy Starbird is singing like a charm.

And I see the Chester homestead has passed to other hands, And the children, all that's left of them, now live in other lands; There was one among their number that was once quite dear to me, And I used to think—Well, never mind, I found 'twas not to be.

Ah, the coming from the old home of that little weekly prize, Though sometimes it brings a sadness and a tear-drop to our eyes, How lovingly we read along each item to the end, An echo from the old home, so like an old-time friend.

How useless seems the struggle for stocks and bonds and cash, Oft times they lose their luring and all the lot seems trash; How freely we would give them all to be a boy once more, And come in again to mother, in through the open door.

STRANGE MIRACLE SEEN ON RICE LAKE SHORES

Harwood, Feb. 11.—Scientists may investigate the singular mirage which was observed by scores of citizens of Harwood, Gore's Landing and other points bordering Rice Lake this past week.

Most mirages are either illusions or else sky photographs of scenes beyond the horizon. In desert countries, travellers see palm-shaded oases ahead and see the rippling of lakes that do not exist.

The Rice Lake mirage, however, had a magnifying quality, revealing scenes on the north shore of the lake. Spectators in Harwood looked across to the Indian village of Hiawatha and saw children playing with their dogs. Two teams four miles away seemed no further than two hundred yards away. The islands which dot the lake's surface seemed almost within the toss of a pebble.

Just what condition of atmosphere accounted for the marvel is hard to state. Local amateurs of natural wonders hope that the matter may be studied by university men at no distant date.

AUTO TARIFFS ARE DISCUSSED TODAY

Ottawa, Feb. 20.—A protest from Canadian Automobile Importers' Association against the action of the government in fixing the discount of twenty per cent. from the list prices on automobiles entering Canada from the United States featured today's brief hearing of the cabinet subcommittee on tariffs.

At opening of the sitting, F. A. Nancekivell, chairman of the association, asked as to accuracy of the press reports announcing discount and when the new regulation would apply. The Premier said action indicated had been taken and would be applicable at the opening of the customs houses this morning. Nancekivell said ten thousand unemployed would result and that he might have some further submission to make in writing.

A WARNING

A former school athletic champion was killed in diving over horizontal bars in the gymnasium of Swansea School, Toronto. This is not an isolated instance, for other pupils have been killed in recent years in just such accidents. In Montreal there have been several cases of broken limbs and minor injuries among pupils, and even instructors have been hurt. There have also been accidents of the kind in Ottawa, and probably other places. The gymnasium training in the schools is strenuous these days, both for boys and girls, and the Toronto tragedy serves as a warning to school commissioners and other authorities to consider the conditions of training and make modifications if necessary.—*Montreal Gazette.*

London, Feb. 19.—The Daily Express says Premier Ramsay MacDonald will take a week's holiday after fulfilling an engagement at Birmingham, Feb. 23.

The paper adds that his destination will be kept a secret in order to insure that he may not be molested while on vacation.

WHAT 1950 WILL BRING TO US

Business men cannot ignore carefully thought-out predictions of material and social changes in this country during the next generation.

And so to-morrow's Business (New York), published by the National Educational Association. They are described as forming "interesting reading for any thoughtful business man, and are worthy of serious consideration as they touch on nearly all the major, social, and economic problems facing us today." And many of them "relate to the business for which we must make future plans."

On the material side, probable achievements by 1950 are listed as follows:

1. A system of health and safety that will practically wipe out preventable accidents and contagious diseases.
2. A system of housing that will provide for the masses homes surrounded by beauty, privacy, quiet, sun, fresh air and play space.
3. A flat telephone rate for the entire country at moderate cost.
4. Universal air transportation at low cost.
5. A system of paved, beautiful highways will connect every part of the nation.
6. The further development of school buildings and playfields until they will exceed in nobility the architectural achievements of any other age.
7. The organization of industry, business and agriculture to minimize uncertainty and depression.
8. The perfection of the insurance system to give universal protection from disaster, unemployment and old age.
9. The extension of national state, and local parks to provide convenient recreation areas for all the people.
10. The perfection of community, city, and regional planning to make all surroundings increasingly beautiful and favourable to the good life.
11. The shorter working week and day, so extended that there will be work for all.

On the social side the probable achievements are summed up like this:

1. Hospitalization and medical care will be available for all who need them.
2. There will be a quickened appreciation of the home as a centre of personal growth and happiness.
3. Educational service, free or at small cost, will be available from the earliest years of childhood throughout life.
4. The free public library will grow in importance, leading the way towards higher standards of maintained intelligence.
5. The nation will achieve a standard of citizenship which means wholesome community life and clear government.
6. Crime will be virtually abolished by transferring to the preventive processes of the school and education the problems of conduct which police, courts and prisons now seek to remedy when it is too late.
7. Vocational activities will become richer, leading to nobler companionships and to development of the creative arts.

TAKING WHEAT IN PLACE OF CASH

Many concerns interested in business from the prairie provinces are considering the adoption of the Wrigley plan, states Allan Ross, president of Wrigley's.

His statement that Wrigley's have been successful in holding and increasing their business by taking the amount of current sales in wheat has not only shown a good will and friendly interest to the west but has encouraged manufacturers and bankers to a more liberal view of the credit strength of the distributors (jobbers and retailers) and consumers in the prairie provinces.

Mr. Ross regards wheat as a staple whose depressed value is not likely to long continue and which offers good security in exchange for the merchandise of the east.

Many of the eastern manufacturers who have made inquiries verbally and by letter are very complimentary toward the plan and three of them seem likely to announce their adoption of it within the next few weeks as a means of helping the revival of business in the west.

BELMONT ELECTION TO BE UPSET?

Proceedings which promise to upset the recent election of Reeve J. F. Breckenridge and Councillors Isaac Anderson, Norris Whitney, Christopher Steenburgh and Harry Vansickle in the Townships of Belmont, Methuen, have been instituted under Section 169 of the Municipal Act, Frederick Fry, relator, having made application to the County Judge through his solicitor, W. F. Huycke, to have the election declared null and void on the grounds of certain irregularities. His Honor issued a fiat on the motion to be heard before him at the Court House in Peterboro on February 25.—*Norwood Register.*

OBITUARY

MRS. DAVID LARKINS

Mrs. David Larkins died on Friday morning last as the result of injuries received when she fell in her home about a month ago and broke her hip. She was 85 years of age and had been a resident of Tweed for about eight years. Previous to this she resided at Larkins, in the township of Hungerford, where she had a wide circle of acquaintances who regret exceedingly the unfortunate circumstances surrounding her death. She is survived by her husband and a large family of children. The funeral took place to St. Carthage's church on Monday morning, where Rev. Fr. O'Riordan officiated.

On the Witness Stand.

A little flaw in his statements ruins the evidence of the witness. It may be a slight exaggeration, but the opposing lawyer seizes it and uses it to impress upon the jury that this witness is not reliable.

The Advertiser to-day is on the witness stand. If he makes mis-statements he is judged accordingly and his entire advertising is mistrusted.

Wide-awake business men realize this. They tell the truth in their advertisements; not because they are better than they used to be; but because they have learned that it pays.

The advertising columns to-day contain real, dependable information that will save money for you if you follow them intelligently.

Copyrighted 1914
SINGLE SYNDICATE

QUEENSBORO

Universal regret was felt in the village over the news of the death of Mr. Wm. Franklin last week, one of the pioneer residents of this neighborhood and a first class carpenter. There are not many of the barns in Madoc and Elzevir that he did not build as well as many of the houses. He will be a real loss to the community. His funeral to Hazzard's cemetery on Sunday was largely attended by his neighbors and relatives. Rev. Beckstead, of Eldorado, conducted the service, assisted by Revs. Everson and Oldfield. Hazzard's and Cooper choirs furnished the music, a very beautiful duet being rendered by Mrs. A. Wyatt and Miss A. Keene. His wife, three sisters, one brother and 77 children and grandchildren survive.

Miss J. Thompson spent a few days last week with her sister at Wooler.

Mrs. Kincaid is visiting her sister, Mrs. M. McLean, at Detlor. Mrs. Keene is in Tweed caring for Mrs. W. Davis who suffered a paralytic stroke last week.

Queensboro claims an interest in Mr. H. Harrison, of Latta, a notice of whose music appeared in last week's Review. His parents and grandparents belonged here.

IVANHOE

Mr. and Mrs. T. Lockhart and Miss Margaret, of Montreal, left on Monday for California. They intend staying two or three months.

Mr. and Mrs. H. Lovibond, of Toronto, are visiting their parents here.

Miss M. Campton, of Marmora, is visiting her sister, Mrs. G. McInroy.

The "World Day of Prayer," was observed by the Women's Missionary Society of Beulah church at the home of Mrs. C. A. Mitz on Friday afternoon.

On February 17th the Beulah W.M.S. held their second meeting of the year at the home of Mrs. Geo. Reid with 14 present.

The meeting was opened by singing hymn, "What a Fellowship," followed by prayer by Mr. Lovelace and responsive reading.

Roll Call was answered by each one reading a verse of her favorite hymn. The minutes of the last meeting were then read and business was discussed. Mrs. Lovibond and Mrs. R. Reid gave interesting papers on, "One moment, please," and "A Finnish Church." The devotional leaflet was taken by Mrs. Lovelace, followed by the hymn, "Yield not to temptation."

The study of the month was Japan and papers were read by Mrs. Kilpatrick, Mrs. M. Reid, Mrs. Henderson and Mrs. Lovibond.

Collection was taken and the meeting closed with a hymn followed by prayer by Mrs. Jno. Clements.

A lovely lunch was served and a social half hour enjoyed by all present.

Mrs. Baldwin Reid has returned home after visiting several weeks in Bethany, Peterboro and Havelock.

UNION

The W. M. S. of Union held a quilting bee at Mrs. Albert Empey's on Friday.

Mr. and Mrs. Jack Empey and Joan visited at Mr. Harry Blakely's on Sunday.

We are sorry to report that Mr. Fred Empey is in the Belleville Hospital.

Miss Goldie Broadworth is visiting friends in our vicinity.

Mr. and Mrs. Jas. Bateman visited their son, Mr. Tom Bateman, on Sunday.

Mr. Beryl Carman is busy clearing the north end of his sugar bush, where the tower line, that is under construction, passes through.

Mr. George Fox spent Saturday afternoon in Madoc.

Mr. Harry Pack called on Mr. H. Blakely's on Sunday.

Mrs. Haines was a visitor at Mrs. Geo. McCann's last week.

Mrs. John O'Rourke and Miss Jessie Delyea, of Queensboro, visited at Mr. Ken Bateman's this week.

Mrs. Everard Carman and Miss Broadworth spent a few days with Mrs. Alger Post.

ADVERTISING IN BUSINESS RECOVERY IMPORTANT

Advertising will play an important part in the recovery from business depression, C. R. Gundy, City Advertising Manager of the Robert Simpson Company, told members of the Advertising and Sales Round Table at a luncheon meeting in the King Edward Hotel yesterday. He also stressed that unparalleled opportunities for buyers are offered this spring. Markets have been cleared, factories emptied, and the minds of manufacturers and inventors have been sharpened by falling commodity prices," Mr. Gundy declared.

CANADIAN APPLE MARKET IN FRANCE

Ottawa, Feb. 24—Canadian apples have been on display in Paris, by the Canadian National Railways, and have made a strong and deep impression amongst the French people. Although in normal years the French grow several varieties of apples, when there is a poor crop there are not nearly enough for consumption. Imports were made from Italy and the United States in large quantities.

Several shipments of Canadian apples from Ontario, Nova Scotia and British Columbia have been made and the importers are very optimistic about the future if the quality, which is absolutely essential, is maintained. Advice is received from Paris that the growers' Association of each province should take special care of their French orders, as the last shipment from Canada were of inferior quality. Correct packing of the apples means the winning or losing of the French market.

OBJECTS OF RADIO LEAGUE EXPLAINED

Much is being heard just now about the Canadian Radio League, an organization of radio listeners and the public. The league, which has its head quarters at 110 Wellington street, Ottawa, outlines its objects as follows:

To advocate the operation of Canadian broadcasting as a national public service.

To support the establishment of a Canadian radio broadcasting company with the powers of a private corporation and the functions of a public utility.

To urge the consideration of local most competent directorate and personnel for this company.

To encourage the organization and development of Canadian talent for radio programmes.

To urge the consideration of local as well as provincial and national broadcasting.

MONEY SEWN IN

SCOT'S CLOTHING

Pictou, N. S., Feb. 20—Three thousand dollars, consisting mostly of twenty dollar bills was discovered sewn into the clothing on the body of John Macdonald, 69, found dead at Logansville where he had lived alone in a frugal manner for the past twenty years.

WIDOW CHARGED WITH STARVING SISTER TO DEATH

Three Rivers, Que., Feb. 24—Dame Lucinda Lefebvre, thirty-five year old widow and mother of two children, has been arrested on a warrant holding her responsible for the death of her sister, who died a year ago. Physicians found she died from starvation and the lack of ordinary and medical care. Dame Dufebvre was warned, the doctors testified, that her sister should be removed to the hospital but she would not allow her to go, saying she would receive better care at home.

EARTHQUAKE WAVES

Earthquake vibrations or waves, as recorded at the Dominion Observatory, Department of the Interior, Ottawa, are of four kinds. Waves of two distinct varieties travel along the surface of the earth, penetrating to a depth of only a few miles, and carry with them information about the surface layer through which they have passed. Of even greater interest, however, are the waves which pass through the interior of the earth. They are also of two kinds, known as longitudinal and transverse. The longitudinal waves can pass through gases, liquids or solids, but the transverse vibrations can be propagated through a solid medium only.

CANADA'S FUTURE

London, (Eng.) Daily Express—Canada is passing through a depression, but it is from no inherent causes. The dumping of Russian grain and the general international dislocation of trade have enacted their heavy toll. But the glory of Canada's future shines like sun through the mists. Favoured among all the nations in the wealth of her soil and the virility of her people, the years ahead are laden with treasure.

ROYAL ARCH MASONS' CONVENTION TOMORROW

Niagara Falls, Ont., Feb. 24—It is expected that 300 delegates from all parts of Ontario and New York State will take part in the annual Royal Arch Masons' convention to be opened at the General Brock Hotel, on Wednesday morning. The executive will arrive today.

ITEMS OF NEWS

Mr. and Mrs. J. F. Houston, of Belleville, celebrated the thirty-third anniversary of their marriage on Sunday, February 15th.

Hastings County, at its last meeting, decided to spend \$25 in getting out literature or booklets explaining local conditions to send to manufacturers contemplating locating branch industries in Canada.

Last year, the thirty-five canning factories in the county of Prince Edward, thirteen of them Canadian Canners' plants, paid out to farmers over \$1,000,000 as well as \$300,000 in wages to men and women. It is the county's biggest industry and on it depends much of the prosperity of the people.

Announcement has been made by His Lordship, Bishop Seager, of the Diocese of Ontario, that the Rev. John de Pencier Wright, M.A., B.L., rector of Kemptonville, and father of Rev. W. L. Wright, of Tweed, has been appointed one of the three chaplains forming a board for examination of students for ordination.

Ottawa, Ont., Feb. 18—Parliament will be opened on March 12th by Mr. Justice Duff, of the Supreme Court, in his capacity as administrator, it was officially stated today. Canada's new Governor-General, the Earl of Bessborough, will not arrive until April third or fourth and Chief Justice Anglin, will not return from the West Indies until April 23.

On Friday afternoon last Melville Peters, aged 20 years, of Sydenham, was buried under a pile of sawdust and died about an hour after being rescued. The boy went to the saw mill to get a bag of sawdust to be spread on the floor of a butcher shop and while getting it the pile caved in on him and his predicament was not discovered until a few hours later.

Mr. W. H. Smith, Belleville, a Great War veteran, has had the twenty-first operation performed on him, the last having been performed last week by Dr. Etherington at Kingston General Hospital within three weeks of the twentieth. Mr. Smith has been a patient at five hospitals, including Christie Street, Kingston General, Hotel Dieu, Kingston General and Sydenham Hospital, Kingston, but he is still cheerful and is coming along nicely. His wife and five children reside in Belleville.

HOLSTEIN NEWS

During January the Holstein-Friesian Association of Canada according to the extension department, listed the largest number of cows qualifying in the R.O.P. that has ever been recorded in any one calendar month, the certificates issued covering both divisions, totalling 230 cows and heifers. The value and importance of the work have become more widely recognized as a result of extension activity, and the officials in charge express the belief that the splendid showing made in 1930 will be greatly augmented in 1931.

According to the extension department of the Holstein-Friesian Association of Canada, the forty-nine head of purebred Holstein cattle consigned from the herd of Col. A. H. Fair, Hemlock Park Farms, Kingston, Ont., and sold in the twenty-sixth Earlville sale, N. Y., last week, averaged for all ages \$171.94, with a top price of \$360 paid for the senior three-year old heifer, Wilma Echo of Annandale. Another high-class animal in Mr. Fair's offering was Paula Pietje Posch, fourth-prize winner in a strong class at the Royal last November. She sold for \$355.

In all there were 158 head sold in the sale, the total realized amounting to \$23,265, an average of \$147.28 per head.

The extension department of the Holstein-Friesian Association of Canada announces that an order has just been placed with the newly formed Provincial organization of Holstein breeders in Prince Edward Island for five well-bred young bulls and two high-class heifers the animals to be shipped about the end of April to British Guiana. The cattle will be carefully selected from herds carrying high-producing blood-lines on the island, and the exportation will be under the direct supervision of H. J. Kennedy, Southport, P.E.I.

CUTS PEARL BUTTONS FROM CHOIR'S CASSOCKS

Pictou, Feb. 22—The village of Wellington is mystified by a very unusual theft. A short time ago twelve new cassocks were purchased for the choir of the church of St. Andrew at that place. Running down the front of each garment were sixteen shiny pearl buttons. On a recent night it was found that all the buttons, excepting one, had been removed from the cassocks.

CHICKEN THIEVES CAUGHT

Campbellford, Feb. 24—Police hunted moonshiners and found chicken thieves today. Excise enforcement officers heard reports of a still being operated on a small farm east of Campbellford, and they raided the place this afternoon. They discovered no still, but heard cackles from a disused well, which had been covered carefully with logs. They removed the logs, and found fifteen chickens at the bottom of the well. Chief Brownley, of Campbellford, and Provincial Officer McBrien were notified, and identified the chickens as those stolen recently from Miss Mary Hill's farm. Subsequently, the officers arrested Walter Parsons, Ray Martin and Angus and Manson Lindsay. Magistrate Floyd held a Police Court session at once, heard Parsons and Martin plead guilty, and sentenced them to two years' imprisonment. The Lindsays elected trial by Judge. Chicken-stealing has been going on extensively in this district lately and plenty of poultry farmers have been sitting up all night with their shot guns across their knees. Police believe they have rounded up the whole gang.

SCHOOL TEACHING BY RADIO

Winnipeg, Feb. 24—Radio may shortly enter the Province's educational system, according to a statement made today by Hon. R. A. Hoey, Minister of Education, before the twenty-fifth annual convention of the Manitoba School Trustees. Addressing the delegates, Mr. Hoey declared the Manitoba Government is prepared to undertake, without cost, the education of pupils in Grade 10 of rural schools by means of correspondence, supplemented by radio. Mr. Hoey made this promise, providing school trustee boards co-operate in securing accommodation and maintaining a good school attendance.

SEEDING IN WEST

Regina, Feb. 24—Farmers of Webb district have been at work on the land for some days, and Monday of this week A. C. Thierman started seed again. Mr. Thierman found his land in good condition to receive the grain, and set two drills at work. Farmers in this district have no recollection of wheat being seeded in February in any former year.
